## CHAIR'S STATEMENT

The Board of Directors of iShares II public limited company (the "Board") considers corporate governance matters and adherence to codes of best practice to be of the utmost importance. As Chair of the Board, I believe that it has operated effectively throughout the financial year and that its role and its composition are well defined, appropriate and support the long-term sustainable development of the iShares II public limited company (the "Entity").

### Overview of the Entity

The Entity is organised as an open-ended umbrella investment company with variable capital. The Entity was incorporated in Ireland on 16 December 1999 with limited liability and segregated liability between its funds and is organised under the laws of Ireland as a public limited company ("plc") pursuant to the Companies Act 2014 (as amended) (the "Companies Act") and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulation 2011 (the "UCITS Regulations") and is regulated by the Central Bank of Ireland (the "CBI").

The Entity is structured as an umbrella fund and is comprised of separate funds ("Funds") of the Entity.

"BlackRock Group" is used to represent the wider BlackRock economic group in its totality of which the ultimate holding company is BlackRock, Inc, a company incorporated in Delaware, USA. The term "BlackRock" is used to represent BlackRock Advisors (UK) Limited. The investment objectives and policies of each Fund are set out in the prospectus.

The Funds pursue strategies of either tracking or replicating the performance of a benchmark index in order to deliver the objectives of each Fund.

### Management and Administration

The Directors of the Entity have delegated the investment management, distribution and administration of the Entity and its Funds to BlackRock Asset Management Ireland Limited (the "Manager").

The Manager has delegated the management of the investment portfolio and distribution of the Entity's shares to the Investment Manager. The Investment Manager operates under guidelines determined by the Manager and as detailed in the Entity's prospectus and the various supplementary prospectuses relating to the Funds. The Investment Manager has direct responsibility for the decisions relating to the day-to-day running of the Funds and is accountable to the Board of the Manager and the Entity for the investment performance of the Funds.

The Manager has additionally appointed the BlackRock Advisors (UK) Limited (the "Investment Manager") as Distributor and it is the Investment Manager which is tasked with actively managing the relationship between the Entity and its shareholders with oversight of the Manager and Board.

The Manager has delegated the administration of the Entity and its Funds to State Street Fund Services (Ireland) Limited (the "Administrator") including the calculation of the daily net asset value ("NAV"), and the preparation of the financial statements of the Entity subject to the overall supervision of the Board and the Manager. State Street Fund Services (Ireland) Limited (the "Registrar") has also been appointed as the registrar of the Entity. The Entity has appointed State Street Custodial Services (Ireland) Limited (the "Depository") as depository of the assets with responsibility for the safe keeping of such assets, pursuant to the UCITS Regulations. As part of its fiduciary responsibility to the Entity, the Depository provides a certain level of ongoing oversight of the Entity, as well as reporting on the conduct of the Entity in each annual accounting period as set out in the Statement of the Depository's Responsibilities.

In accordance with Guidance Note 4/07 on the Organisation of Management Companies issued by the CBI, the board of the Manager has identified the personnel who monitor and control the management functions as outlined therein. These Manager personnel report to the board of the Manager and to the Board on a regular basis. The management functions delegated by the Manager are subject to appropriate reporting and ratification procedures, which are designed to ensure that the appropriate reports are received in a timely fashion such that the Manager and the Board can discharge their duties as part of the governance framework put in place by the Manager and the Entity. The Board reviews risk reporting on a regular basis together with an annual review of internal controls and risk management from the Manager.

## CHAIR'S STATEMENT (continued)

### The Board

The Board currently comprises five Directors, four of whom are independent. All Directors are non-executive. The members of the Board were chosen for their range of skills and experience. Peter Vivian has considerable experience in Exchange Traded Funds ("ETFs"), index investments, trading, financing, securities lending and foreign exchange, Ros O'Shea also has considerable experience in governance and accountancy, Deirdre Somers has extensive experience in markets regulation, listings and financial services, as well as a background in tax, Padraig Kenny has significant experience of the asset management and securities services industries, including the servicing of UCITS investment funds and investment fund corporate governance frameworks. I have expertise on the subjects of corporate governance, corporate law investments and EU law.

Peter Vivian was appointed as non-executive Director on 21 November 2022. Jessica Irschick resigned as a non-executive Director on 16 March 2023.

As Chair I lead the Board and take responsibility for its effectiveness in leading the Entity. Each Director continues to contribute to the running of the Board and management of the Entity and further details on each Director and the annual Board performance evaluation process is included later in this report.

The appointment of each Director is approved by the CBI, as Regulator, in advance of appointment by the Board. As part of the application the CBI receives information in respect of the Director's character, knowledge and experience as well as details of their other time commitments to ensure that the Director has sufficient time to devote to their duties. The CBI considers time commitments on an hourly basis as part of its assessment of director capacity, rather than in respect of the number of directorships held due to the nature of the Irish funds and open-ended funds industries. This assessment gives consideration to any appointments, employment or commitments and provides a more holistic review of a director's ability to undertake their duties.

The CBI requires Directors to be available to meet the regulator if required and the expectation is that the majority of the Board be resident in Ireland. Accordingly, the majority of Directors, and all independent Directors, are resident in Ireland.

### Matters relating to the Entity during the financial year

There were 48 Funds in operation as at 31 October 2023.

The following Fund has terminated operations in prior years and is pending revocation by the CBI. Termination audited financial statements continue to be prepared for the below Fund as the Fund still holds residual cash balances at the balance sheet date.

- iShares EURO STOXX 50 ex-Financials UCITS ETF

It is the opinion of the Board that all Funds have performed in line with their objectives and that any tracking differences have been explained in the Investment Manager's report. Additional information on the Funds' performance can be found in the Investment Manager's report.

During the course of the financial year, the regulation around sustainability-related disclosures continued to evolve through the Sustainable Finance Disclosure Regulation ("SFDR") and Taxonomy Regulation. Additional disclosure requirements under SFDR Level 2 are applicable to all annual reports published on or after 1 January 2023 and such disclosures as they relate to the Funds can be found in the additional information and regulatory disclosures (unaudited) section of this report. The Board continues to monitor the development and evolution of sustainability regulation with the assistance of the Manager and the input of the external auditors.

## BACKGROUND

The Entity is an open-ended investment company with variable capital. The Entity was incorporated in Ireland on 16 December 1999 with limited liability and segregated liability between its funds and is organised under the laws of Ireland and is regulated by the CBI as a public limited company pursuant to the Companies Act and the UCITS Regulations.

The Entity is structured as an umbrella fund and comprises of separate funds ("Fund") of the Entity. The shares of each Fund may be grouped into different classes of shares (each a "share class"). Each Fund will represent a separate portfolio of assets and may consist of one or more share classes. Each share class may apply different subscription and redemption provisions, charges, fees or brokerage arrangements. The creation of an additional class of shares will be notified to the CBI in advance. The portfolio of assets maintained for each Fund will be invested in accordance with the investment objectives and policies applicable to each Fund as set out in the prospectus.

While assets and liabilities that are specific to a share class within a Fund would be attributable to (and should be borne by) only that share class, there is no segregation of liabilities between share classes as a matter of Irish law. Due to the lack of segregation of liabilities as a matter of law, there is a risk that the creditors of a share class may bring a claim against the assets of the Fund notionally allocated to other share classes.

The term "Fund" or "Financial Product" shall be deemed to mean either a Fund or Funds of the Entity, or if the context so requires, the Manager or its delegate acting for the accounts of the relevant Fund. The term "BlackRock" and "Investment Manager" are used to represent BlackRock Advisors (UK) Limited as appropriate. All references to "redeemable shares" shall be deemed to mean redeemable participating shares when Fund shares are classified as financial liabilities. The term "Directors" means the directors of the Entity.

Further details, including the investment objectives and minimum subscription requirements, are set out in the Entity's prospectus.

### Fund details

The Entity had 48 Funds in operation as at 31 October 2023.

These Funds are ETFs, which provide the flexibility of a share with the diversification of a Fund. They can be bought and sold like any other share listed on a stock exchange, but provide instant exposure to many companies or various financial instruments relevant to the Fund and its benchmark index.

### Changes to the Entity during the financial year

On 21 November 2022, Peter Vivian was appointed as a non-executive Director.

On 1 December 2022, an addendum to the prospectus was issued to reflect changes in the SFDR and the reclassification of iShares Global Clean Energy UCITS ETF and iShares MSCI Europe Paris-Aligned Climate UCITS ETF from Article 9 to Article 8 Funds under SFDR.

On 29 December 2022, an updated prospectus was issued by the Entity to include Schedule VII with pre-contractual disclosures for Funds which promote environmental or social characteristics.

On 16 January 2023, Sanne Corporate Administration Services (Ireland) Limited, Secretary, was renamed Apex Group Corporate Administration Services Ireland Limited.

On 16 March 2023, Jessica Irschick resigned as non-executive Director.

On 4 April 2023, an updated prospectus was issued to reflect the name change of the Secretary and a change in the Board of Directors.

On 22 June 2023, an updated prospectus was issued to reflect the name change of iShares BRIC 50 UCITS ETF to iShares BIC 50 UCITS ETF and its benchmark index name from FTSE BRIC 50 Net of Tax Index to FTSE BIC 50 Net of Tax Index.

## INVESTMENT MANAGER'S REPORT

### Investment objective

The investment objective of the Funds is to provide investors with a total return, taking into account the capital and income returns, which reflect the total returns of the respective benchmark listed in the below table.

### Investment management approach and environmental, social and governance (“ESG”) policy

The following table outlines the investment management approach adopted for each Fund. It also identifies which Funds promote environmental or social characteristics (“Article 8 Funds”) or have sustainable investments as an objective (“Article 9 Funds”), under the SFDR. Further detail around how Article 8 Funds have achieved these characteristics and objectives is included in the SFDR disclosures supplementary section to the Annual Report.

For any other Funds that do not meet the SFDR criteria for Article 8 or 9 Funds, the investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities. The Investment Manager has access to a range of data sources, including principal adverse indicator (“PAI”) data, when making decisions on the selection of investments. However, whilst BlackRock considers ESG risks for all portfolios and these risks may coincide with environmental or social themes associated with the PAIs, unless stated otherwise in the prospectus, the Funds do not commit to considering PAIs in driving the selection of their investments.

## INVESTMENT MANAGER'S REPORT (continued)

### Investment management approach and environmental, social and governance ("ESG") policy (continued)

Fund name	Benchmark index	Investment management approach	SFDR criteria
iShares US Aggregate Bond UCITS ETF	Bloomberg US Aggregate Bond Index	Index tracking - non-replicating	Other
iShares US Property Yield UCITS ETF	FTSE EPRA/NAREIT United States Dividend + Index	Index tracking - replicating	Other

Further information on the index investment strategies used is detailed below:

For physically replicating funds, the investment management approach is to buy a portfolio of securities that as far as practicable consist of the securities that make up the benchmark index, in similar proportion to the weights represented in the benchmark index over a defined period of time.

For non-replicating funds, the investment management approach aims to match the main risk characteristics of the benchmark index by investing in a portfolio that is primarily made up of securities that represent the benchmark index. The objective is to generate a return which is as close as practicable to the total return of the benchmark index net of transaction costs and gross of fees and other cost.

### Performance summary, tracking difference and tracking error

The following table compares the realised Fund performance against the performance of the relevant benchmark index during the financial year ended 31 October 2023. It also discloses the anticipated tracking error of the Fund (disclosed in the prospectus on an ex-ante basis) against the actual realised tracking error of the Fund as at 31 October 2023.

Further information on these performance measures and calculation methodologies used is detailed below:

- Fund returns disclosed are the performance returns for the primary share class for each Fund, net of fees, which has been selected as a representative share class. The primary share class represents the class of share invested in by the majority of investors in the Fund and also takes into account other relevant factors such as the Fund's base currency. The returns disclosed for the comparative are in the same currency as the primary share class, unless otherwise stated. Performance returns for any other share class can be made available on request.
- For Funds that commenced trading and/or fully redeemed during the financial year, returns are shown from the date the Fund commenced trading and/or to the date the Fund fully redeemed, and TER is the effective TER from the date the Fund commenced trading and/or to the date the Fund fully redeemed.
- Fund returns are based on the NAV calculated in accordance with the prospectus for the financial year under review with any dividends reinvested. Returns less than 0.005% are rounded down to zero. Where, due to a public holiday or market closure, a date relevant to determination of the fund returns would not be a dealing day (such that a NAV would not otherwise be calculated on that day), a NAV may nevertheless be determined and calculated in accordance with the prospectus for the purposes of these disclosures. Additionally, due to Financial Reporting Standard 102 ("FRS 102") requirements which apply to the financial statements, there may be differences between the NAV per share as recorded in the financial statements and the NAV per share calculated in accordance with the prospectus.
- Tracking difference is defined as the difference in returns between a Fund and its benchmark index.
- Each Fund's TER is accrued on a daily basis throughout the financial year, which can impact the measurement of a tracking error in a positive or negative manner depending on the performance in the market and the TER rate applied. The extent and magnitude of this effect on performance measurement is subject to the timing of the market performance relative to the performance period of the Fund and can be greater than the headline TER in a positive market and lower than the TER in a negative market. The TER expresses the sum of all fees, operating costs and expenses, with the exception of direct trading costs, charged to each Fund's assets as a percentage of the average Fund assets based on a twelve-month period ended 31 October 2023.

# iSHARES II PLC

## INVESTMENT MANAGER'S REPORT (continued)

### Performance summary, tracking difference and tracking error (continued)

- Anticipated tracking error is based on the expected volatility of differences between the returns of a fund and the returns of its benchmark index.
- Realised tracking error is the annualised standard deviation of the difference in monthly returns between a fund and its benchmark index. Tracking error shows the consistency of the returns relative to the benchmark index over a defined period of time. The realised tracking error is annualised and calculated using data from the preceding 36 month observation period. Where a Fund has not been trading for 36 months, the annualised tracking error since inception has been presented.

# iSHARES II PLC

## INVESTMENT MANAGER'S REPORT (continued)

### Performance summary, tracking difference and tracking error (continued)

The table and the relevant footnotes also indicate the primary drivers impacting tracking difference gross of the TER, and where the realised tracking error is greater than the anticipated tracking error. Primary drivers impacting tracking difference include securities lending and investment techniques. Investment techniques include cash management, trading costs from rebalancing, currency hedging, futures held and sampling techniques. Net income difference and tax may also impact tracking difference and tracking error due to withholding tax suffered by the Fund on any income received from its investments. The level and quantum of tracking difference arising due to withholding taxes depends on various factors such as any reclaims filed on behalf of the Fund with various tax authorities, any benefits obtained by the Fund under a tax treaty or any securities lending activities carried out by the Fund. Importantly, these impacts can be either positive or negative depending on the underlying circumstances.

## INVESTMENT MANAGER'S REPORT (continued)

### Global economic overview

Global equities, as represented by the MSCI All Country World Index, returned 10.50% (in US Dollar terms) during the twelve months ended 31 October 2023. Equities gained amid cooling inflation (the rate of increase in the prices of goods and services) and investor optimism that monetary policy tightening from the world's largest central banks was slowing. Although the inflation rate was still elevated by historical standards, it declined substantially during the period, as supply chain disruptions moderated and higher interest rates dampened demand.

The US economy showed strong growth, as both consumer and public spending continued to rise. While several prominent regional banks failed in the spring of 2023, prompt government action limited the impact on the wider economy. The US jobs market remained tight, and unemployment was low throughout the twelve-month period, although it rose slightly near the end of the period. Economic growth in Japan was solid in the first half of 2023 before contracting in the third quarter. The UK economy was nearly flat amid weakness in exports as global trade cooled. In the Eurozone, growth was tepid in the first half of 2023 before contracting slightly in the third quarter as high interest rates continued to weigh on the region's economy. UBS's takeover of the failed Credit Suisse at the behest of regulators stabilised markets.

Most emerging market economies continued to expand, although fluctuating commodity prices and the higher interest rate environment presented significant economic challenges. The Chinese economy grew at a slow pace relative to the country's historical rate, while falling consumer prices raised concerns about deflation (declining prices for goods and services). The Indian economy continued to grow, accelerating in the second quarter of 2023 amid strong growth in services and robust consumer demand.

The world's largest central banks continued to implement various measures aimed at monetary policy tightening. The US Federal Reserve ("the Fed") raised interest rates six times during the twelve-month period, slowing the pace of its increases by leaving interest rates unchanged at three of its meetings. The Bank of England ("BoE") raised interest rates seven times during the twelve-month period, although it held rates steady at its final meeting of the period. Similarly, the European Central Bank ("ECB") declined to raise interest rates at its October 2023 meeting following seven increases earlier in the period.

Global equity performance was positive during the twelve-month period, as investors assessed the impact of rapidly changing economic and credit conditions. Subsiding inflation and the slower pace of the Fed's interest rate increases drove hopes that the current cycle of monetary policy tightening was nearing an end. Globally, bonds and equities that factor in companies' environmental, social and governance ("ESG") characteristics faced regulatory concerns and shifting investor sentiment. Globally, ESG funds experienced overall inflows in the first half of 2023. The issuance of new bonds for ESG-related projects declined in 2022 relative to the prior year, but rebounded in the first half of 2023.

Yields (which move inversely to prices) on the 10-year US treasury, a benchmark lending rate for the global bond market, rose during the twelve-month period as central banks tightened monetary policy. The yield curve, which measures the difference between yields at different maturity levels, remained inverted, such that shorter-maturity yields were higher than longer-maturity yields, a signal that markets were concerned about slowing economic growth. The downgrade of US government debt by a major ratings company highlighted growing debt-servicing costs. Gilt prices declined, and yields on UK gilts were volatile early in the period in the wake of a leadership change and uncertainty surrounding government plans for fiscal policy. Both Eurozone and Japanese government bond prices declined slightly overall during the twelve-month period. However, the Japanese government adjusted its yield cap for 10-year government bonds, leading to a sharp increase in the yields for those bonds, while substantial purchases from the Bank of Japan subsequently drove fluctuating prices.

Global corporate bonds gained overall, as investors reassessed credit in light of changing economic conditions. Higher bond yields attracted investors and continued resilience in the global economy alleviated credit concerns. High-yield bonds posted particularly strong returns as strong corporate balance sheets reassured investors.

Equities in emerging markets posted a solid advance, benefiting from the relatively stable global economic environment and the respite from tighter monetary policy. As concerns about a possible recession diminished, some investors rotated back into emerging market stocks, boosting prices. Emerging market bond prices posted a positive return overall as investors anticipated less restrictive monetary policy in the developed economies that drive global growth.

## INVESTMENT MANAGER'S REPORT (continued)

### Global economic overview (continued)

The commodities markets were volatile and continued to adjust to the aftermath of the Russian invasion of Ukraine. Brent crude oil prices were nearly flat as energy markets stabilised and global oil production increased. Natural gas prices in the Eurozone ended the period notably lower, as a warm winter and success in securing alternate gas suppliers drove prices down. Gold prices rose significantly amid elevated inflation, a stronger US Dollar, and the slowing pace of Fed interest rate increases.

In the foreign exchange markets, the US Dollar's performance was mixed against other major global currencies. The US Dollar strengthened against the Japanese Yen but declined relative to the Euro and Sterling. The Fed began pausing interest rate hikes before the ECB and BoE, which helped drive the increase in the relative value of the Euro and Sterling. The US Dollar was nearly flat against the Chinese yuan, which was pressured by China's economic slowdown.

## CORPORATE GOVERNANCE STATEMENT

### Introduction

The Board is committed to maintaining the highest standards of corporate governance and is accountable to shareholders for the governance of the Entity's affairs. The Entity is subject to the United Kingdom Financial Conduct Authority Listing Rules (the "FCA Listing Rules") as they apply to overseas open-ended investment funds under Chapter 16 of the FCA Listing Rules, and applicable chapters of the FCA Disclosure and Transparency Rules; available at <http://www.fca.org.uk>. The Entity is subject to the governance standards set out in the UK Corporate Governance Code 2018 (the "Code") issued by the Financial Reporting Council ("FRC"), which is applicable to accounting periods beginning on or after 1 January 2019.

The Code is published by the FRC and is available to download from - <http://www.frc.org.uk>. The Entity has also voluntarily adopted the Irish Funds Corporate Governance Code for Collective Investment Schemes and Management Companies (Dec 2011) (the "Irish Funds Code") and, in addition, refers to this code for the financial year under review. The Irish Funds Code can be obtained from the Irish Funds website at <https://files.irishfunds.ie>.

The Entity is also subject to corporate governance practices imposed by the UCITS Regulations which can be obtained from the CBI's website at <http://www.centralbank.ie/regulation/industry-sectors/funds/ucits/Pages/default.aspx> and are available for inspection at the registered office of the Entity.

The Board has considered the principles and recommendations of the Code and has put in place a framework for corporate governance which it believes both adheres to best practice and is appropriate for the Entity, given the nature of its structure as an investment company.

The sole objective of the Entity is the collective investment in transferable securities and/or other liquid financial assets referred to in Regulation 68 of the UCITS Regulations of capital raised from the public and which operates on the principle of risk spreading. The Constitution of the Entity provides that the Entity may offer separate classes of shares, each representing interests in a Fund comprising a distinct portfolio of investments. The specific investment objectives and policies of each Fund are formulated by the Board at the time of the creation of the Fund and any change to a Fund's investment objective and/or material change to the investment policy of a Fund is subject to the prior consent of shareholders evidenced by either a majority vote at a meeting of shareholders of a Fund or by written consent of all the shareholders.

This statement summarises the corporate governance structure and processes in place for the Entity for the financial year under review.

### Complying with the Code and Irish Funds Code

The Board has made the appropriate disclosures in this report to ensure the Entity meets its obligations pursuant to the Code. The Entity has no employees and the Directors are all non-executive. The Board recognises that the shareholders of the Entity invest into a regulated investment company and considers that the governance structure and operational processes in place for the Entity are suitable for an investment company.

The Board considers that the Entity has complied with the relevant provisions contained within the Code throughout this financial year except, as explained below, where departure from the Code is considered appropriate given the Entity's position as an investment company. This Corporate Governance Statement, together with the Statement of Directors' Responsibilities, describes how the main principles of the Code are applied to the Entity.

The Entity confirms that it applied the principles and complied with all the provisions of the Code throughout the year except in relation to the following:

- (i) the appointment and role of the Chief Executive (provision 14 of the Code);
- (ii) executive Directors' remuneration (part 5 of the Code on remuneration);
- (iii) the gender balance of those in the senior management and their direct reports (provision 23 of the Code), as there are no employees and an external corporate entity has been appointed as company secretary;
- (iv) the need for an internal audit function (provision 25 and 26 of the Code);

# iSHARES II PLC

## CORPORATE GOVERNANCE STATEMENT (continued)

### Complying with the Code and Irish Funds Code (continued)

- (v) the need to establish a Remuneration Committee (provision 32 of the Code). Please see the "Report on Remuneration" on page 738 for details of remuneration governance for the BlackRock Group;
- (vi) the need to assess and monitor culture and the approach to investing in and rewarding the workforce (provision 2 of the Code); and
- (vii) a method for "workforce" engagement (principle E of the Code).

Due to the nature of its structure as an investment company which has no workforce, the Board does not consider the above provisions relating to employees appropriate to the Entity. In relation to provisions of the Code on executive Directors' remuneration, there are no executive Directors on the Board and BlackRock employees who are also Directors do not receive remuneration for their role as Directors. Therefore, the Entity was not compliant with these provisions during and post the financial year under review.

The Board considers it appropriate for the Entity not to have its own internal audit function as all of the management and administration of the Entity is delegated to the Manager, Investment Manager, Administrator and Depositary.

The Code also includes provisions for the re-election of Directors by shareholders with which the Entity was in compliance during the financial year under review. Additionally, the Constitution provides that retiring Directors are eligible for re-appointment by the other Directors every three years.

The Board considers that the Entity has been in full compliance with the Irish Funds Code during the financial year under review.

### Board composition

The Board currently consists of five non-executive Directors, four of whom are independent. The Board is committed to maintaining an appropriate balance of skills, experience, independence and knowledge amongst its members.

In accordance with the Code, the Board has carried out an assessment based on the independence requirements set out therein and has determined that, in its judgement Mr. William McKechnie, Ms. Deirdre Somers, Ms. Ros O'Shea and Mr. Pdraig Kenny are independent within the meaning of those requirements.

Ms. Jessica Irschick, an employee of BlackRock Group, also served as non-executive Director during the financial year under review and resigned as Director on 16 March 2023.

All independent Directors are independent of the Manager, the Investment Manager and other third-party service providers such as the Administrator and Depositary. The Board has also considered and is satisfied that the presence of four non-executive independent Directors (including the Chair) is appropriate for the Board. The Board has appointed Mr. Pdraig Kenny as the Senior Independent Director.

Each Director is compliant with the Standards of Fitness and Probity (the "Standards") issued by the Central Bank of Ireland pursuant to Section 50 of the Central Bank Reform Act 2010. Confirmation of compliance with the Standards is received from each Director prior to appointment and then at each Board meeting of the Entity. The Entity provides an annual confirmation to the Central Bank of the Board's compliance with the Standards.

The Board has adopted a conflicts of interest policy to identify and management and actual, potential or perceived conflicts of interest. This includes the management of any influence of third parties such as the Manager, Investment Manager, Administrator and Depositary. No Directors have shareholdings in the Entity.

