Aware UCITS ETF

A sub-fund of iShares V plc

EUR (Dist) Share Class

ISIN: IE000ZQF1PE1

Exchange Traded Fund (ETF)

Manager: BlackRock Asset Management Ireland Limited

Objectives and Investment Policy

- ▶ The Share Class is a share class of a Fund which aims to achieve a return on your investment, through a combination of capital growth and income on the Fund’s assets, which reflects the return of the MSCI Europe Transition Aware Select Index, the Fund’s benchmark index (the “Index”).
- ▶ The Share Class, via the Fund is passively managed and aims to invest in equity securities (e.g. shares) that, so far as possible and practicable, make up the Index.
- ▶ The Index is designed to measure the performance of a sub-set of equity securities within the MSCI Europe Index (the “Parent Index”) which excludes issuers from the Parent Index based on the index provider’s Environmental, Social and Governance (“ESG”) exclusionary criteria. The remaining constituents of the Parent Index are then included in the Index in accordance with the index methodology on the basis of their involvement in the transition to a low-carbon economy and market capitalisation weighted.
- ▶ Companies may be excluded from the Parent Index if they are involved with controversial weapons, tobacco, thermal coal and unconventional oil and gas. Companies that are classified as violating United Nations Global Compact principles or have a “Red” MSCI ESG Controversy score are also excluded from the Index.
- ▶ The remaining companies from the Parent Index are selected for inclusion in the Index if they meet any of the following criteria: have commitment to one or more active carbon emissions reduction target(s) approved by the Science Based Targets initiative (“SBTi”); they generate green revenue that meet the threshold set by the index provider or are companies publishing emissions reduction targets and ranked below a threshold set by the index provider based on their Greenhouse Gas (“GHG”) intensity.
- ▶ The Index is market capitalisation weighted with constraints applied on constituent, country and sector weights and rebalances on a semi-annual basis.
- ▶ The Fund will adopt a best-in-class approach to sustainable investing. This means that it is expected that the Fund will invest in the best issuers regarding their involvement in the transition to a low-carbon economy (based on the ESG and inclusion criteria of the Index).
- ▶ The Fund intends to replicate the Index by holding the equity securities, which make up the Index, in similar proportions to it.
- ▶ The investment manager may use financial derivative instruments (“FDIs”) for direct investment purposes to produce a similar return to its Index.
- ▶ The Fund may also engage in short-term secured lending of its investments to certain eligible third parties to generate additional income to off-set the costs of the Fund.
- ▶ Recommendation: This Fund is suitable for medium to long term investment, though the Fund may also be suitable for shorter term exposure to the Index.
- ▶ Your shares will be distributing shares (i.e. income will be paid on the shares semi-annually).
- ▶ Your shares will be denominated in Euro, the Fund's base currency.
- ▶ The shares are listed on one or more stock exchanges and may be traded in currencies other than their base currency. The performance of your shares may be affected by this currency difference. In normal circumstances, only authorised participants (e.g. select financial institutions) may deal in shares (or interests in shares) directly with the Fund. Other investors can deal in shares (or interests in shares) daily through an intermediary on stock exchange (s) on which the shares are traded. Indicative net asset value is published on relevant stock exchanges websites.

Risk and Reward Profile

- ▶ The risk indicator was calculated incorporating simulated historical data and may not be a reliable indication of the future risk profile of the Share Class.
- ▶ The risk category shown is not guaranteed and may change over time.
- ▶ The lowest category does not mean risk free.
- ▶ The Share Class is rated six due to the nature of its investments which include the risks listed below. These factors may impact the value of the Share Class or expose the Share Class to losses.
 - Investment risk is concentrated in specific sectors, countries, currencies or companies. This means the Fund is more sensitive to any localised economic, market, political, sustainability-related or regulatory events.

- The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
- The benchmark index only excludes companies engaging in certain activities inconsistent with ESG criteria if such activities exceed the thresholds determined by the index provider. Investors should therefore make a personal ethical assessment of the benchmark index’s ESG screening prior to investing in the Fund. Such ESG screening may adversely affect the value of the Fund’s investments compared to a fund without such screening.
- ▶ Particular risks not adequately captured by the risk indicator include:
 - Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Share Class to financial loss.

Charges

The charges are used to pay the costs of running the Share Class, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

*Not applicable to secondary market investors. Investors dealing on a stock exchange will pay fees charged by their stock brokers. Such charges are publicly available on exchanges on which the shares are listed and traded, or can be obtained from stock brokers.

*Authorised participants dealing directly with the Fund will pay related transaction costs including, on redemptions, any applicable capital gains tax (CGT) and other taxes on underlying securities.

The ongoing charges figure is based on the fixed annualised fee charged to the Share Class in accordance with the Fund's prospectus. This figure excludes portfolio trade related costs, except costs paid to the depositary and any entry/exit charge paid to an underlying collective investment scheme (if any).

** To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges.
