FUND OVERVIEW

- The Fund aims to achieve a return on your investment, through a combination of capital growth and income on the Fund's assets, which reflects the return of the equity market in the United States.
- The Fund is passively managed and may invest in equity securities (e.g. shares) listed and traded on regulated markets in the United States as well as financial derivative instruments (FDIs) (i.e. investments the prices of which are based on one or more underlying assets) including exchange traded S&P 500 futures contracts. A futures contract is a contract whereby the Fund agrees to buy or sell an underlying asset at a predetermined price in the future.