The Directors' biographies above collectively demonstrate a breadth of investment knowledge, business and financial skills which enables them to provide effective strategic leadership, oversight and proper governance of the Entity. Accordingly, the Board recommends the re-election of each Director.

# iSHARES II PLC

## CORPORATE GOVERNANCE STATEMENT (continued)

### Delegation of responsibilities

The Directors of the Entity have delegated the following areas of responsibility:

#### Management and administration

The Directors of the Entity have delegated the investment management, distribution and administration of the Entity and its Funds to BlackRock Asset Management Ireland Limited (the “Manager”).

The Manager has delegated the management of the investment portfolio and distribution of the Entity’s shares to the Investment Manager. The Investment Manager operates under guidelines determined by the Manager and as detailed in the Entity’s prospectus and the various supplementary prospectuses relating to the Entity’s Funds. The Investment Manager has direct responsibility for the decisions relating to the day-to-day running of the Entity’s Funds and is accountable to the Board of the Manager and the Entity for the investment performance of the Funds.

The Entity has appointed State Street Custodial Services (Ireland) Limited (the “Depositary”) as depositary of the assets with responsibility for the safe keeping of such assets, pursuant to the UCITS Regulations. As part of its fiduciary responsibility to the Entity, the Depositary provides a certain level of ongoing oversight of the Entity as well as reporting on the conduct of the Entity in each annual accounting period as set out in the Statement of the Depositary’s Responsibilities.

The Board has established a Nominations Committee and an Audit Committee. The Directors have delegated certain functions to these committees. Please see the “Committees of the Board” section in this Corporate Governance Statement for further details.

### Insurance

The Entity has maintained appropriate Directors’ and Officers’ liability insurance cover throughout the year.

### Culture

The Board has an open culture where there is regular communication and discussion is encouraged. As the Entity is an investment company, with no employees and operating under a delegated model, the approach to culture is different to that of a company with employees, being more of an oversight model than one of direct engagement. In a delegated model, the oversight and monitoring role is a key element of cultural governance and the Board receive presentations from key service providers, such as the Manager, on how they manage and monitor culture within their organisations, to ensure their approach is aligned with the Board’s. The Board has a specific responsibility to ensure that the Funds are managed in the best interests of investors and the decisions of the Board are focused on this responsibility. It is also the Board’s responsibility to set the tone from the top and lead by example in boardroom discussion and interactions, in line with the Board’s core values. These qualities and commitments are reflected in the Director recruitment process, together with the principles of diversity and inclusion.

### Board’s responsibilities

The Board meets monthly and also on an ad hoc basis as required. All Directors are expected to attend each meeting and the attendance at Board and Committee meetings during the financial year is set out on the following page. Directors are provided with relevant papers in advance of each Board meeting. In addition, electronic copies of meeting papers and other relevant information are available to Directors. If a Director is unable to attend a meeting, they will still receive the papers. It may be required for ad hoc Board meetings to be arranged at short notice, as such it may not always be possible for all Directors to attend such Board meetings.

The Board reserves to itself decisions relating to the determination of investment policy and objectives of the Funds and any change in investment strategies of the Funds, the appointment and removal of the Entity Secretary and entering into any material contracts. The Board also approves the prospectus, circulars to shareholders, listing particulars and other relevant legal and fund documentation. A formal schedule of matters specifically reserved for decision by the Board is maintained.

### Board's responsibilities (continued)

Any Director who resigns their position is obliged to confirm to the Board and the CBI that the resignation is not connected with any issues with, or claims against, the Entity. Furthermore, any Director who has concerns about the running of the Entity or a proposed course of action may provide a written statement to the Chair or Senior Independent Director outlining their concerns for circulation to the Board or alternatively may have their concerns formally recorded in the minutes of a Board meeting.

The Board has responsibility for ensuring that the Entity keeps adequate accounting records which disclose with reasonable accuracy at any time the financial position of the Entity and which enable it to ensure that the financial statements comply with the Companies Act and relevant accounting standards. It is the Board's responsibility for preparing the annual report and accounts, and to present a fair, balanced and understandable assessment of the Entity's financial position, which extends to interim financial statements and other reports, which provides the information necessary for shareholders to assess the Entity's position, performance, business model and strategy. The Board is also responsible for safeguarding the assets of the Entity and for taking reasonable steps in the prevention and detection of fraud and other irregularities.

The Directors have access to the advice and services of the Entity Secretary, external counsel and the resources of the Manager and Investment Manager should they be needed. Where necessary, in the furtherance of their duties, the Board and individual Directors may seek independent professional advice.

### Directors' induction and training

Prior to their appointment, each new Director receives a full and formal tailored induction incorporating relevant information regarding the Entity and their duties and responsibilities as a Director. In addition, a new Director is required to spend some time with representatives of the Manager and Investment Manager so that the new Director will become familiar with the various processes which the Manager and Investment Manager considers necessary for the performance of their duties and responsibilities to the Entity.

The Entity's policy is to encourage Directors to keep up to date with developments relevant to the Entity. The Directors have attended and will continue to attend updates and briefings run by the Manager and Investment Manager which are relevant to the Entity. The Directors also receive regular briefings from, amongst others, external auditors, investment strategists, depositaries and legal advisors regarding any proposed product developments or changes in laws or regulations that could affect the Entity. The Board is supplied with information in a timely manner and in a form and of a quality appropriate to enable it to discharge its duties. The training needs of the Directors are evaluated as part of the annual performance evaluation of the Board. Further information in respect of performance evaluation is provided below.

### Performance evaluation

The Board formally reviews its performance on an annual basis and an appraisal system has been implemented for the Board, its supporting Committees and the individual Directors, including the Chair. This evaluation process assists in identifying individual Directors' training and development needs. The Board is satisfied with the robustness of the appraisal system and considers the current review and evaluation process adequate. The Board evaluation for 2022 has been completed with no material issues identified.

This performance evaluation also gives consideration to the accuracy, timeliness and clarity of information received by the Board in order to fulfil its duties and obligations.

The Board also reviewed the other time commitments of each Director to consider that they continued to have sufficient time to devote to their role with the Entity. Each Director advises of any changes to their time commitments at each Board meeting and the Entity provides an annual confirmation to the CBI that each Director continues to have sufficient time to devote their duties and responsibilities. The Board has no concerns in respect of the ability of each Director to devote sufficient time to their role. Details of Director attendance at Board and Committee meetings is detailed in this Corporate Governance Statement.

### Diversity report

The Nominations Committee, together with the Board, acknowledges the importance of diversity to enhance its operation. During the selection process the Board and Nominations Committee are committed to selecting those with a diversity of business skills, experience and gender and candidates for appointment are considered based on these attributes. The Board's principle is that each member of the Board must have the skills, experience, knowledge and overall suitability that will enable each Director to contribute individually, and as part of the Board team, to the effectiveness of the Board. Subject to that overriding principle, the Board believes that diversity of experience and approach, including educational and professional background, gender, age and geographical provenance, amongst Board members is of great value when considering overall Board balance in making new appointments to the Board. The Board's priority is to ensure that it continues to have strong leadership and the relevant skills to deliver the business strategy. The implementation of the Board's diversity policy is monitored by the Nominations Committee which reviews the balance of skills, knowledge, experience and diversity on the Board and leads succession planning for appointments to the Board. The Nominations Committee will ensure that all selection decisions are based on merit and that recruitment is fair and non-discriminatory. The Board's policy is to have women make up at least 30% of the Board's membership and currently 40% of the Board are women. The current Board composition reflects diverse age, gender, educational and professional backgrounds.

The Board notes the introduction of specific board diversity targets in the FCA Listing Rules applicable for financial years starting on or after 1 April 2022. As an open-ended investment company these targets and associated updates to the FCA Listing Rules are not applicable.

The Board is aware of the benefits of diversity and continues to give consideration to all aspects of diversity as part of the annual Board evaluation.

### Committees of the Board

#### Nominations Committee

The Board has established a Nominations Committee comprising of independent Directors. The Nominations Committee comprises of Mr William McKechnie (Chair), Ms Deirdre Somers and Ms Ros O'Shea. The key objective of the Nominations Committee is to ensure the Board comprises individuals with the appropriate balance of skills, experience, independence and knowledge appropriate to the Entity to ensure that it is effective in discharging its responsibilities and oversight of all matters relating to corporate governance.

The Nominations Committee is responsible for evaluating and nominating for the approval of the Board candidates to fill Board vacancies as and when they arise. Before a proposal is made to the Board, the Committee members will ensure that the capabilities required for a particular appointment have been considered. They will also ensure that on appointment to the Board, non-executive Directors receive a formal letter of appointment setting out clearly what is expected of them in terms of time commitment, committee service and involvement outside Board meetings.

There is continued focus on succession planning, building on work undertaken in previous years. The Committee continues to keep under review, on an ongoing basis, the structure, size and composition of the Board and its Committees, making recommendations to the Board as appropriate. Consideration is given to the tenure of the Board and anticipated retirements over the next few years, together with the need to ensure the appropriate mix of knowledge, skills and experience, and diversity. The Committee also considered the Entity's Diversity Policy and the Director Selection, Re-appointment and Removal Policy both of which were recommended to, and subsequently approved by, the Board.

The process of identifying potential candidates gives due regard to the Entity's Diversity Policy, the Entity's Director Selection, Reappointment and Removal Policy and the need to ensure that the Board and its Committees have the appropriate mix of knowledge, skills and experience. Following, due consideration and formal Committee meetings, the Nominations Committee provides recommendations to the Board in respect of any proposed new Directors. The Board is ultimately responsible for the approval and appointment of any new Directors and the membership of the Nominations Committee and Audit Committee. Any appointment approved by the Board is subject to the approval of the proposed individual by the CBI.

## CORPORATE GOVERNANCE STATEMENT (continued)

### Committees of the Board (continued)

#### Nominations Committee (continued)

When considering succession planning the Nominations Committee gives due consideration to the applicable regulations and legislations applicable to the Entity, including the requirements of the Code. This includes monitoring the length of tenure of Directors and consideration of the ongoing independence of Directors where applicable.

Based on its assessment for 2022, the Committee is satisfied that, throughout the financial year, all independent non-executive directors remained independent, as to both character and judgement. The Committee, and the Board gave specific consideration to any director who had served over 6 years. In recommending Directors for re-election, the Committee reviews the performance of each non-executive Director and their ability to continue meeting the time commitments required, taking into consideration individual capabilities, skills and experiences and any relationships that have been disclosed. All Directors were considered to have appropriate roles.

The Board carried out an annual evaluation of its effectiveness during the year. This was an internal evaluation with no material issues identified. The Board feels that the current evaluation process is effective and sufficiently robust and therefore at the present time the Board does not feel that an externally facilitated Board evaluation is required.

Annually, as part of the Board effectiveness review, the Committee also undertakes a review of its own effectiveness. The Board discussed the results of Board evaluation, culture and succession planning and the findings of this review were considered at its meeting in July 2023.

The Nominations Committee met on 25 May 2023 in order to review the Committee's terms of reference and its own performance and to review the structure, size and composition of the Board.

The terms of reference of the Nominations Committee are available upon request.

#### Audit Committee

The Entity has established an Audit Committee which reports directly to the Board and meets on a monthly basis in order to discharge its duties. Further information on how the Audit Committee carried out its duties during the financial year under review is contained in the Audit Committee report.

The Board considered that all of the members of the Audit Committee were suitably qualified and had sufficient experience to discharge their responsibilities effectively. Furthermore, Ros O'Shea and Deirdre Somers are qualified accountants with relevant experience in financial matters as they pertain to investment companies. Padraig Kenny has significant experience of the asset management and securities services industries, including the servicing of UCITS investment funds and investment fund corporate governance frameworks.

#### Internal control and risk management

The Board is responsible for the risk management and internal controls of the Entity and for reviewing their effectiveness, for ensuring that financial information published or used within the business is reliable, and for regularly monitoring compliance with regulations governing the operation of the Entity. Particular responsibilities have been delegated to the Audit Committee as outlined in the Audit Committee report. The system is designed to manage and mitigate rather than eliminate the risk of failure to achieve the Entity's business objectives and can only provide reasonable and not absolute assurance against material misstatement or loss and relies on the operating controls established by the service providers. The Board is also responsible for overseeing the management of the most significant risks through the regular review of risk exposures and related key controls.

The Board reviews the Entity's principal and emerging risks and the control processes over the risks identified. The control processes cover financial, operational, compliance and risk management, and are embedded in the operational procedures of the Manager, the Investment Manager and other third-party service providers including the Administrator and the Depositary. There is a monitoring and reporting process to review these controls, which has been in place throughout the financial year under review and up to the date of this report. The Board can confirm that they have carried out a robust assessment of the principal and emerging risks facing the Entity, including those that would threaten its business model, future performance, solvency and liquidity, the principal risks are identified and explored in greater detail within the section 'Financial Instruments and Risks' which forms part of the financial statements. This section also explains how these risks are being managed and mitigated. The emerging risks are detailed later in this section.

The Manager considers emerging risks in numerous forums and the Risk and Quantitative Analysis team produces an annual risk survey. Any material risks of relevance to the Entity through the annual risk survey will be communicated to the Board. The Board will continue to assess these risks on an ongoing basis. In relation to the Code, the Board is confident that the procedures that the Entity has put in place are sufficient to ensure that the necessary monitoring of risks and controls has been carried out throughout the financial year.

## CORPORATE GOVERNANCE STATEMENT (continued)

### Internal control and risk management (continued)

The Board is responsible for establishing and maintaining adequate internal control and risk management systems of the Entity in relation to the financial reporting process. The Entity has procedures in place to ensure all relevant accounting records are properly maintained and are readily available, including production of annual and half-yearly financial statements. These procedures include appointing the Manager to maintain the accounting records of the Entity independently of the Investment Manager and the Depositary. The Manager has appointed the Administrator to maintain the accounting records of the Entity. The annual and half-yearly financial statements of the Entity are required to be approved by the Board of Directors of the Entity and filed with the CBI and the London Stock Exchange. The financial statements are prepared in accordance with accounting standards generally accepted in Ireland, the Companies Act and the UCITS Regulations. The financial statements are required to be audited. The External Auditors' report, including any qualifications, is reproduced in full in the annual report of the Entity.

### Monitoring and review activities

There are procedures designed for monitoring the system of internal control and risk management and to capture and evaluate any failings or weaknesses. Should a case be categorised by the Board as significant, procedures exist to ensure that necessary action is taken to remedy the failings.

During the financial year under review the Depositary reported to the Board on a quarterly basis.

The Depositary and the Administrator provides annual Service Organisational Control Reports outlining an overview of the controls environment adopted and applied by the Depositary and the Administrator to the Manager. The Manager reports annually on it to the Audit Committee of the Entity. The Manager receives a report from the Administrator on the internal controls of the administrative operations of the Entity and the Administrator reports to the Board on an annual basis.

### Review of effectiveness

The Board has reviewed the effectiveness of the internal control and risk management systems (including financial, operational and compliance controls) in accordance with the Code for the financial year under review and up to the date of approval of the financial statements. The Board is not aware of any significant failings or weaknesses in internal control arising during this review. Had there been any such failings or weaknesses, the Board confirms that necessary action would have been taken to remedy them.

### Emerging risks

#### Impact of natural or man-made disasters: disease epidemics

Certain regions are at risk of being affected by natural disasters or catastrophic natural events. Considering that the development of infrastructure, disaster management planning agencies, disaster response and relief sources, organized public funding for natural emergencies, and natural disaster early warning technology may be immature and unbalanced in certain countries, the natural disaster toll on an individual portfolio company or the broader local economic market may be significant. Prolonged periods may pass before essential communications, electricity and other power sources are restored and operations of the portfolio company can be resumed. The Funds' Investments could also be at risk in the event of such a disaster. The magnitude of future economic repercussions of natural disasters may also be unknown, may delay the Funds' ability to invest in certain companies, and may ultimately prevent any such investment entirely.

Investments may also be negatively affected by man-made disasters. Publicity of man-made disasters may have a significant negative impact on overall consumer confidence, which in turn may materially and adversely affect the performance of the Fund's Investments, whether or not such investments are involved in such man-made disaster.

### Going concern and viability statement

The going concern and viability statements are set out in the Directors' Report.

### Remuneration

The Entity is an investment company and has no employees or executive Directors. The Board believes that the principles of Section 5 of the Code relating to remuneration do not apply to the Entity, except as outlined below, as the Entity has no executive Directors. No Director past or present has any entitlement to pensions, and the Entity has not awarded any share options or long-term performance incentives to any of them. No element of Directors' remuneration is performance-related or includes share options.

Those Directors who are also employees of the BlackRock Group are not entitled to receive a Director's fee. All other Directors have fees paid to them which are set out in service contracts with the Entity. The Board believes that the level of remuneration for those Directors who take a fee properly reflects the time commitment and responsibilities of their roles. The maximum amount of remuneration payable to the Directors is determined by the Board and is set out in the prospectus of the Entity.

The level of remuneration for the Chair and all independent non-executive Directors reflects the time commitment and responsibilities of the role. The terms of the aforementioned service contracts are for one financial year and include an assessment of the time commitment expected of each Director. The Directors also have a continuing obligation to ensure they have sufficient time to discharge their duties. The detail of each Director's, including the Chair's, other appointments and commitments are made available to the Board for inspection and all new appointments or significant commitments require the prior approval of the Investment Manager. The Directors, who are employees of the BlackRock group, have executed letters of appointment which include an assessment of the time commitment expected. Extracts of the service contracts as they relate to the Entity and letters of appointment are available for inspection on request and at each Annual General Meeting ("AGM").

No remuneration consultant has been appointed by the Entity.

### Communication with shareholders

The Entity is an investment company and the shareholders invest in its range of Funds in order to, inter alia, gain exposure to the expertise of the Investment Manager and its investment strategies. Given the nature of the Entity, it is not necessary or desirable for the Chair or any of the other Directors to discuss investment strategy with shareholders. Furthermore, the Manager has appointed the Investment Manager as distributor and it is this entity which is tasked with actively managing the relationship between the Entity and its shareholders.

The Board reviews monthly reports on shareholder communications and in addition, the Board reviews reports from the Manager's compliance function which include updates on shareholder complaints.

How the Board understands the views and interests of the Entity's key stakeholders and how the views and interests of the key stakeholders have been considered in board discussions and decision-making is described in the section "Engagement with Stakeholders". The Entity keeps engagement mechanisms with stakeholders under review so that they remain effective.

The Board is responsible for convening the AGM and all other general meetings of the Entity. All shareholders have the opportunity to attend and vote at general meetings. Notice of general meetings is issued in accordance with the Companies Act and the Constitution of the Entity and notice of the annual general meeting is sent out at least 20 working days in advance of the meeting and any item not of an entirely routine nature is explained in a covering circular. For all other general meetings the notice is sent at least 14 working days in advance. All substantive matters put before a general meeting are dealt with by way of separate resolution, in accordance with the Constitution of the Entity. Proxy voting figures are noted by the chair of the general meeting and the results of each general meeting, will be announced and made available on the iShares website shortly after the meeting. When it is the opinion of the Board that a significant proportion of votes have been cast against a resolution at any general meeting, the Board will explain when announcing the results what actions it intends to take to investigate and understand the reasoning behind the result.

General meetings are managed and run by the Entity Secretary with assistance from representatives of the Manager. Strategic issues and all operational matters of a material nature are determined by the Board. If the shareholders wish to engage on matters relating to the management of the Entity, then invariably they will wish to discuss these matters or meet with the Investment Manager.

# iSHARES II PLC

## CORPORATE GOVERNANCE STATEMENT (continued)

### Communication with shareholders (continued)

The Board will accept requests to make individual Directors available to shareholders. One of the independent Directors is always available to attend general meetings. The Chair of the Audit and the Chair of the Nominations Committees will be available to attend general meetings and to answer questions, if required, while the senior independent Director will be also available to liaise with shareholders, where required.

Every holder of participating shares present in person or by proxy who votes on a show of hands is entitled to one vote. On a poll, every holder of participating shares present in person or by proxy is entitled to one vote in respect of each share held by him. The poll shall be taken in accordance with the Constitution.

### Engaging with stakeholders – Section 172 statement

Building positive relationships with stakeholders is important to the Entity and working together towards shared goals assists the Board in delivering sustainable success. Throughout the financial year the Board considered the wider impact of strategic and operational decisions on the Entity's stakeholders. Engaging, consulting and acting on the needs of different stakeholders is critical for the development of a culture and strategy that achieves long-term sustainable success. The needs of different stakeholders are always considered as well as the consequences of any decision in the long-term and the importance of the Entity's and BlackRock Group's reputation for high standards of business conduct. It may not always be possible to provide a positive outcome for all stakeholders and the Board frequently has to make difficult decisions based on competing priorities. However, comprehensive engagement enables informed decision making taking into account the consequences for different stakeholders. To enable and ensure stakeholder considerations are at the heart of all corporate decision making, a wide range of papers relating to different stakeholder groups are presented and discussed regularly by the Board. The Entity engages in many different ways and this section outlines the key stakeholder groups, how the Entity interacts with them and how they inform strategic decision making. It also provides examples of key strategic decisions made during the year and the Board engagement involved. This section acts as the Section 172(1) statement in accordance with the UK Companies Act 2006, which applies to non-UK companies that report on their compliance with the Code.

- **Our people:** The Entity has no workforce, but an open and honest dialogue is actively encouraged within the Board of Directors. The Board of Directors carry out an annual Board Evaluation, where feedback is sought from the whole Board on any improvements and enhancements that are necessary, and an action plan is put in place.
- **Our shareholders:** The support and engagement of our shareholders is imperative to the future success of the business. The shareholder is at the core of what the Entity does, and the interests of shareholders is foremost in all decision making. The Board have ensured that it acted fairly with regard to shareholders at all times. The Investment Manager has productive ongoing dialogue with our shareholders and any material complaint received from a shareholder is reported to the Board. The Board have also received a presentation from the Client Experience Management team, to gain a better understanding of the shareholders needs and experience when investing in the Entity. The Board aims to understand the views of its shareholders and always to act in their best interests. In order to provide better access to all investors, we provide easy access for our shareholders to the Entity's AGM information, results and investor information, via our website. All Entity announcements are available on the London Stock Exchange.
- **Our service providers:** We build strong relationships with our service providers to develop mutually beneficial and lasting partnerships. The day to day management of the Entity is delegated to the Manager and engagement with other service providers is facilitated through the Manager. The service providers also regularly report to the Board. The Board recognises that relationships with service providers are important to the Entity's long-term success.
- **Regulators:** We have ongoing communication with the Irish regulator, the CBI, which is facilitated through the Manager and the Investment Manager. All regulatory engagements are reported to the Board. The Board is updated on legal and regulatory developments and takes these into account when considering future actions.
- **Community, the environment and human rights issues:** As an Entity with no employees, the Entity has no direct social or community responsibilities or impact on the environment. The Funds of the Entity track or replicate the constituents of a Benchmark Index.

## AUDIT COMMITTEE REPORT

The Board has established an Audit Committee whose roles and responsibilities are detailed below.

### **Roles and responsibilities**

The main responsibilities of the Audit Committee include considering and recommending to the Board for approval the contents of the interim and annual financial statements and providing an opinion as to whether the annual financial statements, taken as a whole, are fair, balanced and understandable and provide the information necessary for shareholders to assess the Entity's position, performance, business model and strategy. The Audit Committee also reviews related information presented within the financial statements, including statements concerning internal controls and risk management. In addition, the Audit Committee is responsible for approving the audit fees of the External Auditor, conducting a review of the External Auditors' report on the annual financial statements and reviewing and forming an opinion on the effectiveness of the external audit process and audit quality. Other duties include reviewing the appropriateness of the Entity's accounting policies and reporting to the Board on how it has discharged its responsibilities.

There are formal terms of reference in place for the Audit Committee. The terms of reference of the Audit Committee are available to shareholders on request.

The Audit Committee has met twelve times during the financial year. These meetings were to consider various items including updates in the regulatory environment as they relate to the financial statements of the Entity, updates on the Entity's accounting policies and progress reports on the audit. The significant issues considered by the Audit Committee in relation to the financial statements are discussed below and overleaf.

### **Financial statements**

The Audit Committee reviewed the interim financial statements, annual financial statements and the audit findings presentation from the External Auditors.

### **Significant issues considered in relation to the financial statements**

During the financial year, the Audit Committee considered a number of significant issues and areas of key audit risk in respect of the Annual Report and Financial Statements. The Committee reviewed the external audit plan at an early stage and concluded that the appropriate areas of audit risk relevant to the Entity had been identified in the audit plan and that suitable audit procedures had been put in place to obtain reasonable assurance that the financial statements as a whole would be free of material misstatements. Below sets out the key areas of risk identified and also explains how these were addressed by the Committee.

#### **1. Valuation**

The Board has in place a hierarchical structure for the pricing of every asset class of the Entity which details the primary, secondary and tertiary pricing sources (the "Pricing Hierarchy"). The Administrator has been appointed for the purposes of valuing each asset class of the Entity. The Administrator follows the Pricing Hierarchy in this regard. During the financial year under review, monthly reporting was provided by the Investment Manager in which any exceptions to this process were identified and investigated and referred to the Board. The Audit Committee considers that the procedures that the Board has in place to monitor the Administrator and Investment Manager are adequate and appropriate. The Audit Committee discussed with the external auditor the results of the financial year end audit procedures over the valuation of investments. No significant exceptions to valuation of the assets were noted during the financial year under review.

#### **2. Existence**

In order to gain comfort on the existence of the assets of the Entity, a daily reconciliation of all asset classes is performed by the Administrator between their records and the separate records held by counterparties, the Depositary and the Investment Manager. During the financial year under review, any material exceptions identified by these reconciliations were reported on a monthly basis by the Investment Manager and quarterly by the Administrator and Depositary. The Depositary also provided a report in relation to the oversight of its global sub-custodian and global custody network and any exceptional items regarding existence of assets of the Entity were referred for consideration by the Audit

## AUDIT COMMITTEE REPORT (continued)

### Roles and responsibilities (continued)

#### Significant issues considered in relation to the financial statements (continued)

Committee. The Audit Committee considers that the procedures that the Board has in place to monitor the Administrator and Investment Manager are adequate and appropriate. The Audit Committee discussed with the external auditor the results of the financial year end audit procedures over the existence of investments. No material exceptions to the existence of the assets were noted during the financial year under review.

#### 3. Risk of management override

The Depositary and Administrator provided reports to the Manager on an annual basis on the controls in place to minimise the risk of management override. In addition to this, the Manager has reviewed the Statement on Service Organisational Control (the "SOC1") prepared by the Depositary and Administrator to further ensure that the relevant control procedures were in place to minimise the risk of management override. The SOC1 of the Investment Manager is also presented annually for review. Any exceptions noted were referred to the Audit Committee for further review. No significant exceptions in respect of the risk of management override were noted during the financial year under review.

#### Fair, balanced and understandable

The production and audit of the financial statements is a comprehensive process requiring input from a number of different contributors. Following the adoption of the Code by the Entity, the Board requested that the Audit Committee advises on whether it believes the financial statements, taken as a whole, are fair, balanced and understandable and provide the information necessary for shareholders to assess the Entity's position and performance, business model and strategy. In doing so the Audit Committee has given consideration to the following:

- The comprehensive reviews that are undertaken at different levels in the production process of the financial statements, by the Manager and the Administrator;
- The comprehensive review also undertaken during the production process by the Investment Manager;
- The comprehensive review undertaken by the Audit Committee that aimed to ensure consistency, overall balance and appropriate disclosure;
- The controls that are in place at the Investment Manager, the Administrator and Depositary, to ensure the completeness and accuracy of the Entity's financial records and the security of the Entity's assets;
- The existence of satisfactory SOC1 control reports reviewing the effectiveness of the internal controls of the Investment Manager, the Administrator and the Depositary; and
- The timely identification and resolution of any significant audit risks, process errors or control breaches that may have impacted the Entity's NAV and accounting records and how successfully any issues in respect of areas of accounting judgement were identified and resolved.

As a result of the work performed, the Audit Committee has concluded that the financial statements for the financial year ended 31 October 2023, taken as a whole, are fair, balanced and understandable and provide the information necessary for shareholders to assess the Entity's position, performance, business model and strategy. The Audit Committee has reported on these findings to the Board and recommended the approval of the financial statements to the Board. The Board's conclusions in this respect are set out in the Statement of Directors' Responsibilities.

#### External Auditor

To assess the effectiveness of the external audit, members of the Audit Committee work closely with the Investment Manager and the Manager to obtain a good understanding of the progress and efficiency of the external audit.

In relation to the audit process, feedback on the role of the Investment Manager and the Manager, is sought from relevant parties involved, notably the audit partner and audit team. The External Auditor is invited to attend the Audit Committee meetings at which the annual financial statements are considered.

## AUDIT COMMITTEE REPORT (continued)

### External Auditor (continued)

Deloitte Ireland LLP (“Deloitte”) were appointed as independent auditors of the Entity on 12 April 2019 and the lead audit partner rotates every five years to assure independence. To form a conclusion with regard to the independence of the External Auditor, the Audit Committee considers whether their skills and experience make them a suitable supplier of non-audit services and whether there are safeguards in place to ensure that there is no threat to their objectivity and independence in the conduct of the external audit resulting from the provision of such services. The external audit and assurance services fees are disclosed in note 18 of the financial statements of the Entity.

On an annual basis, the External Auditor reviews the independence of its relationship with the Entity and reports this to the Board. The Audit Committee also receives information about policies and processes for maintaining independence and monitoring compliance with relevant requirements from the Entity’s External Auditors, including information on the rotation of external audit partners and staff, details of any relationships between the external audit firm and its staff and the Entity as well as an overall confirmation from the External Auditors of their independence and objectivity.

As a result of its review, the Audit Committee has concluded that Deloitte, as External Auditor, is independent of the Entity. The Audit Committee has conducted a review of independence of the External Auditor and has in place a pre-approval policy on the engagement of the External Auditor to supply non-audit services.

### Internal audit

The Board considers it appropriate for the Entity not to have its own internal audit function as all of the management and administration of the Entity is delegated to the Manager, Investment Manager, Administrator and Depositary.

### Audit Committee effectiveness

The performance of the Audit Committee is reviewed at least annually. The Audit Committee evaluation for 2022 has taken place with no material issues identified.

## DIRECTORS' REPORT

The Directors present their report and audited financial statements for the financial year ended 31 October 2023.

### Statement of Directors' responsibilities

The Directors are responsible for preparing the annual report and the audited financial statements in accordance with applicable Irish law and FRS 102 "The Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland" issued by the Financial Reporting Council, and in compliance with the Irish Companies Act (as amended) and the UCITS Regulations and the Listing Rules of the London Stock Exchange ("LSE").

Under Irish law, the Directors shall not approve the audited financial statements unless they are satisfied that they give a true and fair view of the Entity's assets, liabilities and financial position as at the end of the financial year and the profit or loss of the Entity for the financial year.

In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether the financial statements have been prepared in accordance with applicable accounting standards and identify the standards in question, subject to any material departures from those standards being disclosed and explained in the notes to the financial statements; and
- prepare the financial statements on a going concern basis unless it is inappropriate to presume that the Entity will continue in business.

The Directors confirm that they have complied with the above requirements in preparing the audited financial statements.

The Directors are responsible for keeping adequate accounting records that are sufficient to:

- correctly record and explain the transactions of the Entity;
- enable, at any time, the assets, liabilities, financial position and profit or loss of the Entity to be determined with reasonable accuracy; and
- enable the Directors to ensure that the financial statements and Directors' Report comply with the Companies Act 2014 (as amended) and enable those financial statements to be audited.

The measures taken by the Directors to secure compliance with the Entity's obligation to keep adequate accounting records are the appointment of State Street Fund Services (Ireland) Limited for the purpose of maintaining adequate accounting records. Accordingly, the accounting records are kept at the following address on behalf of the Administrator:

State Street Fund Services (Ireland) Limited  
78 Sir John Rogerson's Quay  
Dublin 2  
Ireland

The Directors are also responsible for safeguarding the assets of the Entity to prevent and detect fraud and other irregularities. The Directors have entrusted the assets of the Entity to the Depositary for safekeeping in accordance with the Constitution of the Entity. In this regard the Directors have appointed State Street Custodial Services (Ireland) Limited as Depositary pursuant to the terms of the Depositary Agreement. The address at which this business is conducted is as follows:

State Street Custodial Services (Ireland) Limited  
78 Sir John Rogerson's Quay  
Dublin 2  
Ireland

The audited financial statements are published on the [www.iShares.com](http://www.iShares.com) website. The Directors, together with the Manager and the Investment Manager are responsible for the maintenance and integrity of the financial information included on this website. Legislation in the Republic of Ireland governing the presentation and dissemination of the financial statements may differ from legislation in other jurisdictions.

## DIRECTORS' REPORT (continued)

### Statement of Directors' responsibilities (continued)

The Code also requires Directors to ensure that the annual report and audited financial statements are fair, balanced and understandable and provide the information necessary for shareholder to assess the Entity's position and performance, business model and strategy. In order to reach a conclusion on this matter, the Directors have requested that the Audit Committee advise on whether they consider that the financial statements fulfil these requirements. The process by which the Audit Committee has reached these conclusions is set out in the Audit Committee report. As a result of a comprehensive review, the Directors have concluded that the financial statements for the financial year ended 31 October 2023, taken as a whole, are fair, balanced and understandable and provide the information necessary for shareholder to assess the Entity's position, performance, business model and strategy.

### Directors' compliance statement

In accordance with Section 225 of the Companies Act 2014 (as amended), the Directors acknowledge that they are responsible for securing the Entity's compliance with its relevant obligations and confirm that:

1. A compliance policy has been prepared setting out the Entity's procedures (that, in the Directors' opinion, are appropriate to the Entity) for ensuring compliance by the Entity with its relevant obligations;
2. An adequate structure is in place, that in the Directors' opinion, is designed to secure material compliance with the Entity's relevant obligations; and
3. An annual review procedure has been put in place to review the Entity's relevant obligation and ensure a structure is in place to comply with these obligations.

### Results and dividends

The results and dividends for the financial year of the Entity are set out in the income statement.

The Manager has made a successful application for "Reporting Fund" status to apply to certain share classes under the Statutory Instrument 2009/3001 (The Offshore Funds (Tax) Regulations 2009) of the UK. A list of the share classes which currently have 'reporting fund' status is available at <https://www.gov.uk/government/publications/offshore-funds-list-of-reporting-funds>.

### Review of business and future developments

The specific investment objectives and policies, as set out in the prospectus of the Entity are formulated by Directors at the time of the creation of the Fund. Investors in a Fund are expected to be informed investors who have taken professional advice, are able to bear capital and income risk, and should view investment in a Fund as a medium to long term investment. A description of the Fund, its performance review and a market review can be found in the Background section and the Investment Manager's report. The performance review encompasses tracking error and tracking difference disclosures which are key metrics as to how well the Fund has been managed against their benchmark.

### Risk management objectives and policies

The risks facing the Entity relate to the financial instruments held by it and are set out in the financial risks section of the financial statements. The Entity's corporate governance statement is set out within the Governance section of the financial statements.

### Subsequent events after the financial year end

The subsequent events which have occurred since the balance sheet date are set out in the note 19 to the financial statements of the Entity.

### Directors' and Company Secretary's interests and transactions

The Directors and Company Secretary had no interest in the shares of the Entity during the financial year ended 31 October 2023 other than those disclosed in the related party transactions note of the financial statements of the Entity.

The Directors and Company Secretary had no interests in the debentures of the Entity during or at the end of the financial year (2022: Nil).

# iSHARES II PLC

## DIRECTORS' REPORT (continued)

### Directors' and Company Secretary's interests and transactions (continued)

No Director had at any time during the financial year, a material interest in any contract of significance, during or at the end of the financial year in relation to the business of the Entity (2022: Nil).

All related party transactions are set out in note 16 of the notes to the financial statements of the Entity.

### Going concern

The financial statements of the Entity have been prepared on a going concern basis. The Entity is able to meet all of its liabilities from its assets. The performance, marketability and risks of the Fund are reviewed on a regular basis throughout the financial year. Therefore, the Directors believe that the Entity will continue in operational existence for the foreseeable future and is financially sound. The Directors are satisfied that, at the time of approving the financial statements, it is appropriate to adopt the going concern basis in preparing the financial statements of the Entity.

### Viability statement

The Code includes a provision for companies to include a "Viability Statement" addressed to shareholders with the intention of providing an improved and broader assessment of long-term solvency and liquidity. The Code does not define "long term" but expects the period to be longer than 12 months with individual companies choosing a financial period appropriate to the nature of their own business. The Directors conducted this review for the financial period up to the AGM in 2025, being a three-year period from the date that this annual report will be approved by Shareholders. The reason the Directors consider three years to be an appropriate financial period to review is that they do not expect there to be any significant change in the Entity's current principal risks and adequacy of the mitigating controls during that period. Furthermore, the Directors do not envisage any change in the objective of the Entity, as disclosed in the Background section of the annual report and audited financial statements, or any other events that would prevent the Entity from continuing to operate over that financial period as the Entity's assets are sufficiently liquid and the Entity intends to continue to operate as an investment company. This financial period has been chosen, as a financial period longer than three years creates a level of future uncertainty for which a Viability Statement cannot, in the Directors' view, be made meaningfully. In making this assessment the Directors have considered the following factors:

- the Entity's principal risks as set out in the Financial Risks section of the financial statements;
- the ongoing relevance of the Entity's objective in the current environment; and
- the level of investor demand for the Funds offered by the Entity.

The Board has also considered a number of financial metrics in its assessment, including:

- the level of ongoing charges, both current and historic;
- the level of capital activity, both current and historic;
- the level of income generated; and
- the liquidity, tracking error and tracking difference of each Fund.

# iSHARES II PLC

## DIRECTORS' REPORT (continued)

### Viability statement (continued)

The Board has concluded that the Entity would be able to meet its ongoing operating costs as they fall due as a consequence of:

- a diverse product offering that meets the needs of investors; and
- overheads which comprise a small percentage of net assets.

Based on the results of their analysis, the Directors have a reasonable expectation that the Entity will be able to continue in operation and meet its liabilities as they fall due over the financial period of their assessment.

### Independent auditor

The Board is not aware of any relevant audit information that the Entity's auditors are unaware of. The Directors have taken all the steps that should have been taken as Directors in order to make themselves aware of any relevant audit information and to establish that the Entity's auditors are aware of that information.

Deloitte were appointed as independent auditors of the Entity on 12 April 2019 and have expressed its willingness to remain as auditors to the Entity. The Directors recommend the re-appointment of the auditors, in accordance with section 383 of the Companies Act.

## DEPOSITARY'S REPORT TO THE SHAREHOLDERS

We have enquired into the conduct of BlackRock Asset Management Ireland Limited as the Manager of iShares II plc (the "Entity") and into the conduct of the Entity itself for the financial year ended 31 October 2023, in our capacity as Depositary to the Entity.

This report including the opinion has been prepared solely for the shareholders in the Entity, in accordance with Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations, and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

### Responsibilities of the Depositary

Our duties and responsibilities are outlined in Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations. One of those duties is to enquire into the conduct of the Manager and the Entity in each annual accounting year and report thereon to the shareholders.

Our report shall state whether, in our opinion, the Entity has been managed in that financial year in accordance with the provisions of the Entity's Constitution (the "Constitution") and the UCITS Regulations. It is the overall responsibility of the Manager and the Entity to comply with these provisions. If the Manager or the Entity has not so complied, we as Depositary must state why this is the case and outline the steps which we have taken to rectify the situation.

### Basis of Depositary opinion

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations and to ensure that, in all material respects, the Entity has been managed:

- (i) In accordance with the limitations imposed on its investment and borrowing powers by the provisions of the Entity's Constitution and the UCITS Regulations; and
- (ii) Otherwise in accordance with the Entity's constitutional documentation and the appropriate regulations.

### Opinion

In our opinion, the Entity has been managed during the financial year, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Entity by the Constitution, the UCITS Regulations and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 ('the Central Bank UCITS Regulations'); and
- (ii) otherwise in accordance with the provisions of the Constitution, the UCITS Regulations and the Central Bank UCITS Regulations.

## Independent auditor's report to the shareholders of iShares II PLC

### Report on the audit of the financial statements

### Opinion on the financial statements of iShares II PLC (the 'entity')

---

In our opinion the financial statements:

- give a true and fair view of the assets, liabilities and financial position of the entity as at financial year ended 31 October 2023 and of the loss for the financial year then ended; and
- have been properly prepared in accordance with the relevant financial reporting framework, the applicable Regulations and, in particular, with the requirements of the Companies Act 2014.

The financial statements we have audited comprise:

- the Income statement;
- the Statement of changes in net assets attributable to redeemable participating shareholders;
- the Balance sheet; and
- the related notes 1 to 20, including a summary of significant accounting policies as set out in note 2.

The relevant financial reporting framework that has been applied in their preparation is the Companies Act 2014 and FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" issued by the Financial Reporting Council ("the relevant financial reporting framework").

The applicable regulations that have been applied in their preparation is the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 and Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations, 2019 ("the applicable Regulations").

### Basis for opinion

---

We conducted our audit in accordance with International Standards on Auditing (Ireland) (ISAs (Ireland)) and applicable law. Our responsibilities under those standards are described below in the "Auditor's responsibilities for the audit of the financial statements" section of our report.

We are independent of the entity in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, including the Ethical Standard issued by the Irish Auditing and Accounting Supervisory Authority (IAASA), as applied to public interest entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Summary of our audit approach

<b>Key audit matters</b>	The key audit matters that we identified in the current year were: <ul style="list-style-type: none"><li>• Valuation of financial assets and liabilities at fair value through profit or loss</li><li>• Existence of financial assets and liabilities at fair value through profit or loss</li></ul>
<b>Materiality</b>	The materiality that we used in the current year was 0.5% of the average net assets for each Fund.

Scope	The entity is incorporated as an open-ended investment company with variable capital and is organised under the laws of Ireland as a public limited company pursuant to the Companies Act 2014 and engages BlackRock Asset Management Ireland Limited (the “Manager”) to manage certain duties and responsibilities with regards to the day-to-day management of the entity. Our audit is a risk based approach taking into account the structure of the entity, types of investments, the involvement of the third parties service providers, the accounting processes and controls in place and the industry in which the entity operates.
Significant changes in our approach	There have been no significant changes in our approach from the prior year.

## Conclusions relating to going concern

---

In auditing the financial statements, we have concluded that the Directors’ use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Our evaluation of the Directors’ assessment of the entity’s ability to continue to adopt the going concern basis of accounting included:

- As part of our risk assessment procedures, we obtained an understanding of the relevant controls in place regarding going concern.
- Challenged the reasonableness of the key assumptions applied by the Directors in their assessment.
- Held discussions with management on the Directors’ going concern assessment, the future plans for the entity and the feasibility of those plans.
- Reviewed all board meeting minutes during the period up to the date of approval of the financial statements, for evidence of any discussions and/or decisions that could impact the entity’s ability to continue as a going concern.
- Reviewed the capital activity and Net Asset Value movements subsequent to the financial year end.
- Assessed the adequacy of the relevant going concern disclosures made in the financial statements.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the entity’s ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

In relation to the reporting on how the group has applied the UK Corporate Governance Code, we have nothing material to add or draw attention to in relation to the Directors’ statement in the financial statements about whether the Directors considered it appropriate to adopt the going concern basis of accounting.

Our responsibilities and the responsibilities of the Directors with respect to going concern are described in the relevant sections of this report.

## Key Audit Matters

---

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current financial year and include the most significant assessed risks of material misstatement (whether or not due to fraud) we identified, including those which had the greatest effect on: the overall audit strategy, the allocation of resources in the audit; and directing the efforts of the engagement team.

These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Valuation of Financial Assets and Liabilities at Fair Value Through Profit or Loss	
<p><b>Key audit matter description</b></p> 	<p>For the financial year ended, the financial assets and liabilities at fair value through profit or loss of the entity is € 83,022 m representing 99% of total net assets € 83,954 m. The valuation of financial assets and liabilities at fair value through profit or loss is considered a key audit matter as financial assets and liabilities at fair value through profit or loss represents a significant balance on the Balance Sheet.</p> <p>There is a risk that financial assets and liabilities at fair value through profit or loss are valued incorrectly, inappropriate valuation methodologies are applied and the use of inappropriate assumptions could result in the valuation being materially misstated.</p> <p>Refer also to note 3 and 4 in the financial statements.</p>
<p><b>How the scope of our audit responded to the key audit matter</b></p> 	<p>We have performed the following procedures to address the key audit matter:</p> <ul style="list-style-type: none"> <li>• We obtained the State Street Administration Services (Ireland) Limited SOC 1 Report in order to gain an understanding and evaluate the design, implementation and operating effectiveness of key controls over the valuation process for financial assets and liabilities at fair value through profit or loss;</li> <li>• We independently valued equities, bonds, rights, and futures by using independent market feeds. We compared the prices published by independent pricing sources to the investment portfolio; and</li> <li>• We independently valued forward currency contracts by obtaining forward rates from third party pricing vendors and comparing these rates to the forwards rates recorded in the investment portfolio.</li> </ul>
Existence of Financial Assets and Liabilities at Fair Value Through Profit or Loss	
<p><b>Key audit matter description</b></p> 	<p>For the financial year ended, the financial assets and liabilities at fair value through profit or loss of the entity is € 83,022 m representing 99% of total net assets € 83,954 m. The existence of financial assets and liabilities at fair value through profit or loss is considered a key audit matter as financial assets and liabilities at fair value through profit or loss represents a significant balance on the Balance Sheet.</p> <p>The existence of financial assets and liabilities at fair value through profit or loss is crucial to ensuring the financial statements are free from material misstatement.</p> <p>Refer also to note 3 and 4 in the financial statements.</p>
<p><b>How the scope of our audit responded to the key audit matter</b></p>	<p>We have performed the following procedures to address the key audit matter:</p> <ul style="list-style-type: none"> <li>• We obtained the State Street Administration Services (Ireland) Limited SOC 1 Report in order to gain an understanding and evaluate the design, implementation and operating effectiveness of key controls over the reconciliation process for financial assets and liabilities at fair value through profit or loss; and</li> <li>• We obtained independent confirmations from the depositary and counterparties at the financial year end and agreed the amounts held to the investment portfolio.</li> </ul>

Our audit procedures relating to these matters were designed in the context of our audit of the financial statements as a whole, and not to express an opinion on individual accounts or disclosures. Our opinion on the financial statements is not modified with respect to any of the risks described above, and we do not express an opinion on these individual matters.

## Our application of materiality

---

We define materiality as the magnitude of misstatement that makes it probable that the economic decisions of a reasonably knowledgeable person, relying on the financial statements, would be changed or influenced. We use materiality both in planning the scope of our audit work and in evaluating the results of our work.

We determined materiality for each Fund to be 0.5% of average net assets. We have considered the average net assets to be the critical component for determining materiality because the main objective of each Fund is to provide investors with a total return. We have considered quantitative and qualitative factors such as understanding the entity and its environment, history of misstatements, complexity of the entity and reliability of control environment.

We set performance materiality at a level lower than materiality to reduce the probability that, in aggregate, uncorrected and undetected misstatements exceed the materiality for the financial statements as a whole. Performance materiality was set at 90% of materiality for the 2023 audit (2022: 90%). In determining performance materiality, we considered the following factors:

- our understanding of the entity and the industry in which it operates;
- the quality of the control environment and whether we were able to rely on controls;
- assessment of risks of material misstatement, including fraud risks; and
- the nature, volume and size of misstatements (if any) identified in the current and previous audit.

We agreed with the Audit Committee that we would report to them any audit differences in excess of 10% of materiality, as well as differences below that threshold that, in our view, warranted reporting on qualitative grounds. We also report to the Audit Committee on disclosure matters that we identified when assessing the overall presentation of the financial statements.

## An overview of the scope of our audit

---

Our audit is a risk based approach taking into account the structure of the entity, types of investments, the involvement of the third parties service providers, the accounting processes and controls in place and the industry in which the entity operates. The entity is incorporated as an open-ended investment company with variable capital and is organised under the laws of Ireland as a public limited company pursuant to the Companies Act 2014. The entity is authorised by the Central Bank of Ireland ("the Central Bank") as a UCITS (Undertakings for Collective Investment in Transferable Securities) pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011. The entity is organised as an umbrella fund with segregated liability between each Fund. We assess the risks of each Fund separately. We have conducted our audit based on the books and records maintained by the administrator State Street Administration Services (Ireland) Limited at 78 Sir John Rogerson's Quay, Grand Canal Dock, Dublin 2.

## Other information

---

The other information comprises the information included in the Annual report and audited financial statements, other than the financial statements and our auditor's report thereon. The Directors are responsible for the other information contained in the Annual report and audited financial statements.

Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

## Responsibilities of Directors

---

As explained more fully in the Statement of Directors' Responsibilities, the Directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view and otherwise comply with the Companies Act 2014, and for such internal control as the Directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Directors are responsible for assessing the entity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the entity or to cease operations, or have no realistic alternative but to do so.

## Auditor's responsibilities for the audit of the financial statements

---

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on IAASA's website at: <https://iaasa.ie/publications/description-of-the-auditors-responsibilities-for-the-audit-of-the-financial-statements/>. This description forms part of our auditors' report.

## Extent to which the audit was considered capable of detecting irregularities, including fraud

---

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below.

### Identifying and assessing potential risks related to irregularities

In identifying and assessing risks of material misstatement in respect of irregularities, including fraud and non-compliance with laws and regulations, we considered the following:

- the nature of the company's industry and control environment,
- the company's documentation of their policies and procedures relating to fraud and compliance with laws and regulations;
- results of our enquiries of management and about their own identification and assessment of the risks of irregularities;
- any matters we identified having obtained and reviewed the company's documentation of their policies and procedures relating to:
  - identifying, evaluating and complying with laws and regulations and whether they were aware of any instances of non-compliance;
  - detecting and responding to the risks of fraud and whether they have knowledge of any actual, suspected or alleged fraud;
- the matters discussed among the audit engagement team and relevant internal specialists, including how and where fraud might occur in the financial statements and any potential indicators of fraud.

As a result of these procedures, we considered the opportunities and incentives that may exist within the organisation for fraud and identified the greatest potential for fraud in revenue recognition with respect to net change in unrealised gains/(losses) on investments in securities. In common with all audits under ISAs (Ireland), we are also required to perform specific procedures to respond to the risk of management override.

We also obtained an understanding of the legal and regulatory framework that the company operates in, focusing on provisions of those laws and regulations that had a direct effect on the determination of material amounts and disclosures in the financial statements. The key laws and regulations we considered in this context included the Companies Act 2014, Listing Rules and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended).

In addition, we considered provisions of other laws and regulations that do not have a direct effect on the financial statements but compliance with which may be fundamental to the company's ability to operate or to avoid a material penalty.

## Audit response to risks identified

As a result of performing the above, we did not identify any key audit matters related to the potential risk of fraud or non-compliance with laws and regulations.

Our procedures to respond to risks identified included the following:

- reviewing the financial statement disclosures and testing to supporting documentation to assess compliance with provisions of relevant laws and regulations described as having a direct effect on the financial statements;
- enquiring of management and the audit committee concerning actual and potential litigation and claims;
- performing analytical procedures to identify any unusual or unexpected relationships that may indicate risks of material misstatement due to fraud;
- reading minutes of meetings of those charged with governance;
- in addressing the risk of fraud in revenue recognition, independently valuing all securities using our own market feeds and completing an unrealised gain/loss reconciliation; and
- in addressing the risk of fraud through management override of controls, testing the appropriateness of journal entries and other adjustments; assessing whether the judgements made in making accounting estimates are indicative of a potential bias; and evaluating the business rationale of any significant transactions that are unusual or outside the normal course of business.

We also communicated relevant identified laws and regulations and potential fraud risks to all engagement team members including internal specialists, and remained alert to any indications of fraud or non-compliance with laws and regulations throughout the audit.

## Report on other legal and regulatory requirements

### Opinion on other matters prescribed by the Companies Act 2014

---

Based solely on the work undertaken in the course of the audit, we report that:

- We have obtained all the information and explanations which we consider necessary for the purposes of our audit.
- In our opinion the accounting records of the entity were sufficient to permit the financial statements to be readily and properly audited.
- The financial statements are in agreement with the accounting records.
- In our opinion the information given in the Directors' report is consistent with the financial statements and the Directors' report has been prepared in accordance with the Companies Act 2014.

### Corporate Governance Statement required by the Companies Act 2014

---

We report, in relation to information given in the Corporate Governance Statement on pages 21 to 30 that:

- In our opinion, based on the work undertaken during the course of the audit, the information given in the Corporate Governance Statement pursuant to subsections 2(c) of section 1373 of the Companies Act 2014 is consistent with the entity's statutory financial statements in respect of the financial year concerned and such information has been prepared in accordance with the Companies Act 2014. Based on our knowledge and understanding of the entity and its environment obtained in the course of the audit, we have not identified any material misstatements in this information.
- In our opinion, based on the work undertaken during the course of the audit, the Corporate Governance Statement contains the information required by Regulation 6(2) of the European Union (Disclosure of Non-Financial and Diversity Information by certain large undertakings and groups) Regulations 2017 (as amended); and
- In our opinion, based on the work undertaken during the course of the audit, the information required pursuant to section 1373(2)(a),(b),(e) and (f) of the Companies Act 2014 is contained in the Corporate Governance Statement.

## Corporate Governance Statement

---

The Listing Rules and ISAs (Ireland) require us to review the Directors' statement in relation to going concern, longer-term viability and the part of the Corporate Governance Statement relating to the group's compliance with the provisions of the UK Corporate Governance Code specified for our review.

Based on the work undertaken as part of our audit, we have concluded that each of the following elements of the Corporate Governance Statement is materially consistent with the financial statements and our knowledge obtained during the audit:

- the Directors' statement with regards the appropriateness of adopting the going concern basis of accounting and any material uncertainties identified set out on page 34;
- the Directors' explanation as to its assessment of the entity's prospects, the period this assessment covers and why the period is appropriate set out on page 36;
- the Directors' statement on fair, balanced and understandable set out on page 35;
- the board's confirmation that it has carried out a robust assessment of the emerging and principal risks and the disclosures in the annual report that describe the principal risks and the procedures in place to identify emerging risks and an explanation of how they are being managed or mitigated set out on page 30 to 31;
- the section of the annual report that describes the review of effectiveness of risk management and internal control systems set out on page 27 to 28; and
- the section describing the work of the audit committee set out on page 35 to 37.

## Matters on which we are required to report by exception

---

Based on the knowledge and understanding of the entity and its environment obtained in the course of the audit, we have not identified material misstatements in the Directors' report.

We have nothing to report in respect of the provisions in the Companies Act 2014 which require us to report to you if, in our opinion, the disclosures of Directors' remuneration and transactions specified by law are not made.

## Other matters which we are required to address

---

We were appointed by the directors on 12 April 2019 to audit the financial statements for the financial period end date 31 October 2019 and subsequent financial periods. The period of total uninterrupted engagement including previous renewals and reappointments of the firm is 5 years, covering the years ending 31 October 2019 to 31 October 2023.

The non-audit services prohibited by IAASA's Ethical Standard were not provided and we remained independent of the entity in conducting the audit.

Our audit opinion is consistent with the additional report to the directors we are required to provide in accordance with ISA (Ireland) 260.

## Use of our Report

---

This report is made solely to the entity's shareholders, as a body, in accordance with Section 391 of the Companies Act 2014. Our audit work has been undertaken so that we might state to the entity's shareholders those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the entity and the entity's shareholders as a body, for our audit work, for this report, or for the opinions we have formed.

## NOTES TO THE FINANCIAL STATEMENTS

### 1. General information

The Entity is an open-ended investment company domiciled and incorporated under the laws of Ireland as a public limited company. The Entity is authorised by the CBI and is governed by the provisions of the UCITS Regulations with its registered office at J.P. Morgan, 200 Capital Dock, 79 Sir John Rogerson's Quay, Dublin 2, D02 RK57, Ireland.

### 2. Significant accounting policies

#### 2.1 Basis of preparation

The financial statements are prepared in accordance with FRS 102, "The Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland" issued by the Financial Reporting Council.

The financial statements are prepared on a going concern basis under the historical cost convention as modified by the revaluation of financial assets and financial liabilities held at fair value through profit or loss.

The Entity has availed of the exemption available to open-ended investment funds that hold a substantial proportion of highly liquid and fair valued investments under Section 7 of FRS 102 and is not presenting a statement of cash flows.

The format and certain wordings of the financial statements have been adapted from those contained in Section 3 of FRS 102, so that, in the opinion of the Directors, they more appropriately reflect the nature of the Entity's business as an investment fund.

All amounts have been rounded to the nearest thousand, unless otherwise indicated.

#### 2.2 Financial instruments

The Entity has chosen to implement the recognition and measurement provisions of IAS 39 and only the disclosure requirements of Sections 11 and 12 FRS 102 as they relate to financial instruments.

##### 2.2.1 Classification

The Entity classifies its investments in debt instruments, equity instruments and derivatives as financial assets or financial liabilities at fair value through profit or loss. These financial assets and financial liabilities are classified as held for trading or designated by the Directors at fair value through profit or loss at inception. All the derivatives investments are held for trading purposes. All other financial assets and financial liabilities including cash, cash equivalents, receivables and payables are classified at amortised cost using the effective interest method.

##### 2.2.2 Recognition and derecognition

The Entity recognises a financial asset or a financial liability when it becomes a party to the contractual provisions of the instrument. Purchases and sales of investments are recognised on the day the trade takes place.

Realised gains and losses on disposals of financial instruments are calculated using the weighted average cost method. For instruments held long, they represent the difference between the initial carrying amount and disposal amount. For instruments held short, they represent the difference between the proceeds received and the opening value. For derivative contracts, they represent the cash payments or receipts made on derivative contracts (excluding those on collateral or margin accounts for such instruments).

Financial assets are derecognised when the rights to receive cash flows from the asset have expired or the risks and rewards of ownership have all been substantially transferred. Financial liabilities are derecognised when the obligation under the liability is discharged, cancelled or expired.

## NOTES TO THE FINANCIAL STATEMENTS (continued)

### 2. Significant accounting policies (continued)

#### 2.2 Financial instruments (continued)

##### 2.2.3 Measurement

All financial instruments are initially recognised at fair value.

Financial assets and financial liabilities at fair value through profit or loss are subsequently measured at fair value. Transaction costs on purchases or sales of investments and gains and losses arising from changes in the fair value of financial assets or financial liabilities at fair value through profit or loss are presented in the income statement within "Net gains/(losses) on financial instruments", in the period in which they arise.

Financial assets and financial liabilities, other than those classified as at fair value through profit or loss, are subsequently measured at amortised cost.

##### 2.2.4 Fair value estimation

Fair value is the amount for which an asset could be exchanged, a liability settled or an equity instrument granted could be exchanged, between knowledgeable, willing parties in an arm's length transaction. The estimation of fair value, after initial recognition, is determined as follows:

- Investments in debt and equity instruments, exchange traded derivatives and To-Be-Announced ("TBA") contracts which are quoted, listed, traded or dealt on a market or exchange are valued based on quoted market prices which, for the purposes of the financial statements is in line with the valuation methodology prescribed in the Entity's prospectus. Depending on the nature of the underlying investment, the value taken could be either at the closing price, closing mid-market price or bid price on the relevant market.
- Investments in exchange traded funds ("ETFs") which are quoted, listed, traded or dealt on a market or exchange are valued based on quoted market prices, except where the Fund typically trades the units held at the latest NAV for that ETF. In such cases, the investment in the ETF is valued based on the latest NAV of the respective ETF.
- Investments in centrally cleared and over-the-counter ("OTC") derivatives, investee collective investment schemes ("CIS") are valued using valuation techniques.

In the case of an investment which is not quoted, listed or dealt on a recognised market, or in respect of which a listed, traded or dealt price or quotation is not available at the time of valuation, the fair value of such investment shall be estimated with care and in good faith by a competent professional person, body, firm or corporation (appointed for such purpose by the Directors in consultation with the Investment Manager and approved for the purpose by the Depositary), and such fair value shall be determined using valuation techniques. The Entity uses a variety of methods and makes assumptions that are based on market conditions existing at each reporting date.

Valuation techniques used for non-standardised financial instruments such as OTC derivatives include those detailed in the fair value hierarchy note, and those used by market participants making the maximum use of market inputs and relying as little as possible on entity-specific inputs.

##### 2.2.5 Financial derivative and other specific instruments

###### 2.2.5.1 Futures contracts

A futures contract is a contract, traded on an exchange, to buy or sell a certain underlying instrument at a certain date in the future, at a specified price.

Initial margin deposits are made to relevant brokers upon entering into futures contracts and are included in margin cash.

###### 2.2.5.2 Forward currency contracts

A forward currency contract is an agreement, in the OTC market, between two parties to buy or sell a certain underlying currency at a certain date in the future, at a specified price.

## NOTES TO THE FINANCIAL STATEMENTS (continued)

### 2. Significant accounting policies (continued)

#### 2.2 Financial instruments (continued)

##### 2.2.5 Financial derivative and other specific instruments (continued)

###### 2.2.5.3 Swaps

A swap is an individually negotiated agreement, in the OTC market, between two parties to swap one stream of payments for another. They may be entered into as a bilateral contract ("OTC swaps") or centrally cleared ("centrally cleared swaps").

Upon entering into a centrally cleared swap, the Fund is required to deposit initial margin with the broker in the form of cash of an amount that varies depending on the size and risk profile of the underlying swap contract.

###### 2.2.5.4 TBA contracts

TBA securities are purchased and sold on a forward commitment basis with an approximate principal amount and maturity date. With TBA transactions, the specific securities to be delivered are not identified at trade date, however, delivered securities must meet specified terms. The actual principal amount and maturity date will be determined upon settlement when the specific mortgage pools are assigned. During the time a TBA sale commitment is outstanding, the Fund holds equivalent deliverable securities or an offsetting TBA purchase commitment (deliverable on or before the sale commitment date), as cover for the transaction.

###### 2.2.6 Cash and cash equivalents

Cash in the balance sheet includes cash deposits held on call with banks. Cash equivalents include short-term liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, with original maturities of three months or less.

Bank overdrafts are classified as liabilities in the balance sheet.

###### 2.2.7 Collateral and margin cash

Cash collateral provided by the Fund is identified as an asset on the balance sheet as 'Cash collateral' and is not included as a component of cash and cash equivalents. For collateral other than cash provided by the Fund, if the party to whom the collateral is provided has the right by contract to sell or re-pledge the collateral, the Fund classifies that asset on its balance sheet separately from other assets and identifies the asset as a pledged investment. Where the party to whom the collateral is provided does not have the right to sell or re-pledge, a disclosure of the collateral provided is made in the notes to the financial statements.

Cash balances held as margin with relevant brokers relating to investments in derivatives at the reporting date are identified on the balance sheet as 'Margin cash'.

Cash collateral provided to the Fund by counterparties is identified on the balance sheet as 'Cash collateral payable'. The Fund may reinvest this cash collateral and the assets purchased are included as 'Cash equivalents' on the balance sheet.

###### 2.2.8 Redeemable shares

Each Fund classifies redeemable shares issued as financial liabilities in accordance with the substance of the contractual terms of the instruments. Redeemable shares are measured at the present value of redemption amounts.

The redeemable shares are redeemable at the option of the holders and do not meet the conditions set out in Section 22.4 of FRS 102, to be classified as equity and as a result are classified as financial liabilities.

The redeemable shares are accounted for on the day the trade takes place. Subscriptions and redemptions of redeemable shares are accounted for on the day the trade transaction takes place. Shares are subscribed and redeemed based upon the NAV per share as of the latest valuation point.

## NOTES TO THE FINANCIAL STATEMENTS (continued)

### 2. Significant accounting policies (continued)

#### 2.2 Financial instruments (continued)

##### 2.2.8 Redeemable shares (continued)

Where duties and charges are applied in the context of a subscription or redemption, they will have an impact on the value of an investment of a subscribing or redeeming investor and as a result are reflected as part of the issue of redeemable shares or the redemption of redeemable shares in the statement of changes in net assets attributable to redeemable share. Any potential duties and charges are at the discretion of the Directors.

#### 2.3 Foreign currency

##### 2.3.1 Functional and presentation currency

Foreign currency items included in each Fund's financial statements are measured in each Fund's functional currency which is shown for each Fund in the headings of the financial statements.

The Directors consider that these currencies most accurately represent the economic effects of the underlying transactions, events and conditions of each Fund. Each Fund's presentation currency is the same as the functional currency.

The presentation currency of the Entity's financial statements is Euro.

##### 2.3.2 Transactions and balances

Transactions in foreign currencies are translated into the functional currency of each Fund at the foreign currency exchange rate in effect at the date of the transaction.

Foreign currency assets and liabilities, including investments, are translated at the exchange rate prevailing at the reporting date.

The foreign exchange gain or loss based on the translation of the investments, as well as the gain or loss arising on the translation of other assets and liabilities, is included in the income statement.

#### 2.4 Critical accounting estimates and judgements

The preparation of the financial statements in conformity with FRS 102 requires the use of certain critical accounting estimates. It also requires the Directors to exercise its judgement in the process of applying the Entity's accounting policies. Changes in assumptions may have a significant impact on the financial statements in the period the assumptions changed. The Directors believe that the underlying assumptions are appropriate and that the Entity's financial statements, therefore, present the Entity's financial position and its results fairly. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future years if the revision affects both current and future years. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed below.

##### 2.4.1 Assumptions and estimation uncertainties

###### 2.4.1.1 Fair value of OTC derivative financial instruments

OTC financial derivative instruments are valued using valuation techniques, as detailed in the fair value hierarchy note to the financial statements. Where valuation techniques (for example, models) are used to determine fair values, they are validated and periodically reviewed and compared to the price provided by an independent pricing service provider, where available.

###### 2.4.1.2 Fair value of financial instruments not quoted in an active market

The fair value of such instruments not quoted in an active market may be determined by the Fund using reputable pricing sources or indicative prices from bond/debt market makers. The Fund would exercise judgement and estimates on the quantity and quality of pricing sources used. Broker quotes as obtained from the pricing sources may be indicative and not executable or binding.

## NOTES TO THE FINANCIAL STATEMENTS (continued)

### 2. Significant accounting policies (continued)

#### 2.4 Critical accounting estimates and judgements (continued)

##### 2.4.1 Assumptions and estimation uncertainties (continued)

##### 2.4.1.3 Fair value of financial instruments with significant unobservable inputs

The fair value of such instruments is determined using valuation techniques including inputs not based on market data and where significant entity determined adjustments or assumptions are applied, as detailed in the fair value hierarchy note to the financial statements.

Details of the valuation technique and the unobservable inputs used in the valuation of financial instruments are set out in the fair value hierarchy note to the financial statements.

#### 2.4.2 Judgements

##### 2.4.2.1 Assessment as investment entities

The Directors are of the opinion that the Entity meets the definition of an investment company. The following conditions exist:

- a) the Entity has obtained funds for the purpose of providing investors with investment management services; and
- b) the investments held by the Entity are measured and evaluated on a fair value basis and information about those investments are provided to shareholders of a fair value basis through the Entity.

#### 2.5 Dividend income

Dividend income is recognised in the income statement when the Fund's right to receive the payment is established. For quoted equity securities, this is usually the ex-dividend date. For unquoted equity securities, this is usually the date on which the shareholders approve the payment of a dividend. Dividend income is shown gross of any non-recoverable withholding taxes, which are presented separately in the income statement. CIS income is recognised when the distributions are declared by the underlying CIS. ETF income is recognised on the ex-dividend date.

#### 2.6 Interest income and interest expense

Interest income and expense for all interest-bearing financial instruments are recognised in the income statement using the effective interest method.

#### 2.7 Securities lending income

Securities lending income is earned from lending securities owned by the Fund to third party borrowers. Securities lending income is recognised in the income statement on an accruals method basis.

#### 2.8 Fees and expenses

Expenses are recognised in the income statement on an accruals basis except for transaction costs relating to the acquisition and realisation of investments which are charged for as incurred and presented within "Net gains/(losses) on financial instruments", in the period in which they arise.

Expenses directly attributable to a specific class of shares are borne directly by such class solely.

#### 2.9 Negative yield on financial assets

Negative yield on financial assets relating to interest from a negative effective interest rate on a financial asset is accreted daily and is recognised in the income statement over the life of the underlying instrument.

#### 2.10 Distributions

Distributions are recognised in the income statement as finance costs where shares in the Fund do not meet the conditions to be classified as equity and as a result are classified as financial liabilities.

## NOTES TO THE FINANCIAL STATEMENTS (continued)

### 2. Significant accounting policies (continued)

#### 2.10 Distributions (continued)

The Directors may declare distributions on the shares of the class in respect of each financial period. Distributions may be paid out of the Fund's net income.

The Directors have implemented income equalisation arrangements to ensure that the level of income derived from investments is not affected by the issue, conversion or redemption of shares during the financial year. As part of the distribution payment, the average amount of this equalisation is returned to shareholders who subscribed to or redeemed from the Fund during the financial year. The equalisation element of the distribution is treated as a repayment of capital.

Distributions will not be made to the shareholders of the accumulating unit classes. The income and other profits will be accumulated and reinvested in the Fund on behalf of these shareholders.

#### 2.11 Taxation

##### 2.11.1 Current tax

Current tax is recognised for the amount of income tax payable in respect of the overseas taxable profit for the current or past reporting periods using the tax rates and laws that have been enacted or substantively enacted by the reporting date.

##### 2.11.2 Deferred tax

A provision for deferred tax payable is recognised in respect of material timing differences that have originated but not reversed at the balance sheet date. A deferred tax asset is not recognised to the extent that the transfer of economic benefits in the future is uncertain. Timing differences are differences between the Fund's overseas taxable profits and its results as stated in the financial statements that arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in the financial statements.

### 3. Financial risks

Each Fund's investment activities expose them to the various types of risk which are associated with the financial instruments and markets in which it invests. The following information is not intended to be a comprehensive summary of all risks and investors should refer to the prospectus for a more detailed discussion of the risks inherent in investing in each Fund.

#### 3.1 Risk management framework

The Directors review quarterly investment performance reports and receive semi-annual presentations from the Investment Manager covering the Entity's performance and risk profile during the financial year. The Directors have delegated certain duties and responsibilities to the Manager with regard to the day-to-day management of the Entity. The Manager has in turn delegated the day-to-day administration of the investment programme to the Investment Manager. The Investment Manager is also responsible for ensuring that the Entity is managed within the terms of its investment guidelines and limits set out in the prospectus. The Directors reserve to themselves the investment performance, product risk monitoring and oversight and the responsibility for the monitoring and oversight of regulatory and operational risk for the Entity. The Directors have appointed a risk manager who has responsibility for the daily risk management process with assistance from key risk management personnel of the Investment Manager, including members of the BlackRock Risk and Quantitative Analysis Group ("RQA Group") which is a centralised group which performs an independent risk management function. The RQA Group independently identifies, measures and monitors investment risk, including climate-related risk. The RQA Group tracks the actual risk management practices being deployed across each Fund. By breaking down the components of the process, the RQA Group has the ability to determine if the appropriate risk management processes are in place across each Fund. This captures the risk management tools employed, how the levels of risk are controlled, ensuring risk/return is considered in portfolio construction and reviewing outcomes.

#### 3.2 Market risk

Market risk arises mainly from uncertainty about future values of financial instruments influenced by currency, interest rate and price movements. It represents the potential loss each Fund may suffer through holding market positions in the face of market movements.

The Funds are exposed to market risk by virtue of their investments in debt instruments, equity instruments and derivatives.

A key metric used by the RQA Group to measure market risk is Value-at-Risk (“VaR”) which encompasses currency, interest rate and price risk. VaR is a statistical risk measure that estimates the potential portfolio loss from adverse market movements in an ordinary market environment. VaR analysis reflects the interdependencies between risk variables, unlike a traditional sensitivity analysis.

The VaR calculations are based on an adjusted historical simulation model with a confidence level of 99%, a holding period of one day and a historical observation period of not less than one year (250 days). A VaR number is defined at a specified probability and a specified time horizon. A 99% one day VaR means that the expectation is that 99% of the time over a one-day period each Fund will lose no more than this number in percentage terms. Therefore, higher VaR numbers indicate higher risk. The one-day VaR has a multi-year year look back period which encompasses market volatility caused by political, social and economic events which feed into the model. Significant market disruptions, such as those caused by pandemics, natural or environmental disasters, war, acts of terrorism, or other events, may adversely affect the Funds’ VaR.

It is noted that the use of VaR methodology has limitations, namely that the use of historical market data as a basis for estimating future events does not encompass all possible scenarios, particularly those that are of an extreme nature and that the use of a specified confidence level (e.g. 99%) does not take into account losses that occur beyond this level. There is some probability that the loss could be greater than the VaR amounts. These limitations and the nature of the VaR measure mean that each Fund can neither guarantee that losses will not exceed the VaR amounts indicated, nor that losses in excess of the VaR amounts will not occur more frequently.

The one-day VaRs based on 99% confidence level are outlined in the table below:

#### 3.2.1 Market risk arising from foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

# iSHARES II PLC

## NOTES TO THE FINANCIAL STATEMENTS (continued)

### 3. Financial risks (continued)

#### 3.2 Market risk (continued)

##### 3.2.1 Market risk arising from foreign currency risk (continued)

###### Exposure to foreign currency risk

Each Fund may invest in financial instruments denominated in currencies other than its functional currency. Consequently, each Fund is exposed, directly and/or indirectly, to risks that the exchange rate of its functional currency relative to other currencies may change in a manner which has an adverse effect on the value of the portion of each Fund's assets which are denominated in currencies other than its own currency.

The details of the open forward currency contracts in place to hedge foreign currency risk at the financial year end date are disclosed in the schedules of investments.

In addition, some of the Funds have issued share classes denominated in currencies other than the functional currency of the Fund.

###### Management of foreign currency risk

Some of the Funds engage in foreign currency hedging to minimise the effect of currency movements between the currencies of the investments held by the Fund and the Fund's functional currency and the Fund's currency hedged share classes.

The Investment Manager monitors foreign currency risk exposure against pre-determined tolerances and determines when a currency hedge should be reset and the gain or loss arising from such hedge reinvested or settled, while taking into consideration the frequency and associated transaction and reinvestment costs of resetting the currency hedge.

##### 3.2.2 Market risk arising from interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

###### Exposure to interest rate risk

Each Fund is exposed to interest rate risk through its cash and cash equivalent holdings including margin cash held with brokers and through its investments in interest bearing financial instruments which are disclosed in the schedules of investments.

Each Fund also has indirect exposure to interest rate risk through its investments into CIS, ETF, and interest rate financial derivative instruments ("FDIs"), whereby the value of an underlying asset may fluctuate as a result of a change in interest rates.

Each Fund invests in debt instruments that have exposure to interbank offered rates ("IBORs") that will be replaced or reformed as part of the market-wide initiative. The main risks to which each Fund is exposed as a result of IBOR reform are operational resulting from the updating of systems that use IBOR curves and the revision of operational controls related to the reform. Financial risk is predominantly limited to interest rate risk.

###### Management of interest rate risk

Interest rate risk exposure is managed by constantly monitoring the position for deviations outside of a pre-determined tolerance level and, when necessary, rebalancing back to the original desired parameters.

Cash and cash collateral is invested into money market funds to generate a return to protect the Fund against unfavourable movements in interest rates.

Each Fund monitors the progress of transition from IBORs to new benchmark rates by reviewing the total amounts of contracts that have yet to transition to an alternative benchmark rate and the amounts of such contracts that contain an appropriate fallback clause.

## NOTES TO THE FINANCIAL STATEMENTS (continued)

### 3. Financial risks (continued)

#### 3.2 Market risk (continued)

##### 3.2.3 Market risk arising from price risk

Price risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting similar financial instruments traded in the market. Local, regional or global events such as war, acts of terrorism, the spread of infectious illness or other public health issue, such as the COVID-19 pandemic, recessions, or other events could have a significant impact on each Fund and the market price of its investments.

##### **Exposure to price risk**

Each Fund is exposed to price risk arising from its investments in financial instruments. The exposure of each Fund to price risk is the fair value of the investments held as shown in the schedules of investments of each Fund.

##### **Management of price risk**

By diversifying the portfolio, where this is appropriate and consistent with each Fund's objectives, the risk that a price change of a particular investment will have a material impact on the NAV of each Fund is minimised.

There is a risk that the valuation of each Fund may not fairly reflect the value of the investments held at a specific time due to events outside the control of the Directors, which could result in significant losses or inaccurate pricing for each Fund. To mitigate this risk the Directors may temporarily suspend the determination of the NAV of any Fund until a fair or reasonable valuation of the investments held can be determined.

The price risk inherent in the CIS holdings is monitored by the Investment Manager by understanding the investment objectives of the underlying funds as well as their internal control policies and regular risk and performance reporting. The investments into other CIS are all investments into related party funds. Such CIS are subject to the same control procedures the Investment Manager employs for each Fund.

#### 3.3 Liquidity risk

Liquidity risk is the risk that each Fund will encounter difficulties in meeting obligations associated with financial liabilities.

##### **Exposure to liquidity risk**

Each Fund's principal liquidity risk arises from the ability of investors to effect redemption requests and the liquidity of the underlying investments each Fund has invested in.

Each Fund's shareholders may redeem their shares on the close of any daily dealing deadline for cash equal to a proportionate share of each Fund's NAV, excluding any duties and charges where applicable. Each Fund is therefore potentially exposed to the liquidity risk of meeting the shareholders' redemptions and may need to sell assets at prevailing market prices to meet liquidity demands.

Each Fund may invest in CIS which can impose notice periods or other restrictions on redemptions and this may increase the liquidity risk of each Fund. Each Fund is also exposed to liquidity risk associated with daily margin calls on FDIs.

All of the Fund's financial liabilities, based on contractual maturities, fall due within three months. The expected settlement dates can be more than three months based on the analysis of the remaining period at the reporting date to the maturity date and are outlined in the schedules of investments.

## NOTES TO THE FINANCIAL STATEMENTS (continued)

### 3. Financial risks (continued)

#### 3.3 Liquidity risk (continued)

##### Management of liquidity risk

Liquidity risk is minimised by holding sufficient liquid investments which can be readily realised to meet liquidity demands. Asset disposals may also be required to meet redemption requests. However, timely sale of trading positions can be impaired by many factors including trading volume and increased price volatility. As a result, each Fund may experience difficulties in disposing of assets to satisfy liquidity demands.

Each Fund's liquidity risk is managed by the Investment Manager in accordance with established policies and procedures in place. The portfolio managers review daily forward-looking cash reports which project cash obligations. These reports allow them to manage their cash obligations. If redemption requests from all holders of shares in a Fund exceed more than 10% of the NAV of each Fund on any particular dealing day, the Directors shall be entitled, at their discretion, to refuse to redeem such excess numbers of shares in issue from each Fund. The shares which are not redeemed at any given dealing day shall be redeemed on each subsequent dealing day on a pro-rata basis in priority to any requests received thereafter.

None of the assets of the Funds are subject to special liquidity arrangements.

#### 3.4 Counterparty credit risk

Counterparty credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

##### Exposure to counterparty credit risk

Each Fund is exposed to counterparty credit risk from the parties with which it trades and will bear the risk of settlement default.

Each Fund's exposure is limited to the contracts in which it currently has a financial asset position reduced by any collateral received from the counterparty, or to counterparties who have received collateral from each Fund. The carrying value of financial assets together with cash held with counterparties best represents each Fund's gross maximum exposure to counterparty credit risk at the reporting date, before including the effect of any International Swaps and Derivatives Associations, Inc. Master Agreement ("ISDA Master Agreement") or similar agreement, and netting, which would reduce the overall counterparty credit risk exposure. Each Fund only transacts with counterparties that are regulated entities subject to prudential supervision, or with high credit-ratings assigned by international credit-rating agencies. Cash held as security by the counterparty to FDI contracts is subject to the credit risk of the counterparty.

All transactions in listed securities are settled/paid for upon delivery of securities, using approved brokers. Risk relating to unsettled transactions is considered low due to the short settlement period involved and the high credit quality of the brokers used.

##### Management of counterparty credit risk

Counterparty credit risk is monitored and managed by BlackRock's RQA Counterparty & Concentration Risk Team. The team is headed by BlackRock's Chief Counterparty Credit Officer who reports to the Global Head of RQA. Credit authority resides with the Chief Counterparty Credit Officer and selected team members to whom specific credit authority has been delegated. As such, counterparty approvals may be granted by the Chief Counterparty Credit Officer, or by identified RQA Credit Risk Officers who have been formally delegated authority by the Chief Counterparty Credit Officer.

The BlackRock RQA Counterparty & Concentration Risk Team completes a formal review of each new counterparty, monitors and reviews all approved counterparties on an ongoing basis and maintains an active oversight of counterparty exposures and the collateral management process.

There were no past due or impaired balances in relation to transactions with counterparties as at 31 October 2023 and 31 October 2022.

## NOTES TO THE FINANCIAL STATEMENTS (continued)

### 3. Financial risks (continued)

#### 3.4 Counterparty credit risk (continued)

##### 3.4.1 FDIs

Each Fund's holdings in exchange traded and OTC FDIs expose the Fund to counterparty credit risk.

##### 3.4.1.1 Exchange traded FDIs

The exposure is limited by trading contracts through a clearing house. Each Fund's exposure to credit risk on contracts in which it currently has a gain position is reduced by such gains received in cash from the counterparty under the daily mark-to-market mechanism on exchange traded contracts and centrally cleared swaps (variation margin). Each Fund's exposure to credit risk on contracts in which it currently has a loss position is equal to the amount of margin posted to the counterparty which has not been transferred to the exchange under the daily mark-to-market mechanism.

##### 3.4.1.2 OTC FDIs

The risk in relation to OTC FDIs arises from the failure of the counterparty to perform according to the terms of the contract as these FDI transactions are traded bilaterally and not through a central clearing counterparty.

All OTC FDI transactions are entered into by each Fund under an ISDA Master Agreement or similar agreement. An ISDA Master Agreement is a bilateral agreement between each Fund and a counterparty that governs OTC FDI transactions entered into by the parties.

The parties' exposures under the ISDA Master Agreement are netted and collateralised together, therefore, any collateral disclosures provided are in respect of all OTC FDI transactions entered into by each Fund under the ISDA Master Agreement. All cash collateral received/posted by each Fund under the ISDA Master Agreement is transferred bilaterally under a title transfer arrangement.

Each Fund is the legal owner of inbound collateral and can sell the assets and withhold the cash in the case of default. If the counterparty fulfils its obligations in relation to the investment, each Fund will return an equal amount of cash to the counterparty on maturity or sale of the investment. When each Fund return securities collateral to the counterparty, it must be of the same type, nominal value, description and amount as the securities that were transferred to each Fund. Trading in OTC FDIs which have not been collateralised give rise to counterparty exposure.

Each Fund's maximum exposure to counterparty credit risk from holding forward currency contracts will be equal to the notional amount of the currency contract and any net unrealised gains as disclosed in the relevant Fund's schedule of investments.

Each Fund has the right to reinvest cash collateral received. Cash collateral pledged by each Fund is separately identified on the balance sheets as cash collateral and is not included as a component of cash and cash equivalents. Inbound cash collateral received by each Fund is reflected on the balance sheets as cash collateral payable. Each Fund is also exposed to counterparty risk of rehypothecation of pledged collateral. The value of inbound cash collateral and cash collateral pledged is reflected on the balance sheets of each Fund.

The following tables detail the total number of OTC FDI counterparties each Fund is exposed to, the lowest long-term credit rating of any one counterparty (or its ultimate parent, if it is unrated), the maximum exposure to any one counterparty (which is calculated on a net basis):

As at 31 October 2023	Currency	Total number of counterparties	Lowest credit rating of any one counterparty	Maximum exposure to any one counterparty '000	Total collateral received in relation to the maximum exposure '000
iShares Global Clean Energy UCITS ETF	USD	3	A-	455	-
iShares Listed Private Equity UCITS ETF	USD	3	A-	-	-

#### 3.4 Counterparty credit risk (continued)

##### 3.4.1 FDIs (continued)

##### 3.4.1.2 OTC FDIs (continued)

iShares Global Clean Energy UCITS ETF	USD	3	A+	1	290
iShares Listed Private Equity UCITS ETF	USD	3	A+	367	220

For total return swaps held by each Fund, the risk is further mitigated as cash movements take place on either a weekly or monthly basis with the gain or loss being realised in the relevant Fund.

#### 3.4.2 Depository

The majority of the investments are held by Depository at financial year end. Investments are segregated from the assets of the Depository, with ownership rights remaining with the Fund. Bankruptcy or insolvency of the Depository may cause the Funds' rights with respect to its investments held by the Depository to be delayed or limited. The maximum exposure to this risk is the amount of long investments disclosed in the schedule of investments, plus any unsettled trades.

The Depository has appointed State Street Bank and Trust Company (the "Sub-Custodian") as its global Sub-Custodian. Substantially all of the cash of the Fund is held with the Sub-Custodian in its account together with its own cash balances and with those cash balances that are held on behalf of other clients. The Fund's cash balances are separately identifiable within the records of the Sub-Custodian.

In respect of the cash held by the Sub-Custodian or other depositaries it appoints, the Funds will be exposed to counterparty credit risk of the Sub-Custodian or those depositaries. In the event of the insolvency or bankruptcy of the Sub-Custodian or other depositaries, the Fund will be treated as a general creditor of the Sub-Custodian or the depositaries.

To mitigate each Fund's exposure to the Depository, the Investment Manager employs specific procedures to ensure that the Depository is a reputable institution and that the counterparty credit risk is acceptable to each Fund. Each Fund only transacts with Depository's that are regulated entities subject to prudential supervision, or with "high credit ratings" assigned by international credit rating agencies.

The long term credit rating of the parent company of the Depository and Sub-Custodian, State Street Corporation, as at 31 October 2023 is A (31 October 2022: A) (Standard and Poor's rating).

In order to further mitigate each Fund's counterparty credit risk exposure to the Sub-Custodian or depository banks, each Fund may enter into additional arrangements such as the placing of residual cash in a money market fund.

#### 3.4.3 Securities lending

Each Fund's engagement in securities lending activities expose such Funds to counterparty credit risk. The maximum exposure to each Fund is equal to the value of the securities loaned.

##### 3.4.3 Securities lending (continued)

All securities lending transactions entered into by each Fund are subject to a written legal agreement between each Fund and the Securities Lending Agent, BlackRock Advisors (UK) Limited, a related party to the Entity, and separately between the Securities Lending Agent and the approved borrowing counterparty. Collateral received in exchange for securities lent is transferred under a title transfer arrangement and is delivered to and held in an account with a tri-party collateral manager in the name of the Depository on behalf of each Fund. Collateral received is segregated from the assets belonging to each Funds' Depository or the Securities Lending Agent.

The collateral is registered and held in the name of Depository on behalf of each Fund in any or all of the following central securities depositories; Bank of NY Europe, Euroclear, J.P. Morgan Chase Bank N.A., depending on the type of collateral the counterparty has to give in order to cover the required value of exposure. The collateral provided by these counterparties consists of shares admitted to dealing on a regulated market.

To mitigate this risk, each Fund receives either cash or securities as collateral equal to a certain percentage in excess of the fair value of the securities loaned. The Investment Manager monitors the fair value of the securities loaned and additional collateral is obtained, if necessary.

As at the 31 October 2023 and 31 October 2022, all collateral received consists of securities admitted to or dealt on a regulated market.

Each Fund also benefits from a borrower default indemnity provided by BlackRock, Inc. The indemnity allows for full replacement of securities lent. BlackRock, Inc. bears the cost of indemnification against borrower default.

### 3. Financial risks (continued)

#### 3.4 Counterparty credit risk (continued)

##### 3.4.4 Issuer credit risk relating to debt instruments

Issuer credit risk is the default risk of one of the issuers of any debt instruments held by each Fund. Debt instruments involve credit risk to the issuer which may be evidenced by the issuer's credit rating. Securities which are subordinated and/or have a lower credit rating are generally considered to have a higher credit risk and a greater possibility of default than more highly rated. A number of the Funds invest into sovereign debt/corporate debt which expose them to the default risk of the issuer with regards to interest or principal payments.

The following tables detail the credit rating profile of the debt instruments held by each Fund:

To manage this risk, the Investment Manager, where appropriate and consistent with each Fund's objectives, invests in a wide range of debt instruments. The ratings of debt instruments are continually monitored by the BlackRock Portfolio Management Group ("PMG") and for non-rated or securities with subordinated or lower credit ratings, additional specific procedures are employed to ensure the associated credit risk is acceptable to each Fund.

#### 4. Fair value hierarchy

Each Fund classifies financial instruments measured at fair value using a fair value hierarchy. The fair value hierarchy has the following categories:

Level 1: The unadjusted quoted price in an active market for identical assets or liabilities that the Entity can access at the measurement date.

# iSHARES II PLC

## NOTES TO THE FINANCIAL STATEMENTS (continued)

### 4. Fair value hierarchy (continued)

Level 2: Inputs other than quoted prices included within level 1 that are observable (i.e. developed using market data) for the asset or liability, either directly or indirectly. This category includes instruments valued using: quoted prices in active markets for similar instruments; quoted prices for similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.

Level 3: Inputs are unobservable (i.e. for which market data is unavailable) for the asset or liability. This category includes all instruments where the valuation techniques used include inputs not based on market data and these inputs could have a significant impact on the instrument's valuation. This category also includes instruments that are valued based on quoted prices for similar instruments where significant Entity determined adjustments or assumptions are required to reflect differences between the instruments and instruments for which there is no active market.

Specific valuation techniques used to value financial instruments classified as level 2 and level 3 include:

- (i) for debt and equity instruments, the use of quoted market prices or dealer quotes for similar instruments;
- (ii) for investments which are a share of participation in an investee collective investment scheme ("CIS") and investments in ETFs where the Fund typically trades the units held at the latest NAV for that ETF, are valued at the unaudited NAV, and where available the independently audited NAV, on the valuation date of such unit of participation as calculated by the administrator of the investee CIS and ETF and in accordance with the requirements of the scheme of which the relevant investment is a share of participation. The unaudited NAV of the underlying investee CIS and ETF is reflected gross of any redemption costs which may potentially arise upon redemption from the underlying CIS and ETF. The unaudited NAV of the underlying investee CIS and ETF may be subject to adjustments upon issuance of their respective independently audited financial statements and such adjustments may be material to the Fund's financial statements;
- (iii) for foreign equities, using independent fair value adjustment factors to reflect the difference between the last market close and the valuation point of each Fund;
- (iv) for defaulted debt instruments, the use of recent transactions and/or defaulted equity instruments for which market data is unavailable;
- (v) for interest rate swaps, the present value of the estimated future cash flows based on observable yield curves;
- (vi) for total return swaps, the value of the estimated cash flows based on the market value of the underlying reference assets or index at the balance sheet date;
- (vii) for inflation swaps, the present value of the estimated future cash flows based on observable yield curves. Certain zero coupon inflation swaps may be valued using a single quote from the swap counterparty, where the model and inputs are not market observable;
- (viii) for foreign currency forwards, present value of future cash flows based on the forward exchange rates at the balance sheet date;
- (ix) for foreign currency options, option pricing models; and
- (x) for other financial instruments, discounted cash flow analysis.

All of the resulting fair value estimates are included in level 2 except for unlisted equity securities, a contingent consideration receivable and certain derivative contracts, where the fair values have been determined based on present values and the discount rates used were either not market observable or adjusted for counterparty or own credit risk, or certain CISs which have gates or redemption restrictions imposed or that can't be redeemed within 90 days, are included in level 3.

## NOTES TO THE FINANCIAL STATEMENTS (continued)

### 4. Fair value hierarchy (continued)

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' inputs requires significant judgement. The Directors consider observable inputs to be market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The following tables provide an analysis of each Fund's financial assets and financial liabilities measured at fair value as at 31 October 2023 and 31 October 2022:

## NOTES TO THE FINANCIAL STATEMENTS (continued)

### 6. Operating expenses

The Entity employs an "all in one" fee structure for its Funds, with each Fund paying all of its fees, operating costs and expenses (and its due proportion of any costs and expenses allocated to it) as a single flat fee (the TER). Where a Fund has multiple share classes, any fees, operating costs and expenses which are attributable to a particular share class (rather than the entire Fund) will be deducted from the assets notionally allocated by each Fund to that share class. The TER is calculated in accordance with the CESR/10-674 Committee of European Securities Regulators ("CESR") (European Securities and Markets Authority's ("ESMA") precursor) guidelines on the methodology for calculation of the ongoing charges figure in the KIID or the product page of the website at [www.ishares.com](http://www.ishares.com).

The Manager is responsible for discharging all operational expenses, including but not limited to fees and expenses of the Directors, Investment Manager, Depository, Administrator, Transfer Agent and Registrar from the amounts received by the Manager from the TER. Such operational expenses include regulatory and audit fees but exclude transaction costs and extraordinary legal costs. In the event a Fund's costs and expenses in connection with the operation of the Fund exceed the stated TER, the Manager will discharge any excess amount out of its own assets.

### Management fees (inclusive of investment management fees)

The Manager is entitled to an annual fee at rates not exceeding those set out on the following table. These rates are the maximum fee rates as at 31 October 2023:

<sup>1</sup> Where a Fund has multiple share classes, any fees, operating costs and expenses which are attributable to a particular share class (rather than the entire Fund) will be deducted from the assets notionally allocated by the Fund to that share class.

<sup>2</sup> This charge can be up to 1.00%. Any increase in this charge will be subject to prior shareholder approval.

<sup>3</sup> As this Fund/share class launched during the financial year, the fees, operating costs and expenses used to calculate the TER have been annualised.

Whilst it is anticipated that the TER borne by a Fund or share class shall not exceed the amounts set out above during the life of each Fund or share class (respectively) such amounts may need to be increased. Any such increase will be subject to the prior shareholder approval of the relevant Fund or share class evidenced either by a majority vote at a meeting of shareholders or by a written resolution of all of the shareholders.

As disclosed, no commissions, discounts, brokerages or other special terms have been granted or are payable by the Entity in connection with the issue or sale of any capital of the Entity.

## NOTES TO THE FINANCIAL STATEMENTS (continued)

### 10. Taxation (continued)

#### Irish tax

Under current law and practice, the Entity qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis it is not chargeable to Irish tax on its income or gains. However, Irish tax may arise on the occurrence of a "chargeable event". A chargeable event includes any distribution payments to shareholders or any encashment, redemption, cancellation or transfer of shares and the holding of shares at the end of each eight year period beginning with the acquisition of such shares.

No Irish tax will arise on the Entity in respect of chargeable events in respect of:

- a) A shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Entity; or the Entity has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations; and
- b) Certain exempted Irish tax resident shareholders who have provided the Entity with the necessary signed annual declarations; and
- c) Any transaction (which might otherwise be a chargeable event) in relation to shares held in a recognised clearing system as designated by order of the Irish Revenue Commissioners (such as CREST) will not constitute a chargeable event. It is the current intention of the Directors that all the shares in the Entity will be held in CREST or another recognised clearing system.

#### Overseas tax

Dividends, interest and capital gains (if any) received on investments made by the Entity may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Entity or its shareholders.

For financial reporting purposes, and in accordance with FRS 102, the Entity must recognise a provision for deferred tax payable arising from material timing differences between the taxation of unrealised gains in the financial statements and actual realisable taxable profits.

The Investment Manager will arrange for the fees and expenses of the Sub-Investment Managers to be paid out of the Investment Manager's own fees.

Fees paid to the Manager and Investment Manager during the financial year, the nature of these transactions and balances outstanding at the financial year end are disclosed in note 6.

The Directors as at 31 October 2023 are presented in the table below:

Director	Employee of the BlackRock Group	Director of BlackRock affiliates and/or other funds managed by BlackRock
William McKechnie	No	Yes
Padraig Kenny	No	Yes
Ros O'Shea	No	Yes
Deirdre Somers	No	Yes
Peter Vivian	Yes	Yes

Directors' fees are disclosed in the statutory information note to the financial statements. The aggregate emolument of the Directors relates to services provided as directors. The Directors who are also employees of the BlackRock Group are not entitled to receive Directors' fees.

#### Holdings in other funds managed by BlackRock/BlackRock affiliates

Investments in funds managed by BlackRock, Inc. and investments that are BlackRock affiliates are listed below and marked on the relevant Funds' schedules of investments. For underlying funds which are subject to investment management fees, these have been rebated back to the Fund.

The Entity invested in the following funds which are also managed by the Manager. For income earned on these related party funds please refer to the operating income. Further information on the fees charged from investing in these underlying funds is presented in the table below. These disclosed fees are the maximum charges capped as per the prospectus of the underlying funds and actual fees charged may be lower:

### 16. Related party transactions (continued)

#### Holdings in other funds managed by BlackRock/BlackRock affiliates (continued)

Investments	Fee paid by Fund
<b>Investment Company – UCITS authorised in Germany by Federal Agency for Financial Services Supervision (BaFin)</b>	
<i>iShares MSCI Brazil UCITS ETF (DE)</i>	<i>Annual expense capped at 0.31% of NAV<sup>1</sup></i>

<sup>1</sup>The Manager of these will be responsible for discharging from its fee the annual expenses of the Funds. Where actual fees and costs incurred exceed the amount paid to the Manager, the excess will be discharged by the Manager from its own assets.

All related party transactions were carried out at arm's length in the ordinary course of business. The terms and returns received by the related parties in making the investments were no more favourable than those received by other investors investing into the same share classes.

#### Significant investors

As at 31 October 2023 and 31 October 2022, each Fund has a single shareholder which is a nominee of the common depository for the International Central Securities Depositories ("ICSDs") in which the shares of the Funds are cleared and settled. However, the beneficial ownership of such shares, and the voting rights in relation to such shares, are passed from the common depository to the ICSDs and onwards to the participants of the ICSDs.

#### Securities lending

The total income earned from securities lending transactions is split between the relevant Fund and the Securities Lending Agent. The Funds which undertake securities lending transactions receive at least 62.5%, while the Securities Lending Agent receives up to 37.5% of such income, with all operational costs borne out of the Securities Lending Agent's share. Income earned during the financial year by the Funds from securities lending transactions is disclosed in the operating income note.

#### Other reimbursements

During the financial year, no Funds within the Entity received reimbursements from a BlackRock Group affiliated entity for penalties charged to the Funds by Central Securities Depositories for delays in security settlements.

No provisions have been recognised by the Funds against amounts due from related parties at the financial year end date (31 October 2022: Nil).

No amounts have been written off in the financial year in respect of amounts due to or from related parties (31 October 2022: Nil).

No commitments secured or unsecured or guarantees have been entered into with related parties during the financial year (31 October 2022: Nil).

### 17. Commitments and contingent liabilities

There were no significant commitments or contingent liabilities at the financial years ended 31 October 2023 and 31 October 2022.

### 18. Statutory information

The following fees were included in management fees for the financial year:

	2023 EUR'000	2022 EUR'000
Directors' fees	(65.7)	(65.7)

# iSHARES II PLC

## NOTES TO THE FINANCIAL STATEMENTS (continued)

### 18. Statutory information (continued)

Directors' fees will not exceed the sum of EUR40,000 per annum per Director without the approval of the Board of Directors. There were no other assurance, tax, advisory or non-audit fees other than the audit fees disclosed above paid to Deloitte Ireland LLP in Dublin, Ireland as the Statutory Auditor of the Entity as no other services were provided.

### 19. Subsequent events

On 1 December 2023, the benchmark index name was changed for iShares \$ TIPS 0-5 UCITS ETF from ICE U.S. Treasury Inflation Linked Bond Index 0-5 Years to ICE US Treasury 0-5 Year Inflation Linked Bond Index.

On 16 January 2024, iShares \$ Sukuk UCITS ETF was launched.

Other than the above, there have been no events subsequent to the financial year end, which, in the opinion of the Directors, may have had an impact on the financial statements for the financial year ended 31 October 2023.

### 20. Approval date

The financial statements were approved and authorised for issue by the Directors on 31 January 2024.

The CBI requires a Schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the financial year is available, upon request, at no cost from the Administrator.

The CBI requires a Schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the financial year is available, upon request, at no cost from the Administrator.

The CBI requires a Schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the financial year is available, upon request, at no cost from the Administrator.

The CBI requires a Schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the financial year is available, upon request, at no cost from the Administrator.

The CBI requires a Schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the financial year is available, upon request, at no cost from the Administrator.

The CBI requires a Schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the financial year is available, upon request, at no cost from the Administrator.

The CBI requires a Schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the financial year is available, upon request, at no cost from the Administrator.

The CBI requires a Schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the financial year is available, upon request, at no cost from the Administrator.

## Shari'ah Investment Manager's report (unaudited)

### SHARI'AH COMPLIANT FUNDS

iShares II plc has 3 Shari'ah compliant funds (the "Shari'ah Funds"), namely:

- iShares MSCI EM Islamic UCITS ETF;
- iShares MSCI USA Islamic UCITS ETF;
- iShares MSCI World Islamic UCITS ETF.

These Funds are the subject of additional controls and procedures that enable them to achieve their investment objective as set out below. The Funds aim to reflect the performance of emerging markets, US equities and global equities respectively, screening the individual constituents of the relevant stock indices for compliance with Shari'ah investment principles.

### RISK FACTORS

The benchmark index and its constituent holdings will be retrospectively determined as being Shari'ah compliant by the MSCI Shari'ah Board. The performance of the Funds is measured against the specific benchmark index which is stated by this index provider to be compliant with Shari'ah. The Funds will gain exposure to the component securities of the benchmark index in accordance with the guidance and advice provided by the Shari'ah Panel. As a consequence, this may mean that the Funds underperform other investment funds with comparable investment objectives that do not seek to adhere to Islamic investment criteria (for example the inability to invest in interest bearing securities or participate in securities lending).

Neither the Funds, the Manager nor the Investment Manager makes any representation or warranty either expressly or implied, with respect to the fairness, correctness, accuracy, reasonableness or completeness of such determination. In the event that the status of such Shari'ah compliance should change, neither the Funds, the Manager nor the Investment Manager accepts liability in relation to such change, but will endeavour to inform each investor as soon as reasonably practicable following such change.

Although the Funds intend to observe Shari'ah at all times, no such assurance can be given as, for example, there may be occasions when the Funds' Investments do not fully comply with such criteria for factors outside the control of the Shari'ah Funds.

Compliance with Shari'ah may result in the benchmark index changing its component securities with limited notice, in which case the Investment Manager may be required to dispose of investments in circumstances that are less advantageous than might otherwise be the case. Similarly, cash balances held by the Shari'ah Funds from time to time may be deposited on terms which shall grant no return on the sum deposited for the benefit of the Funds.

### INVESTMENT AND BORROWING RESTRICTIONS

Shari'ah investment principles do not allow investment in companies which are directly active in, or derive more than 5% of their revenue (cumulatively) from, the following activities:

- a) alcohol: distillers, vintners and producers of alcoholic beverages, including producers of beer and malt liquors, owners and operators of bars and pubs;
- b) tobacco: cigarettes and other tobacco products manufacturers and retailers;
- c) pork related products: companies involved in the manufacture and retail of pork products;
- d) financial services: commercial banks involved in retail banking, corporate lending, investment banking; companies involved in mortgage and mortgage related services; providers of financial services, including insurance, capital markets and specialised finance; credit agencies; stock exchanges; specialty boutiques; consumer finance services, including personal credit, credit cards, lease financing, travel related money services and pawn shops; financial institutions primarily engaged in investment management, related custody and securities fee based services; companies operating mutual funds, closed-end funds and unit investment trusts; financial institutions primarily engaged in investment banking and brokerage services, including equity and debt underwriting, mergers and acquisitions; securities lending and advisory services institutions; and insurance and reinsurance brokerage firms, including companies providing property, casualty, life disability, indemnity or supplemental health insurance;

## Shari'ah Investment Manager's report (unaudited) (continued)

### INVESTMENT AND BORROWING RESTRICTIONS (continued)

- e) defence/weapons: manufacturers of military aerospace and defence equipment, parts or products, including defence electronics and space equipment;
- f) gambling/casino: owners and operators of casinos and gaming facilities, including companies providing lottery and betting services;
- g) music: producers and distributors of music, owners and operators of radio broadcasting systems;
- h) hotels: owners and operators of hotels;
- i) cinema: companies engaged in the production, distribution and screening of movies and television shows, owners and operators of television broadcasting systems and providers of cable or satellite television services; and/or
- j) adult entertainment: owners and operators of adult entertainment products and activities.

#### The Shari'ah Funds will also not invest in any company:

- a) having a ratio of interest-bearing debt to equity (book value of interest-bearing debt to market value of equity) of more than 33.33%;
- b) whose cash (including balances with banks) and interest-bearing securities is more than 33.33% of total market capitalisation;
- c) whose receivables are equal to or greater than 70% of total assets; and/or
- d) whose total assets are made up solely of cash, including balances with banks, non-tangible assets and/or accounts receivables.

#### In addition, the Shari'ah Funds will not make use of any of the following financing methods and instruments:

- a) fixed income instruments such as bonds;
- b) interest-based instruments or accounts;
- c) derivatives;
- d) short selling; or
- e) securities lending.

### SHARI'AH PANEL

Compliance with Shari'ah in the operations of the Shari'ah Funds shall be determined by the Shari'ah Panel. The Shari'ah Panel consists of Shari'ah scholars with expertise in Islamic investment. The Shari'ah Panel's primary duties and responsibilities are to:

- (i) advise on the Shari'ah aspects of the Shari'ah Funds,
- (ii) issue an opinion, by way of a Fatwa, ruling or guidelines as to whether the activities of the Shari'ah Funds comply with Shari'ah and
- (iii) make recommendations or issue guidance as to how the Shari'ah Funds could be made Shari'ah compliant. The Investment Manager may also, from time to time, utilise alternative methods for gaining exposure to the component securities of the Benchmark Index (e.g. ADRs/GDRs or other collective investment schemes) and may request the Shari'ah Panel to assess the proposed method of investment for compliance with Shari'ah law. The Investment Manager relies on the Shari'ah Panel's advice and guidance in ensuring that the Shari'ah Funds operate in a manner which is Shari'ah compliant.

The Shari'ah Panel will not be responsible for matters relating to:

- (i) the management and supervision of the Company and its Funds, operations or vendors (not pertaining to Shari'ah),
- (ii) the application of Irish or other jurisdictional law,
- (iii) determining which securities form the underlying constituents of any index which acts as the benchmark of the Shari'ah Funds or any other Fund of the Company,
- (iv) determining what is the appropriate method to calculate dividend purification of the underlying securities in any such index and
- (v) determining in individual cases what form of security is appropriate to be held in order to match the return of the underlying securities in any such index (equity, depository or otherwise) provided always that the MSCI Shari'ah Board has determined generally that such form of security is compliant with Shari'ah.

## Shari'ah Investment Manager's report (unaudited) (continued)

### SHARI'AH PANEL (continued)

Following guidance of the Shari'ah Panel, the Investment Manager will ensure that any provisions or references to investment methods or techniques in the prospectus, which would otherwise be available to the Shari'ah Funds in pursuing their investment policies, are not availed of to the extent they are not Shari'ah compliant. The Shari'ah Panel will advise on alternative investment techniques for the Shari'ah Funds which comply with the Shari'ah Funds' investment policies and are Shari'ah compliant.

The Shari'ah Panel has issued a Fatwa in respect of the Shari'ah Funds. The Shari'ah Panel has issued an annual Shari'ah compliance certificate for the Shari'ah Funds.

Conflicts of interest relating to the investment of the Shari'ah Funds' assets may arise between members of the Shari'ah Panel and the Shari'ah Funds. In the event that a conflict of interest does arise, members of the Shari'ah Panel will endeavour, so far as they are reasonably able, to ensure that it is resolved fairly and that investment opportunities are allocated on a fair and equitable basis. Subject to this, members of the Shari'ah Panel may effect transactions where those conflicts arise and shall not be liable to account for any profit, commission or other remuneration arising.

Remuneration of the Shari'ah Panel is paid by the Investment Manager of the Shari'ah Funds.

### PURIFICATION OF DIVIDENDS

Investors are responsible for ensuring the purification of dividends received from the Shari'ah Funds where such dividends include prohibited income (e.g. interest earnings). Investors shall be notified on the dividend declaration date of the percentage of prohibited income in any dividend to be paid to them which will require purification. Pure and impure dividend amounts reported to investors will be based on MSCI's calculation to ensure consistency with the Benchmark Index. Neither the Shari'ah Funds, the Manager nor the Investment Manager is responsible for MSCI's calculation of the pure and impure dividend amounts.

### Annual Shari'ah Pronouncement given to BlackRock Advisors (UK) Limited by the panel of Shariah scholars with regard to the iShares Funds

*In the name of Allah, the Most Gracious, the Most Merciful*

*All praise is due to Allah, the Cherisher of the Worlds*

*Peace and blessings be upon the Prophet of Allah, on his Family and all his companions*

#### 1. Introduction

1.1 The panel of independent Shariah scholars appointed by BlackRock Advisors (UK) Limited have conducted the annual review of the iShares funds (Products). The Products were initially approved by the Shariah scholars on 14 November 2007, and launched on the London Stock Exchange on 10 December 2007.

1.2 The Products are designed to offer investors a long-term return by tracking closely the performance of: (i) the MSCI World Islamic Index, (ii) the MSCI EM (Emerging Markets) Index; or (iii) the MSCI USA Islamic Index (each an "Index", together, "the Indices") by investing in a portfolio of Shariah compliant equities that as far as practicable mirrors the component constituents of the relevant index.

#### 2. The Products

The Products reflect the fact that the constituents of the Indices are likely to change from time to time. Potential investors may obtain a breakdown of the constituents of the Products from the official iShares website ([www.ishares.net](http://www.ishares.net)) or from BlackRock Advisors (UK) Limited (as Investment Manager). The securities held by the Products are traded from time to time for efficient portfolio management and to maintain replication of the respective indices.

#### 3. Limitations

3.1 The purpose of this Annual Shariah Pronouncement is to confirm the on-going Shariah compliance of the Products only, the names of which are:

- a. iShares MSCI World Islamic UCITS ETF;
- b. iShares MSCI Emerging Markets Islamic UCITS ETF; and
- c. iShares USA Islamic UCITS ETF.

3.2 This annual Shariah Pronouncement does not approve the structure of any underlying fund other than those named in section 3.1 - any such fund which intends to utilise the Product must obtain its own Shariah pronouncement as to the overall compliance of its establishment and the principles and methods by which it will operate.

## iSHARES II PLC

### Shari'ah council certification (unaudited) (continued)

#### 4. Pronouncement

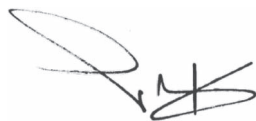

The Shariah Panel, having conducted the annual review of the Products as set out above and having deliberated on such matters as the Shariah Panel considered material, hereby rules that the Products which aim to achieve a long-term return by tracking the performance of the Indices by investing in a portfolio of Shariah compliant equities within a Shariah compliant framework are in compliance with Shariah.

And Allah knows best.

## INFORMATION FOR INVESTORS IN FRANCE

The PEA (Plan d'Épargne en Actions) is a French equity savings plan intended to encourage French tax resident individuals to invest in European equities. Each PEA eligible Fund must invest on a permanent basis at least 75% of their assets in PEA eligible securities issued by companies (i) established in a Member State of the European Union or in Iceland, Liechtenstein or Norway and (ii) subject to corporate income tax, or an equivalent tax.

As at 31 October 2023, each Fund below had the following percentage of its assets invested in eligible PEA securities:

Fund	% Invested in European PEA eligible shares
iShares Core EURO STOXX 50 UCITS ETF EUR (Dist)	93.18%

## TRANSACTIONS WITH CONNECTED PERSONS (UNAUDITED)

In accordance with the requirements of the CBI, the Manager shall ensure that any transactions carried out between each Fund and the Manager or Depositary to a Fund, the delegates or sub-delegates of the Manager or Depositary (excluding any non-group company sub-custodians appointed by a Depositary) and any associated or group company of the Manager, Depositary, delegate or sub-delegate ("Connected Persons") must be conducted at arm's length and in the best interests of the shareholders.

The Directors are satisfied that there are arrangements in place, as evidenced by written procedures, to ensure that the obligations set out above are applied to all transactions with Connected Persons and that transactions with Connected Persons entered into during the financial year complied with this obligation.

## TRANSACTION COSTS (UNAUDITED)

Disclosed in the table below are separately identifiable transaction costs incurred by each Fund for the financial year ended 31 October 2023. These include all brokers' commission, settlement fees, stamp duties and broker fees charges on equities, exchange traded futures contracts and certain debt instruments.

## SOFT COMMISSIONS (UNAUDITED)

There were no soft commission arrangements entered into by the Investment Manager on behalf of the Funds during the financial year ended 31 October 2023.

## CROSS INVESTMENTS (UNAUDITED)

As at 31 October 2023, there were no cross-umbrella investments held by any Fund within the Entity.

## GLOBAL EXPOSURE (UNAUDITED)

The Management Company is required by regulation to employ a risk management process, which enables it to monitor accurately and manage the global exposure from FDIs which each Fund gains as a result of its strategy ("global exposure").

The Management Company uses the methodology known as the "commitment approach" in order to measure the global exposure of each Fund and manage the potential loss to them due to market risk.

The commitment approach is a methodology that aggregates the underlying market or notional value of FDI to determine the global exposure of each Fund to FDI.

Pursuant to the relevant regulations, global exposure for a Fund utilising the commitment approach must not exceed 100% of the Fund's NAV.

## LEVERAGE (UNAUDITED)

The use of FDIs may expose a Fund to a higher degree of risk. In particular, FDI contracts can be highly volatile, and the amount of initial margin is generally small relative to the size of the contract so that transactions may be leveraged in terms of market exposure. A relatively small market movement may have a potentially larger impact on FDIs than on standard bonds or equities. Leveraged FDI positions can therefore increase a Fund's volatility.

## REPORT ON REMUNERATION (UNAUDITED)

The below disclosures are made in respect of the remuneration policies of the BlackRock group ("BlackRock"), as they apply to BlackRock Asset Management Ireland Limited (the "Manager"). The disclosures are made in accordance with the Directive 2009/65/EC on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities ("UCITS"), as amended, including in particular by Directive 2014/91/EU of the European Parliament and of the council of 23 July 2014, (the "Directive"), and the "Guidelines on sound remuneration policies under the UCITS Directive and AIFMD" issued by the European Securities and Markets Authority.

BlackRock's UCITS Remuneration Policy (the "UCITS Remuneration Policy") will apply to the EEA entities within the BlackRock group authorised as a manager of UCITS funds in accordance with the Directive, and will ensure compliance with the requirements of Article 14b of the Directive, and to UK entities within the BlackRock group authorised by the FCA as a manager of a UK UCITS fund.

The Manager has adopted the UCITS Remuneration Policy, a summary of which is set out below.

### Remuneration Governance

BlackRock's remuneration governance in EMEA operates as a tiered structure which includes: (a) the Management Development and Compensation Committee ("MDCC") (which is the global, independent remuneration committee for BlackRock, Inc.; and (b) the Manager's board of directors (the "Manager's Board"). These bodies are responsible for the determination of BlackRock's remuneration policy on a regular basis and being responsible for its implementation.

The implementation of the remuneration policy is annually subject to central and independent review for compliance with policies and procedures for remuneration adopted by the MDCC and by the Manager's Board. The most recent review found no fundamental issues. The remuneration disclosure is produced and owned by MDCC and the Manager's Board.

No material changes were made to the remuneration policy in 2022.

#### a) MDCC

The MDCC's purposes include:

- providing oversight of:
  - BlackRock's executive compensation programmes;
  - BlackRock's employee benefit plans; and
  - such other compensation plans as may be established by BlackRock from time to time for which the MDCC is deemed as administrator;
- reviewing and discussing the compensation discussion and analysis included in the BlackRock, Inc. annual proxy statement with management and approving the MDCC's report for inclusion in the proxy statement;
- reviewing, assessing and making reports and recommendations to the BlackRock, Inc. Board of Directors (the "BlackRock, Inc. Board") as appropriate on BlackRock's talent development and succession planning, with the emphasis on performance and succession at the highest management levels; and
- supporting the boards of the Entity's EMEA regulated entities in meeting their remuneration-related obligations by overseeing the design and implementation of EMEA remuneration policy in accordance with applicable regulations.

The MDCC directly retains its own independent compensation consultant, Semler Brossy Consulting Group LLC, who has no relationship with BlackRock, Inc. or the BlackRock, Inc. Board that would interfere with its ability to provide independent advice to the MDCC on compensation matters.

The BlackRock, Inc. Board has determined that all of the members of the MDCC are "independent" within the meaning of the listing standards of the New York Stock Exchange (NYSE), which requires each meet a "non-employee director" standard.

## REPORT ON REMUNERATION (UNAUDITED) (continued)

The MDCC held 7 meetings during 2022. The MDCC charter is available on BlackRock, Inc.'s website ([www.blackrock.com](http://www.blackrock.com)).

Through its regular reviews, the MDCC continues to be satisfied with the principles of BlackRock's compensation policy and approach.

### b) The Manager's Board

The Manager's Board has the task of supervising and providing oversight of the UCITS Remuneration Policy as it applies to the Manager and its Identified Staff.

#### Decision-making process

Remuneration decisions for employees are made once annually in January following the end of the performance year. This timing allows full-year financial results to be considered along with other non-financial goals and objectives. Although the framework for remuneration decision-making is tied to financial performance, significant discretion is used to determine individual variable remuneration based on achievement of strategic and operating results and other considerations such as management and leadership capabilities.

No set formulas are established and no fixed benchmarks are used in determining annual incentive awards. In determining specific individual remuneration amounts, a number of factors are considered including non-financial goals and objectives and overall financial and investment performance. These results are viewed in the aggregate without any specific weighting, and there is no direct correlation between any particular performance measure and the resulting annual incentive award. The variable remuneration awarded to any individual(s) for a particular performance year may also be zero.

Annual incentive awards are paid from a bonus pool.

The size of the projected bonus pool, including cash and equity awards, is reviewed throughout the year by the MDCC and the final total bonus pool is approved after year-end. As part of this review, the MDCC receives actual and projected financial information over the course of the year as well as final year-end information. The financial information that the MDCC receives and considers includes the current year projected income statement and other financial measures compared with prior year results and the current year budget. The MDCC additionally reviews other metrics of BlackRock's financial performance (e.g., net inflows of AUM and investment performance) as well as information regarding market conditions and competitive compensation levels.

The MDCC regularly considers management's recommendation as to the percentage of preincentive operating income that will be accrued and reflected as a compensation expense throughout the year for the cash portion of the total annual bonus pool (the "accrual rate"). The accrual rate of the cash portion of the total annual bonus pool may be modified by the MDCC during the year based on its review of the financial information described above. The MDCC does not apply any particular weighting or formula to the information it considers when determining the size of the total bonus pool or the accruals made for the cash portion of the total bonus pool.

Following the end of the performance year, the MDCC approves the final bonus pool amount.

As part of the year-end review process the Enterprise Risk and Regulatory Compliance departments report to the MDCC on any activities, incidents or events that warrant consideration in making compensation decisions.

Individuals are not involved in setting their own remuneration.

#### Control functions

Each of the control functions (Enterprise Risk, Legal & Compliance, and Internal Audit) has its own organisational structure which is independent of the business units and therefore staff members in control functions are remunerated independently of the businesses they oversee. The head of each control function is either a member of the Global Executive Committee ("GEC"), the global management committee, or has a reporting obligation to the board of directors of BlackRock Group Limited, the parent company of all of BlackRock's EMEA regulated entities, including the Manager.

## REPORT ON REMUNERATION (UNAUDITED) (continued)

### Control functions (continued)

Functional bonus pools are determined with reference to the performance of each individual function. The remuneration of the senior members of control functions is directly overseen by the MDCC.

### Link between pay and performance

There is a clear and well-defined pay-for-performance philosophy and compensation programmes which are designed to meet the following key objectives as detailed below:

- appropriately balance BlackRock's financial results between shareholders and employees;
- attract, retain and motivate employees capable of making significant contributions to the long-term success of the business;
- align the interests of senior employees with those of shareholders by awarding BlackRock Inc.'s stock as a significant part of both annual and long-term incentive awards;
- control fixed costs by ensuring that compensation expense varies with profitability;
- link a significant portion of an employee's total compensation to the financial and operational performance of the business;
- promote sound and effective risk management across all risk categories, including sustainability risk;
- discourage excessive risk-taking (sustainability related or otherwise); and
- ensure that client interests are not negatively impacted by remuneration awarded on a short-term, mid-term and/or long-term basis.

Driving a high-performance culture is dependent on the ability to measure performance against objectives, values and behaviours in a clear and consistent way. Managers use a 5-point rating scale to provide an overall assessment of an employee's performance, and employees also provide a self-evaluation. The overall, final rating is reconciled during each employee's performance appraisal. Employees are assessed on the manner in which performance is attained as well as the absolute performance itself.

In keeping with the pay-for-performance philosophy, ratings are used to differentiate and reward individual performance – but don't pre-determine compensation outcomes. Compensation decisions remain discretionary and are made as part of the year-end compensation process.

When setting remuneration levels other factors are considered, as well as individual performance, which may include:

- the performance of the Manager, the funds managed by the Manager and/or the relevant functional department;
- factors relevant to an employee individually, relationships with clients and colleagues, teamwork, skills, any conduct issues and, subject to any applicable policy, the impact that any relevant leave of absence may have on contribution to the business);
- the management of risk within the risk profiles appropriate for BlackRock's clients;
- strategic business needs, including intentions regarding retention;
- market intelligence;
- criticality to business; and
- supporting the firm's approaches to environmental, social and governance factors and diversity, equity and inclusion.

A primary product tool is risk management and, while employees are compensated for strong performance in their management of client assets, they are required to manage risk within the risk profiles appropriate for their clients. Therefore, employees are not rewarded for engaging in high-risk transactions outside of established parameters. Remuneration practices do not provide undue incentives for short-term planning or short-term financial rewards, do not reward unreasonable risk and provide a reasonable balance between the many and substantial risks inherent within the business of investment management, risk management and advisory services.

## REPORT ON REMUNERATION (UNAUDITED) (continued)

### Link between pay and performance (continued)

BlackRock operates a total compensation model for remuneration which includes a base salary, which is contractual, and a discretionary bonus scheme.

BlackRock operates an annual discretionary bonus scheme. Although all employees are eligible to be considered for a discretionary bonus, there is no contractual obligation to make any award to an employee under its discretionary bonus scheme. In exercising discretion to award a discretionary bonus, the factors listed above (under the heading “Link between pay and performance”) may be taken into account in addition to any other matters which become relevant to the exercise of discretion in the course of the performance year.

Discretionary bonus awards for all employees, including executive officers, are subject to a guideline that determines the portion paid in cash and the portion paid in BlackRock, Inc. stock and subject to additional vesting/clawback conditions. Stock awards are subject to further performance adjustment through variation in BlackRock, Inc.’s share price over the vesting period. As total annual compensation increases, a greater portion is deferred into stock. The MDCC adopted this approach in 2006 to substantially increase the retention value and shareholder alignment of the compensation package for eligible employees, including the executive officers. The portion deferred into stock vests into three equal instalments over the three years following grant.

Supplementary to the annual discretionary bonus as described above, equity awards may be made to select individuals to provide greater linkage with future business results. These long-term incentive awards have been established individually to provide meaningful incentive for continued performance over a multi-year period recognising the scope of the individual’s role, business expertise and leadership skills.

Selected senior leaders are eligible to receive performance-adjusted equity-based awards from the “BlackRock Performance Incentive Plan” (“BPIP”). Awards made from the BPIP have a three-year performance period based on a measurement of As Adjusted Operating Margin<sup>1</sup> and Organic Revenue Growth<sup>2</sup>. Determination of pay-out will be made based on the firm’s achievement relative to target financial results at the conclusion of the performance period. The maximum number of shares that can be earned is 165% of the award in those situations where both metrics achieve pre-determined financial targets. No shares will be earned where the firm’s financial performance in both of the above metrics is below a pre-determined performance threshold. These metrics have been selected as key measures of shareholder value which endure across market cycles.

A limited number of investment professionals have a portion of their annual discretionary bonus (as described above) awarded as deferred cash that notionally tracks investment in selected products managed by the employee. The intention of these awards is to align investment professionals with the investment returns of the products they manage through the deferral of compensation into those products. Clients and external evaluators have increasingly viewed more favourably those products where key investors have “skin in the game” through significant personal investments.

### Identified Staff

The UCITS Remuneration Policy sets out the process that will be applied to identify staff as Identified Staff, being categories of staff of the Manager, including senior management, risk takers, control functions and any employee receiving total remuneration that takes them into the same remuneration bracket as senior management and risk takers, whose professional activities have a material impact on the risk profiles of the Manager or of the funds it manages.

The list of Identified Staff will be subject to regular review, being formally reviewed in the event of, but not limited to:

- organisational changes;
- new business initiatives;

<sup>1</sup>As Adjusted Operating Margin: As reported in BlackRock’s external filings, reflects adjusted Operating Income divided by Total Revenue net of distribution and servicing expenses and amortisation of deferred sales commissions.

<sup>2</sup>Organic Revenue Growth: Equal to net new base fees plus net new Aladdin revenue generated in the year (in Dollars).

## REPORT ON REMUNERATION (UNAUDITED) (continued)

### Identified Staff (continued)

- changes in significant influence function lists;
- changes in role responsibilities; and
- revised regulatory direction.

### Quantitative Remuneration Disclosure

The Manager is required under the Directive to make quantitative disclosures of remuneration. These disclosures are made in line with BlackRock's interpretation of currently available regulatory guidance on quantitative remuneration disclosures. As market or regulatory practice develops BlackRock may consider it appropriate to make changes to the way in which quantitative remuneration disclosures are calculated. Where such changes are made, this may result in disclosures in relation to a fund not being comparable to the disclosures made in the prior year, or in relation to other BlackRock fund disclosures in that same year.

Disclosures are provided in relation to (a) the staff of the Manager; (b) staff who are senior management; and (c) staff who have the ability to materially affect the risk profile of the Fund, including individuals who, although not employed by the Manager, are assigned by their employer to carry out services for the Manager.

All individuals included in the aggregated figures disclosed are rewarded in line with BlackRock's remuneration policy for their responsibilities across the relevant BlackRock business area. As all individuals have a number of areas of responsibilities, only the portion of remuneration for those individuals' services attributable to the Fund is included in the aggregate figures disclosed.

Members of staff and senior management of the Manager typically provide both UCITS and non-UCITS related services in respect of multiple funds, clients and functions of the Manager and across the broader BlackRock group. Conversely, members of staff and senior management of the broader BlackRock group may provide both UCITS and non-UCITS related services in respect of multiple funds, clients and functions of the broader BlackRock group and of the Manager. Therefore, the figures disclosed are a sum of each individual's portion of remuneration attributable to the Manager according to an objective apportionment methodology which acknowledges the multiple-service nature of the Manager and the broader BlackRock group. Accordingly, the figures are not representative of any individual's actual remuneration or their remuneration structure.

The amount of the total remuneration awarded to the Manager's staff in respect of the Manager's financial year ending 31 December 2022 is USD 220.4 million. This figure is comprised of fixed remuneration of USD 118.0 million and variable remuneration of USD 102.4 million. There were a total of 3,940 beneficiaries of the remuneration described above.

The amount of the aggregate remuneration awarded by the Manager in respect of the Manager's financial year ending 31 December 2022, to its senior management was USD 21.6 million, and to other members of its staff whose actions potentially have a material impact on the risk profile of the Manager or its funds was USD 30.8 million. These figures relate to the entire Manager and not to the Entity.

## EFFICIENT PORTFOLIO MANAGEMENT AND SECURITIES FINANCING TRANSACTIONS (UNAUDITED)

### Efficient portfolio management techniques

The Entity may, on behalf of each Fund and subject to the conditions and within the limits laid down by the CBI, employ techniques and instruments relating to transferable securities for efficient portfolio management purposes. Transactions for the purposes of efficient portfolio management may be undertaken with a view to achieving a reduction in risk, a reduction in costs or the generation of additional capital or income for the Fund with an appropriate level of risk, taking into account the risk profile of the relevant Fund and the general provisions of the Directive. These techniques and instruments may include investments in FDI such as interest rate and bond futures (which may be used to manage interest rate risk), index futures (which may be used to manage cash flows on a short term basis), options (which may be used to achieve cost efficiencies, for example where the acquisition of the option is more cost effective than purchasing of the underlying asset), swaps (which may be used to manage currency risk) and investments in money market instruments and/or money market collective investment schemes. New techniques and instruments may be developed which may be suitable for use by the Entity and the Entity (subject to the Central Bank's requirements) may employ such techniques and instruments.

A Fund may enter into securities lending, repurchase and/or reverse repurchase agreements for the purposes of efficient portfolio management subject to the conditions and limits set out in the Central Bank UCITS Regulations and in accordance with the requirements of the CBI.

The underlying exposure obtained through FDIs and the identity of the counterparties to these FDIs at the financial year end are disclosed on the relevant Fund's schedule of investments.

### Securities lending

All securities lending transactions entered into by each Fund are subject to a written legal agreement between each Fund and the securities lending agent, BlackRock Advisors (UK) Limited, a related party to the Entity, and separately between the securities lending agent and the approved borrowing counterparty. Collateral received in exchange for securities lent is transferred under a title transfer arrangement and is delivered to and held in an account with a tri-party collateral manager in the name of the Depository on behalf of each Fund. Collateral received is segregated from the assets belonging to each Fund's Depository or the securities lending agent.

The following table details the value of securities on loan as a proportion of each Fund's total lendable assets and NAV, as at 31 October 2023. Total lendable assets represent the aggregate value of assets forming part of a Fund's securities lending programme. This excludes any assets held by the Fund that are not considered lendable due to any market, regulatory, investment or other restriction.

### Total return swaps

All total return swaps are entered into by each Fund under an International Swaps and Derivatives Associations, Inc. Master Agreement (“ISDA Master Agreement”) or similar agreement. An ISDA Master Agreement is a bilateral agreement between the Fund and a counterparty that governs OTC FDIs (including total return swaps) entered into by the parties. The parties’ exposures under the ISDA Master Agreement are netted and collateralised together, therefore any collateral disclosures provided are in respect of all OTC FDIs entered into by a Fund under the ISDA Master Agreement, not just total return swaps.

All collateral received/posted by each Fund under the ISDA Master Agreement is transferred bilaterally under a title transfer arrangement.

The collateral received/posted by iShares Global Clean Energy UCITS ETF and iShares Listed Private Equity UCITS ETF under the ISDA Master Agreement in respect of variation margin is transferred bilaterally under a title transfer arrangement. Collateral received by each Fund in respect of variation margin is held in an account in the name of the Depository on behalf of each Fund. Collateral received is segregated from the assets belonging to the Fund’s Depository. The collateral posted by the Fund under the ISDA Master Agreement that constitutes the Independent Amount (sometimes referred to as initial margin) is posted by the Fund under a security interest arrangement.

The following table details the value of total return swaps as a proportion of the Fund’s NAV, as at 31 October 2023 and the income/returns earned for the period ended 31 October 2023. The value of total return swaps is based on the underlying exposure value on a gross absolute basis.

		% of NAV	Total returns earned '000
iShares Global Clean Energy UCITS ETF	USD	0.24%	(189)
iShares Listed Private Equity UCITS ETF	USD	0.30%	(554)

The total returns earned from total return swaps is presented on a total return basis, including related interest and dividend income or expense and net gains/losses from fair value price movements. All returns and costs from total return swaps will accrue to each Fund’s and are not subject to any returns or costs sharing arrangements with the Fund’s Manager or any other third parties.

The following table details the underlying exposure value for total return swaps, analysed by counterparty as at 31 October 2023.

Investment grade securities are those issued by an entity with a minimum investment grade credit rating from at least one globally recognised credit rating agency; Standard & Poor's, Moody's or Fitch.

A recognised equity index contains at least 20 equities where no single equity represents more than 20% of the total index and no five equities combined represent more than 60% of the total index.

The maturity tenor analysis for fixed income securities received or posted as collateral is based on the respective contractual maturity date, while for equity securities, ETFs and money market funds received or posted as collateral are presented as open transactions as they are not subject to a contractual maturity date.

All cash received or posted as collateral has an open maturity tenor as it's not subject to a contractual maturity date.

#### Reuse of collateral received

Non-cash collateral received by way of title transfer collateral arrangement in relation to securities lending cannot be sold, re-invested or pledged.

The following table summarises the returns earned by each Fund's during the financial year ended 31 October 2023 from the reinvestment in money market funds of cash collateral received in respect of OTC derivative transactions. These returns represent the accumulative total return of the representative money market fund for the twelve month period ended 31 October 2023. These returns do not take into account any interest payable to the counterparty under the relevant collateral arrangements.

## SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED)

### Glossary and key definitions

The periodic report disclosures set out below are presented for the financial year ended 31 October 2023, the “reference period”.

All data presented for the Fund’s investments and other quantitative measures disclosed has been calculated based on an average of the value of investments traded and held on or around each applicable rebalance date of the Fund’s benchmark index within the reference period for which the relevant Funds met the criteria of an Article 8 fund. For metrics that are presented with sustainability indicators, the relevant metric calculation relates to the investments for which the underlying ESG data is available, rather than all investments held by the Fund.

All such data presented is unaudited and was not subject to an assurance provided by the Fund’s auditor or a review by a third party.

The term “Assets” shall be deemed to mean the total value investments held by the Fund throughout the reference period.

Investments shall include cash and cash equivalents as set out by Article 53 of the regulatory technical standards under the Delegated Regulation (EU) 2022/1288. However, FRS102 requires cash and cash equivalents to be treated separately. Therefore, there will be a difference in presentation for the purposes of the overall annual report.

**Sustainable Investments:** BlackRock defines Sustainable Investments as investments in issuers or securities that contribute to an environmental or social objective, do not significantly harm any of those objectives and where investee companies follow good governance practices. BlackRock refers to relevant sustainability frameworks to identify the alignment of the investment to environmental or social objectives.

**Do no significant harm (“DNSH”):** The assessment undertaken by BlackRock to determine whether an investment does no significant harm to any environmental or social objective under SFDR. BlackRock has developed a set of criteria across all Sustainable Investments to assess whether an investment does significant harm, which considers both third party data points as well as fundamental insights. Investments are screened against these criteria using system-based controls and any which are considered to be causing significant harm do not qualify as Sustainable Investments.

**Sustainability Factors:** Environmental, social and employee matters, respect for human rights, anti-corruption and antibribery matters

### How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the application of these minimum ESG and exclusionary criteria in the methodology of its benchmark index. The Investment Manager has determined that those PAIs marked in the table below as “F” are fully considered or “P” are partially considered, as part of the investment selection criteria of the benchmark index at each index rebalance. A PAI is partially considered where a BlackRock internal assessment has determined the sustainability indicator partially meets the regulatory definition of the PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards (“RTS”). A PAI is fully considered where a BlackRock internal assessment has determined the sustainability indicator captures the full regulatory definition as outlined in Annex 1 supplementing Regulation (EU) 2019/2088 RTS.

Adverse Sustainability Indicator	Sustainability indicator		
	Exclusion of issuers based on certain environmental screens (listed above)	Exclusion of issuers based on an MSCI ESG controversy flag	Exclusion of issuers determined to have any tie to controversial weapons

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

### iShares \$ Corp Bond 0-3yr ESG UCITS ETF (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

#### Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

Yes:

In fossil gas       In nuclear energy

No

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds\*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

**What was the share of investments made in transitional and enabling activities?**

For the reference period, 0% of the Fund's investments were made in transitional and enabling activities.

**How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

For the previous reference period, 0% of the Fund's investments were aligned with EU Taxonomy.

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

**What was the share of socially sustainable investments?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

**What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

Investments included under "#2 Other" included cash, money market funds and derivatives, however such holdings did not exceed 20%. Such investments were used for the purpose of efficient portfolio management, except for derivatives used for currency hedging for any currency hedged share class. Any ESG rating or analyses applied by the index provider applied only to the derivatives relating to individual issuers used by the Fund. Derivatives based on financial indices, interest rates, or foreign exchange instruments were not considered against minimum environment or social safeguards.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Fund met the environmental and social characteristics by tracking the environment and social characteristics of the benchmark index. The benchmark index methodology incorporates the environmental and social characteristics outlined (see section "To what extent were the environmental and/or social characteristics of the Fund met?").

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

### How did this financial product perform compared to the reference benchmark?

For the reference period, the Fund has designated the benchmark index as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund. The performance of the Fund compared to the benchmark index is outlined below.

#### How does the reference benchmark differ from a broad market index?

The benchmark index excluded issuers that did not meet its ESG selection criteria from its broad market index, the Bloomberg US Corporate 0-3 Year Total Return Index. The ESG selection criteria that is excluded is set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). Further details regarding the methodology of the benchmark index (including its constituents) are available on the index provider's website at <https://www.bloomberg.com/professional/product/indices/bloomberg-fixed-income-indices/#/ucits>.

#### How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

The Fund achieved the environmental and social characteristics it promotes through a portfolio that is primarily made up of securities that represent the Fund's benchmark index.

#### How did this financial product perform compared with the reference benchmark?

<sup>1</sup>The Fund's commitment to a minimum proportion of investments qualifying as Sustainable Investments became effective on 1 January 2023, and as a result was not reported on as part of the 2022 periodic report.

<sup>2</sup>Presentation of comparative targets have been aligned to the 2023 presentation within the periodic report.

### ● ...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference period (see section "How did the sustainability indicators perform?").

### ● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

During the reference period, the Fund invested 22.02% of its holdings in Sustainable Investments in pursuit of its investment objective.

The Fund's investments qualifying as Sustainable Investments were either in:  
 (1) issuers involved in activities deemed to contribute to positive environmental and/or social impacts, or  
 (2) issuers which have committed to one or more active carbon emissions reduction target(s) approved by the Science Based Targets initiative (SBTi).  
 (3) fixed income securities which have been classified as "green bonds".

To be classified as a green bond, a bond's proceeds must be exclusively and formally applied to fund projects that fall within one or more qualifying environmental categories including alternative energy, energy efficiency, pollution prevention and control, sustainable water, green building and climate adaptation.

The Fund's investments were assessed against their revenue exposure to positive sustainable impacts in line with the United Nations' Sustainable Development Goals, the EU Taxonomy and other sustainability-related frameworks. The positive environmental impacts considered as part of this assessment may have related to themes such as climate change and natural capital and identify issuers that may have derived revenues from activities (or related activities) such as alternative energy, energy efficiency and green building, sustainable water, pollution prevention and control and sustainable agriculture. The positive societal impacts considered as part of this assessment may have related to themes such as basic needs and empowerment and identify companies that may have derived revenues from activities (or related activities) such as nutrition, major disease treatments, sanitation, affordable real estate, small and medium enterprise (SME) finance, education and connectivity.

## SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

iShares \$ Corp Bond ESG UCITS ETF (continued)

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

### ● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. At each index rebalance, all investments qualifying as Sustainable Investments were assessed against certain minimum environmental and social indicators. As part of the assessment, issuers were assessed on their involvement in activities deemed to have highly negative environmental and social impacts. Where an issuer was identified as being involved in activities with highly negative environmental and social impacts, it was not eligible as a Sustainable Investment.

For bonds qualifying as green bonds, the assessment was conducted at an issuance level based on the use of the proceeds of the bonds which must be formally and exclusively applied to promote climate or other environmental sustainability purposes. In addition, certain minimum safeguards and eligibility exclusions were incorporated in the selection of green bonds to avoid exposure to bonds associated with activities deemed to have highly negative environmental and societal impacts.

### - How were the indicators for adverse impacts on sustainability factors taken into account?

The mandatory indicators for adverse impacts on sustainability factors (as set out in the Regulatory Technical Standards ("RTS") under the SFDR) were considered at each index rebalance through the assessment of the Fund's investments qualifying as Sustainable Investments.

Following this assessment, the following investments did not qualify as Sustainable Investments: (1) issuers deemed to be deriving at least 1% of their revenue from thermal coal which is significantly carbon intensive and a major contributor to greenhouse gas emissions (taking into account indicators relating to GHG emissions) (2) issuers that have been deemed to be involved in severe ESG related controversies (taking into account indicators relating to greenhouse gas emissions, biodiversity, water, waste and social and employee matters), and (3) issuers which were deemed to be lagging industry peers based on their high exposure and failure to manage significant ESG risks (taking into account indicators relating to greenhouse gas emissions, biodiversity, water, waste, unadjusted gender pay gap and board gender diversity).

In respect of green bonds, the indicators for adverse impacts on sustainability factors were taken into account at each index rebalance and were assessed by the index provider at the issuance level based on an assessment of the use of proceeds of the bonds which must be formally and exclusively applied to promote climate or other environmental sustainability purposes. In addition, minimum safeguards and eligibility exclusions were applied by the index provider in the selection of green bonds to ensure the proceeds of which were not applied to activities with highly negative environmental and social outcomes. This includes through the minimum safeguards and eligibility exclusions of bonds with the use of proceeds linked to thermal coal extraction and power generation, significant biodiversity loss and controversial weapons.

The benchmark index also excluded: (1) issuers with a "red" MSCI ESG controversy flag which included issuers determined to be in violation of international and/or national standards (taking into account indicators concerning violations of United Nations Global Compact principles and OECD Guidelines for Multinational Enterprises) and (2) issuers determined to have any tie to controversial weapons (taking into account indicators concerning ties to controversial weapons).

### - Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Fund's benchmark index excluded issuers with a "red" ESG controversy flag which excludes issuers which have been determined by the index provider to be in violation of the UN Guiding Principles on Business and Human Rights and OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

### How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the application of these minimum ESG and exclusionary criteria in the methodology of its benchmark index. The Investment Manager has determined that those PAIs marked in the table below as “F” are fully considered or “P” are partially considered, as part of the investment selection criteria of the benchmark index at each index rebalance. A PAI is partially considered where a BlackRock internal assessment has determined the sustainability indicator partially meets the regulatory definition of the PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards (“RTS”). A PAI is fully considered where a BlackRock internal assessment has determined the sustainability indicator captures the full regulatory definition as outlined in Annex 1 supplementing Regulation (EU) 2019/2088 RTS.

Adverse Sustainability Indicator	Sustainability indicator		
	Exclusion of issuers based on certain environmental screens (listed above)	Exclusion of issuers based on an MSCI ESG controversy flag	Exclusion of issuers determined to have any tie to controversial weapons
Exposure to companies active in the fossil fuel sector	P		
Activities negatively affecting biodiversity-sensitive areas		P	
Emissions to water		P	
Hazardous waste and radioactive waste ratio		P	
Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises		F

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

#### Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

- Yes:
- In fossil gas
  - In nuclear energy
- No

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds\*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

 **What was the share of investments made in transitional and enabling activities?**

For the reference period, 0% of the Fund's investments were made in transitional and enabling activities.

 **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

For the previous reference period, 0% of the Fund's investments were aligned with EU Taxonomy.

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

For the reference period, 18.14% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

**What was the share of socially sustainable investments?**

For the reference period, 3.88% of the Fund's investments were classified as socially sustainable investments.

**What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

Investments included under "#2 Other" included cash, money market funds and derivatives, however such holdings did not exceed 20%. Such investments were used for the purpose of efficient portfolio management, except for derivatives used for currency hedging for any currency hedged share class. Any ESG rating or analyses applied by the index provider applied only to the derivatives relating to individual issuers used by the Fund. Derivatives based on financial indices, interest rates, or foreign exchange instruments were not considered against minimum environment or social safeguards.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Fund met the environmental and social characteristics by tracking the environment and social characteristics of the benchmark index. The benchmark index methodology incorporates the environmental and social characteristics outlined (see section "To what extent were the environmental and/or social characteristics of the Fund met?").

### How did this financial product perform compared to the reference benchmark?

For the reference period, the Fund has designated the benchmark index as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund. The performance of the Fund compared to the benchmark index is outlined below.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

### How does the reference benchmark differ from a broad market index?

The benchmark index excluded issuers that did not meet its ESG selection criteria from its broad market index, the Bloomberg US Aggregate Corporate Index. The ESG selection criteria that is excluded is set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). Further details regarding the methodology of the benchmark index (including its constituents) are available on the index provider's website at <https://www.bloomberg.com/professional/product/indices/bloomberg-fixed-income-indices/#/ucits>.

### How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

The Fund achieved the environmental and social characteristics it promotes through a portfolio that is primarily made up of securities that represent the Fund's benchmark index.

### ● ...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference period (see section "How did the sustainability indicators perform?").

### ● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

During the reference period, the Fund invested 20.30% of its holdings in Sustainable Investments in pursuit of its investment objective.

The Fund's investments qualifying as Sustainable Investments were either in:  
 (1) issuers involved in activities deemed to contribute to positive environmental and/or social impacts, or  
 (2) issuers which have committed to one or more active carbon emissions reduction target(s) approved by the Science Based Targets initiative (SBTi).  
 (3) fixed income securities which have been classified as "green bonds".

To be classified as a green bond, a bond's proceeds must be exclusively and formally applied to fund projects that fall within one or more qualifying environmental categories including alternative energy, energy efficiency, pollution prevention and control, sustainable water, green building and climate adaptation.

The Fund's investments were assessed against their revenue exposure to positive sustainable impacts in line with the United Nations' Sustainable Development Goals, the EU Taxonomy and other sustainability-related frameworks. The positive environmental impacts considered as part of this assessment may have related to themes such as climate change and natural capital and identify issuers that may have derived revenues from activities (or related activities) such as alternative energy, energy efficiency and green building, sustainable water, pollution prevention and control and sustainable agriculture. The positive societal impacts considered as part of this assessment may have related to themes such as basic needs and empowerment and identify companies that may have derived revenues from activities (or related activities) such as nutrition, major disease treatments, sanitation, affordable real estate, small and medium enterprise (SME) finance, education and connectivity.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

### iShares \$ High Yield Corp Bond ESG UCITS ETF (continued)

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

#### ● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. At each index rebalance, all investments qualifying as Sustainable Investments were assessed against certain minimum environmental and social indicators. As part of the assessment, issuers were assessed on their involvement in activities deemed to have highly negative environmental and social impacts. Where an issuer was identified as being involved in activities with highly negative environmental and social impacts, it was not eligible as a Sustainable Investment.

For bonds qualifying as green bonds, the assessment was conducted at an issuance level based on the use of the proceeds of the bonds which must be formally and exclusively applied to promote climate or other environmental sustainability purposes. In addition, certain minimum safeguards and eligibility exclusions were incorporated in the selection of green bonds to avoid exposure to bonds associated with activities deemed to have highly negative environmental and societal impacts.

#### - How were the indicators for adverse impacts on sustainability factors taken into account?

The mandatory indicators for adverse impacts on sustainability factors (as set out in the Regulatory Technical Standards ("RTS") under the SFDR) were considered at each index rebalance through the assessment of the Fund's investments qualifying as Sustainable Investments.

Following this assessment, the following investments did not qualify as Sustainable Investments: (1) issuers deemed to be deriving at least 1% of their revenue from thermal coal which is significantly carbon intensive and a major contributor to greenhouse gas emissions (taking into account indicators relating to GHG emissions) (2) issuers that have been deemed to be involved in severe ESG related controversies (taking into account indicators relating to greenhouse gas emissions, biodiversity, water, waste and social and employee matters), and (3) issuers which were deemed to be lagging industry peers based on their high exposure and failure to manage significant ESG risks (taking into account indicators relating to greenhouse gas emissions, biodiversity, water, waste, unadjusted gender pay gap and board gender diversity).

In respect of green bonds, the indicators for adverse impacts on sustainability factors were taken into account at each index rebalance and were assessed by the index provider at the issuance level based on an assessment of the use of proceeds of the bonds which must be formally and exclusively applied to promote climate or other environmental sustainability purposes. In addition, minimum safeguards and eligibility exclusions were applied by the index provider in the selection of green bonds to ensure the proceeds of which were not applied to activities with highly negative environmental and social outcomes. This includes through the minimum safeguards and eligibility exclusions of bonds with the use of proceeds linked to thermal coal extraction and power generation, significant biodiversity loss and controversial weapons.

The benchmark index also excluded: (1) issuers with a "red" MSCI ESG controversy flag which included issuers determined to be in violation of international and/or national standards (taking into account indicators concerning violations of United Nations Global Compact principles and OECD Guidelines for Multinational Enterprises) and (2) issuers determined to have any tie to controversial weapons (taking into account indicators concerning ties to controversial weapons).

#### - Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Fund's benchmark index excluded issuers with a "red" ESG controversy flag which excludes issuers which have been determined by the index provider to be in violation of the UN Guiding Principles on Business and Human Rights and OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

### How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the application of these minimum ESG and exclusionary criteria in the methodology of its benchmark index. The Investment Manager has determined that those PAIs marked in the table below as “F” are fully considered or “P” are partially considered, as part of the investment selection criteria of the benchmark index at each index rebalance. A PAI is partially considered where a BlackRock internal assessment has determined the sustainability indicator partially meets the regulatory definition of the PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards (“RTS”). A PAI is fully considered where a BlackRock internal assessment has determined the sustainability indicator captures the full regulatory definition as outlined in Annex 1 supplementing Regulation (EU) 2019/2088 RTS.

Adverse Sustainability Indicator	Sustainability indicator		
	Exclusion of issuers based on certain environmental screens (listed above)	Exclusion of issuers based on an MSCI ESG controversy flag	Exclusion of issuers determined to have any tie to controversial weapons

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

#### Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

- Yes:
- In fossil gas
  - In nuclear energy
- No

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds\*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

 **What was the share of investments made in transitional and enabling activities?**

For the reference period, 0% of the Fund's investments were made in transitional and enabling activities.

 **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

For the previous reference period, 0% of the Fund's investments were aligned with EU Taxonomy.

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

For the reference period, 16.12% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

**What was the share of socially sustainable investments?**

For the reference period, 4.18% of the Fund's investments were classified as socially sustainable investments.

**What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?**

Investments included under "#2 Other" included cash, money market funds and derivatives, however such holdings did not exceed 20%. Such investments were used for the purpose of efficient portfolio management, except for derivatives used for currency hedging for any currency hedged share class. Any ESG rating or analyses applied by the index provider applied only to the derivatives relating to individual issuers used by the Fund. Derivatives based on financial indices, interest rates, or foreign exchange instruments were not considered against minimum environment or social safeguards.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Fund met the environmental and social characteristics by tracking the environment and social characteristics of the benchmark index. The benchmark index methodology incorporates the environmental and social characteristics outlined (see section "To what extent were the environmental and/or social characteristics of the Fund met?").

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

### How did this financial product perform compared to the reference benchmark?

For the reference period, the Fund has designated the benchmark index as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund. The performance of the Fund compared to the benchmark index is outlined below.

#### How does the reference benchmark differ from a broad market index?

The benchmark index excluded issuers that did not meet its ESG selection criteria from its broad market index, the Bloomberg US Corporate High Yield Total Return Index. The ESG selection criteria that is excluded is set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). Further details regarding the methodology of the benchmark index (including its constituents) are available on the index provider's website at <https://www.bloomberg.com/professional/product/indices/bloomberg-fixed-income-indices/#/ucits>.

#### How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

The Fund achieved the environmental and social characteristics it promotes through a portfolio that is primarily made up of securities that represent the Fund's benchmark index.

#### How did this financial product perform compared with the reference benchmark?

<sup>1</sup>The Fund's commitment to a minimum proportion of investments qualifying as Sustainable Investments became effective on 1 January 2023, and as a result was not reported on as part of the 2022 periodic report.

<sup>2</sup>Presentation of comparative targets have been aligned to the 2023 presentation within the periodic report.

### ● ...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference period (see section "How did the sustainability indicators perform?").

### ● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

During the reference period, the Fund invested 30.17% of its holdings in Sustainable Investments in pursuit of its investment objective.

The Fund's investments qualifying as Sustainable Investments were either in:  
 (1) issuers involved in activities deemed to contribute to positive environmental and/or social impacts, or  
 (2) issuers which have committed to one or more active carbon emissions reduction target(s) approved by the Science Based Targets initiative (SBTi).  
 (3) fixed income securities which have been classified as "green bonds".

To be classified as a green bond, a bond's proceeds must be exclusively and formally applied to fund projects that fall within one or more qualifying environmental categories including alternative energy, energy efficiency, pollution prevention and control, sustainable water, green building and climate adaptation.

The Fund's investments were assessed against their revenue exposure to positive sustainable impacts in line with the United Nations' Sustainable Development Goals, the EU Taxonomy and other sustainability-related frameworks. The positive environmental impacts considered as part of this assessment may have related to themes such as climate change and natural capital and identify issuers that may have derived revenues from activities (or related activities) such as alternative energy, energy efficiency and green building, sustainable water, pollution prevention and control and sustainable agriculture. The positive societal impacts considered as part of this assessment may have related to themes such as basic needs and empowerment and identify companies that may have derived revenues from activities (or related activities) such as nutrition, major disease treatments, sanitation, affordable real estate, small and medium enterprise (SME) finance, education and connectivity.

## SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

iShares € Corp Bond 0-3yr ESG UCITS ETF (continued)

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

### ● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. At each index rebalance, all investments qualifying as Sustainable Investments were assessed against certain minimum environmental and social indicators. As part of the assessment, issuers were assessed on their involvement in activities deemed to have highly negative environmental and social impacts. Where an issuer was identified as being involved in activities with highly negative environmental and social impacts, it was not eligible as a Sustainable Investment.

For bonds qualifying as green bonds, the assessment was conducted at an issuance level based on the use of the proceeds of the bonds which must be formally and exclusively applied to promote climate or other environmental sustainability purposes. In addition, certain minimum safeguards and eligibility exclusions were incorporated in the selection of green bonds to avoid exposure to bonds associated with activities deemed to have highly negative environmental and societal impacts.

### - How were the indicators for adverse impacts on sustainability factors taken into account?

The mandatory indicators for adverse impacts on sustainability factors (as set out in the Regulatory Technical Standards ("RTS") under the SFDR) were considered at each index rebalance through the assessment of the Fund's investments qualifying as Sustainable Investments.

Following this assessment, the following investments did not qualify as Sustainable Investments: (1) issuers deemed to be deriving at least 1% of their revenue from thermal coal which is significantly carbon intensive and a major contributor to greenhouse gas emissions (taking into account indicators relating to GHG emissions) (2) issuers that have been deemed to be involved in severe ESG related controversies (taking into account indicators relating to greenhouse gas emissions, biodiversity, water, waste and social and employee matters), and (3) issuers which were deemed to be lagging industry peers based on their high exposure and failure to manage significant ESG risks (taking into account indicators relating to greenhouse gas emissions, biodiversity, water, waste, unadjusted gender pay gap and board gender diversity).

In respect of green bonds, the indicators for adverse impacts on sustainability factors were taken into account at each index rebalance and were assessed by the index provider at the issuance level based on an assessment of the use of proceeds of the bonds which must be formally and exclusively applied to promote climate or other environmental sustainability purposes. In addition, minimum safeguards and eligibility exclusions were applied by the index provider in the selection of green bonds to ensure the proceeds of which were not applied to activities with highly negative environmental and social outcomes. This includes through the minimum safeguards and eligibility exclusions of bonds with the use of proceeds linked to thermal coal extraction and power generation, significant biodiversity loss and controversial weapons.

The benchmark index also excluded: (1) issuers with a "red" MSCI ESG controversy flag which included issuers determined to be in violation of international and/or national standards (taking into account indicators concerning violations of United Nations Global Compact principles and OECD Guidelines for Multinational Enterprises) and (2) issuers determined to have any tie to controversial weapons (taking into account indicators concerning ties to controversial weapons).

### - Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Fund's benchmark index excluded issuers with a "red" ESG controversy flag which excludes issuers which have been determined by the index provider to be in violation of the UN Guiding Principles on Business and Human Rights and OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

### How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the application of these minimum ESG and exclusionary criteria in the methodology of its benchmark index. The Investment Manager has determined that those PAIs marked in the table below as “F” are fully considered or “P” are partially considered, as part of the investment selection criteria of the benchmark index at each index rebalance. A PAI is partially considered where a BlackRock internal assessment has determined the sustainability indicator partially meets the regulatory definition of the PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards (“RTS”). A PAI is fully considered where a BlackRock internal assessment has determined the sustainability indicator captures the full regulatory definition as outlined in Annex 1 supplementing Regulation (EU) 2019/2088 RTS.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

#### Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

- Yes:
- In fossil gas
  - In nuclear energy
- No

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds\*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

### ● What was the share of investments made in transitional and enabling activities?

For the reference period, 0% of the Fund's investments were made in transitional and enabling activities.

### ● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

For the previous reference period, 0% of the Fund's investments were aligned with EU Taxonomy.

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

### ● What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

For the reference period, 26.90% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

### ● What was the share of socially sustainable investments?

For the reference period, 3.27% of the Fund's investments were classified as socially sustainable investments.

### ● What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" included cash, money market funds and derivatives, however such holdings did not exceed 20%. Such investments were used for the purpose of efficient portfolio management, except for derivatives used for currency hedging for any currency hedged share class. Any ESG rating or analyses applied by the index provider applied only to the derivatives relating to individual issuers used by the Fund. Derivatives based on financial indices, interest rates, or foreign exchange instruments were not considered against minimum environment or social safeguards.

### ● What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund met the environmental and social characteristics by tracking the environment and social characteristics of the benchmark index. The benchmark index methodology incorporates the environmental and social characteristics outlined (see section "To what extent were the environmental and/or social characteristics of the Fund met?").

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

### How did this financial product perform compared to the reference benchmark?

For the reference period, the Fund has designated the benchmark index as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund. The performance of the Fund compared to the benchmark index is outlined below.

#### How does the reference benchmark differ from a broad market index?

The benchmark index excluded issuers that did not meet its ESG selection criteria from its broad market index, the Bloomberg EUR Corporate 0-3 Year Total Return Index. The ESG selection criteria that is excluded is set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). Further details regarding the methodology of the benchmark index (including its constituents) are available on the index provider's website at <https://www.bloomberg.com/professional/product/indices/bloomberg-fixed-income-indices/#/ucits>.

#### How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

The Fund achieved the environmental and social characteristics it promotes through a portfolio that is primarily made up of securities that represent the Fund's benchmark index.

#### How did this financial product perform compared with the reference benchmark?

### ● How did the sustainability indicators perform?

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

Sustainability Indicator	Metric	2023	2022
Exclusion of issuers involved in certain activities deemed to have negative environmental and/or social outcomes (listed above)	% market value exposure to issuers involved in certain activities deemed to have negative environmental and/or social outcomes (listed above)	0.00%	0.00%

<sup>1</sup>The Fund's commitment to a minimum proportion of investments qualifying as Sustainable Investments became effective on 1 January 2023, and as a result was not reported on as part of the 2022 periodic report.

<sup>2</sup>Presentation of comparative targets have been aligned to the 2023 presentation within the periodic report.

### ● ...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference period (see section "How did the sustainability indicators perform?").

### ● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

During the reference period, the Fund invested 36.16% of its holdings in Sustainable Investments in pursuit of its investment objective.

The Fund's investments qualifying as Sustainable Investments were either in:  
(1) issuers involved in activities deemed to contribute to positive environmental and/or social impacts, or  
(2) issuers which have committed to one or more active carbon emissions reduction target(s) approved by the Science Based Targets initiative (SBTi).  
(3) fixed income securities which have been classified as "green bonds".

To be classified as a green bond, a bond's proceeds must be exclusively and formally applied to fund projects that fall within one or more qualifying environmental categories including alternative energy, energy efficiency, pollution prevention and control, sustainable water, green building and climate adaptation.

The Fund's investments were assessed against their revenue exposure to positive sustainable impacts in line with the United Nations' Sustainable Development Goals, the EU Taxonomy and other sustainability-related frameworks. The positive environmental impacts considered as part of this assessment may have related to themes such as climate change and natural capital and identify issuers that may have derived revenues from activities (or related activities) such as alternative energy, energy efficiency and green building, sustainable water, pollution prevention and control and sustainable agriculture. The positive societal impacts considered as part of this assessment may have related to themes such as basic needs and empowerment and identify companies that may have derived revenues from activities (or related activities) such as nutrition, major disease treatments, sanitation, affordable real estate, small and medium enterprise (SME) finance, education and connectivity.

## SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

iShares € Corp Bond ESG UCITS ETF (continued)

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

### ● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. At each index rebalance, all investments qualifying as Sustainable Investments were assessed against certain minimum environmental and social indicators. As part of the assessment, issuers were assessed on their involvement in activities deemed to have highly negative environmental and social impacts. Where an issuer was identified as being involved in activities with highly negative environmental and social impacts, it was not eligible as a Sustainable Investment.

For bonds qualifying as green bonds, the assessment was conducted at an issuance level based on the use of the proceeds of the bonds which must be formally and exclusively applied to promote climate or other environmental sustainability purposes. In addition, certain minimum safeguards and eligibility exclusions were incorporated in the selection of green bonds to avoid exposure to bonds associated with activities deemed to have highly negative environmental and societal impacts.

### - How were the indicators for adverse impacts on sustainability factors taken into account?

The mandatory indicators for adverse impacts on sustainability factors (as set out in the Regulatory Technical Standards ("RTS") under the SFDR) were considered at each index rebalance through the assessment of the Fund's investments qualifying as Sustainable Investments.

Following this assessment, the following investments did not qualify as Sustainable Investments: (1) issuers deemed to be deriving at least 1% of their revenue from thermal coal which is significantly carbon intensive and a major contributor to greenhouse gas emissions (taking into account indicators relating to GHG emissions) (2) issuers that have been deemed to be involved in severe ESG related controversies (taking into account indicators relating to greenhouse gas emissions, biodiversity, water, waste and social and employee matters), and (3) issuers which were deemed to be lagging industry peers based on their high exposure and failure to manage significant ESG risks (taking into account indicators relating to greenhouse gas emissions, biodiversity, water, waste, unadjusted gender pay gap and board gender diversity).

In respect of green bonds, the indicators for adverse impacts on sustainability factors were taken into account at each index rebalance and were assessed by the index provider at the issuance level based on an assessment of the use of proceeds of the bonds which must be formally and exclusively applied to promote climate or other environmental sustainability purposes. In addition, minimum safeguards and eligibility exclusions were applied by the index provider in the selection of green bonds to ensure the proceeds of which were not applied to activities with highly negative environmental and social outcomes. This includes through the minimum safeguards and eligibility exclusions of bonds with the use of proceeds linked to thermal coal extraction and power generation, significant biodiversity loss and controversial weapons.

The benchmark index also excluded: (1) issuers with a "red" MSCI ESG controversy flag which included issuers determined to be in violation of international and/or national standards (taking into account indicators concerning violations of United Nations Global Compact principles and OECD Guidelines for Multinational Enterprises) and (2) issuers determined to have any tie to controversial weapons (taking into account indicators concerning ties to controversial weapons).

### - Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Fund's benchmark index excluded issuers with a "red" ESG controversy flag which excludes issuers which have been determined by the index provider to be in violation of the UN Guiding Principles on Business and Human Rights and OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

### How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the application of these minimum ESG and exclusionary criteria in the methodology of its benchmark index. The Investment Manager has determined that those PAIs marked in the table below as “F” are fully considered or “P” are partially considered, as part of the investment selection criteria of the benchmark index at each index rebalance. A PAI is partially considered where a BlackRock internal assessment has determined the sustainability indicator partially meets the regulatory definition of the PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards (“RTS”). A PAI is fully considered where a BlackRock internal assessment has determined the sustainability indicator captures the full regulatory definition as outlined in Annex 1 supplementing Regulation (EU) 2019/2088 RTS.

Adverse Sustainability Indicator	Sustainability indicator		
	Exclusion of issuers based on certain environmental screens (listed above)	Exclusion of issuers based on an MSCI ESG controversy flag	Exclusion of issuers determined to have any tie to controversial weapons
Exposure to companies active in the fossil fuel sector	P		
Activities negatively affecting biodiversity-sensitive areas		P	
Emissions to water		P	
Hazardous waste and radioactive waste ratio		P	
Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises		F	
Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)			F

## SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

### iShares € Corp Bond ESG UCITS ETF (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

#### Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

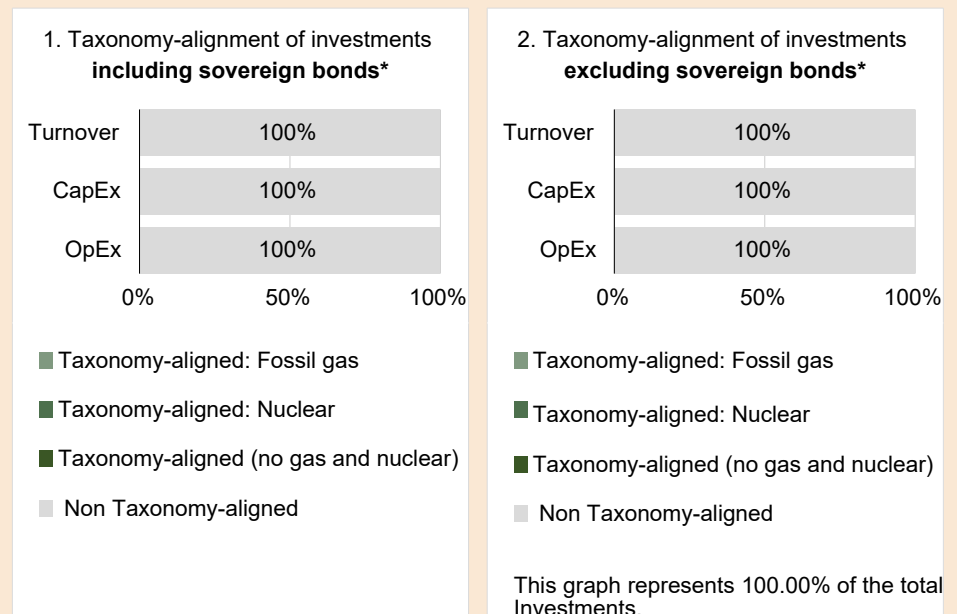

Yes:

In fossil gas       In nuclear energy

No

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds\*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

### ● What was the share of investments made in transitional and enabling activities?

For the reference period, 0% of the Fund's investments were made in transitional and enabling activities.

### ● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

For the previous reference period, 0% of the Fund's investments were aligned with EU Taxonomy.

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

### ● What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

For the reference period, 32.43% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

### ● What was the share of socially sustainable investments?

For the reference period, 3.72% of the Fund's investments were classified as socially sustainable investments.

### ● What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" included cash, money market funds and derivatives, however such holdings did not exceed 20%. Such investments were used for the purpose of efficient portfolio management, except for derivatives used for currency hedging for any currency hedged share class. Any ESG rating or analyses applied by the index provider applied only to the derivatives relating to individual issuers used by the Fund. Derivatives based on financial indices, interest rates, or foreign exchange instruments were not considered against minimum environment or social safeguards.

### ● What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund met the environmental and social characteristics by tracking the environment and social characteristics of the benchmark index. The benchmark index methodology incorporates the environmental and social characteristics outlined (see section "To what extent were the environmental and/or social characteristics of the Fund met?").

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

### How did this financial product perform compared to the reference benchmark?

For the reference period, the Fund has designated the benchmark index as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund. The performance of the Fund compared to the benchmark index is outlined below.

#### How does the reference benchmark differ from a broad market index?

The benchmark index excluded issuers that did not meet its ESG selection criteria from its broad market index, the Bloomberg Euro Corporate Bond Index. The ESG selection criteria that is excluded is set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). Further details regarding the methodology of the benchmark index (including its constituents) are available on the index provider's website at <https://www.bloomberg.com/professional/product/indices/bloomberg-fixed-income-indices/#/ucits>.

#### How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

The Fund achieved the environmental and social characteristics it promotes through a portfolio that is primarily made up of securities that represent the Fund's benchmark index.

#### How did this financial product perform compared with the reference benchmark?

### How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the application of these minimum ESG and exclusionary criteria in the methodology of its benchmark index. The Investment Manager has determined that those PAIs marked in the table below as “F” are fully considered or “P” are partially considered, as part of the investment selection criteria of the benchmark index at each index rebalance. A PAI is partially considered where a BlackRock internal assessment has determined the sustainability indicator partially meets the regulatory definition of the PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards (“RTS”). A PAI is fully considered where a BlackRock internal assessment has determined the sustainability indicator captures the full regulatory definition as outlined in Annex 1 supplementing Regulation (EU) 2019/2088 RTS.

Adverse Sustainability Indicator	Sustainability indicator		
	Exclusion of issuers based on certain environmental screens (listed above)	Exclusion of issuers based on an MSCI ESG controversy flag	Exclusion of issuers determined to have any tie to controversial weapons

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

### ● How did the sustainable investments not cause significant harm to any sustainable investment objective?

The Sustainable Investments held by the Fund during the reference period met the do no significant harm (“DNSH”) requirements, as defined by applicable law and regulation. At each index rebalance, all investments qualifying as Sustainable Investments were assessed against certain minimum environmental and social indicators. As part of the assessment, issuers were assessed on their involvement in activities deemed to have highly negative environmental and social impacts. Where an issuer was identified as being involved in activities with highly negative environmental and social impacts, it was not eligible as a Sustainable Investment.

For bonds qualifying as green bonds, the assessment was conducted at an issuance level based on the use of the proceeds of the bonds which must be formally and exclusively applied to promote climate or other environmental sustainability purposes. In addition, certain minimum safeguards and eligibility exclusions were incorporated in the selection of green bonds to avoid exposure to bonds associated with activities deemed to have highly negative environmental and societal impacts.

### - How were the indicators for adverse impacts on sustainability factors taken into account?

The mandatory indicators for adverse impacts on sustainability factors (as set out in the Regulatory Technical Standards (“RTS”) under the SFDR) were considered at each index rebalance through the assessment of the Fund’s investments.

The indicators for adverse impacts on sustainability factors were taken into account at each index rebalance and were assessed by the index provider at the issuance level based on an assessment of the use of proceeds of the bonds which must be formally and exclusively applied to promote climate or other environmental sustainability purposes. In addition, minimum safeguards and eligibility exclusions were applied by the index provider in the selection of green bonds to ensure the proceeds of which were not applied to activities with highly negative environmental and social outcomes. This includes through the minimum safeguards and eligibility exclusions of bonds with the use of proceeds linked to thermal coal extraction and power generation, significant biodiversity loss and controversial weapons.

The benchmark index also excluded issuers with a “red” MSCI ESG controversy flag which included issuers determined to be: (1) in violation of international and/or national standards (taking into account indicators concerning violations of United Nations Global Compact principles and OECD Guidelines for Multinational Enterprises) and (2) involved in very severe ESG related controversies taking into account indicators relating to greenhouse gas emissions, biodiversity, water, waste and social and employee matters.

### - Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

### How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the application of these minimum ESG and exclusionary criteria in the methodology of its benchmark index. The Investment Manager has determined that those PAIs marked in the table below as “F” are fully considered or “P” are partially considered, as part of the investment selection criteria of the benchmark index at each index rebalance. A PAI is partially considered where a BlackRock internal assessment has determined the sustainability indicator partially meets the regulatory definition of the PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards (“RTS”). A PAI is fully considered where a BlackRock internal assessment has determined the sustainability indicator captures the full regulatory definition as outlined in Annex 1 supplementing Regulation (EU) 2019/2088 RTS.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

#### Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

Yes:
   
      In fossil gas       In nuclear energy
   
 No

<sup>1</sup>Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds\*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

#### ● What was the share of investments made in transitional and enabling activities?

For the reference period, 0% of the Fund's investments were made in transitional and enabling activities.

#### ● How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?

For the previous reference period, 0% of the Fund's investments were aligned with EU Taxonomy.

\*Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

#### ● What was the share of sustainable investments\* with an environmental objective that were not aligned with the EU Taxonomy?

For the reference period, 98.63% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

#### ● What was the share of socially sustainable investments?

For the reference period, 0.44% of the Fund's investments were classified as socially sustainable investments.

#### ● What investments were included under "not sustainable", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "Not sustainable" included cash, money market funds and derivatives and shares or units of CIS and fixed income transferable securities (also known as debt securities) issued by governments and agencies worldwide, however such holdings did not exceed 10%. Such investments were used only for the purposes of liquidity management and/or hedging.

No other investments held by the Fund were assessed against minimum environmental or social safeguards.

#### ● What actions have been taken to attain the sustainable investment objective during the reference period?

The Fund met the environmental and social characteristics by tracking the environment and social characteristics of the benchmark index. The benchmark index methodology incorporates the environmental and social characteristics outlined (see section "To what extent was the sustainable investment objective of the Fund met?").

**Reference benchmarks** are indexes to measure whether the financial products attain the sustainable objective.

### How did this financial product perform compared to the reference sustainable benchmark?

For the reference period, the Fund has designated the benchmark index as a reference benchmark for the purpose of attaining the sustainable investment objective of the Fund. The performance of the Fund compared to the benchmark index is outlined below.

#### ● How does the reference benchmark differ from a broad market index?

The benchmark index excludes issuers that do not meet its ESG selection criteria from its broad market index, the Bloomberg Euro Aggregate Bond Index. The ESG selection criteria that is excluded is set out above (see To what extent was the sustainable investment objective of this financial product met?). Further details regarding the methodology of the benchmark index (including its constituents) are available on the index provider's website at <https://www.bloomberg.com/professional/product/indices/bloomberg-fixed-income-indices/#/ucits>.

#### ● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the sustainable investment objective?

The Fund achieved its sustainable investment objective in a portfolio that is primarily made up of securities that represent the Fund's benchmark index.

#### ● How did this financial product perform compared with the reference benchmark?

<sup>1</sup>The Fund's commitment to a minimum proportion of investments qualifying as Sustainable Investments became effective on 1 January 2023, and as a result was not reported on as part of the 2022 periodic report.

### ● ...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference period (see section "How did the sustainability indicators perform?").

### ● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

During the reference period, the Fund invested 49.41% of its holdings in Sustainable Investments in pursuit of its investment objective.

The Fund's investments qualifying as Sustainable Investments were either in:  
 (1) issuers involved in activities deemed to contribute to positive environmental and/or social impacts, or  
 (2) issuers which have committed to one or more active carbon emissions reduction target(s) approved by the Science Based Targets initiative (SBTi).  
 (3) fixed income securities which have been classified as "green bonds".

To be classified as a green bond, a bond's proceeds must be exclusively and formally applied to fund projects that fall within one or more qualifying environmental categories including alternative energy, energy efficiency, pollution prevention and control, sustainable water, green building and climate adaptation.

The Fund's investments were assessed against their revenue exposure to positive sustainable impacts in line with the United Nations' Sustainable Development Goals, the EU Taxonomy and other sustainability-related frameworks. The positive environmental impacts considered as part of this assessment may have related to themes such as climate change and natural capital and identify issuers that may have derived revenues from activities (or related activities) such as alternative energy, energy efficiency and green building, sustainable water, pollution prevention and control and sustainable agriculture. The positive societal impacts considered as part of this assessment may have related to themes such as basic needs and empowerment and identify companies that may have derived revenues from activities (or related activities) such as nutrition, major disease treatments, sanitation, affordable real estate, small and medium enterprise (SME) finance, education and connectivity.

## SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

iShares € High Yield Corp Bond ESG UCITS ETF (continued)

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

### ● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. At each index rebalance, all investments qualifying as Sustainable Investments were assessed against certain minimum environmental and social indicators. As part of the assessment, issuers were assessed on their involvement in activities deemed to have highly negative environmental and social impacts. Where an issuer was identified as being involved in activities with highly negative environmental and social impacts, it was not eligible as a Sustainable Investment.

For bonds qualifying as green bonds, the assessment was conducted at an issuance level based on the use of the proceeds of the bonds which must be formally and exclusively applied to promote climate or other environmental sustainability purposes. In addition, certain minimum safeguards and eligibility exclusions were incorporated in the selection of green bonds to avoid exposure to bonds associated with activities deemed to have highly negative environmental and societal impacts.

### - How were the indicators for adverse impacts on sustainability factors taken into account?

The mandatory indicators for adverse impacts on sustainability factors (as set out in the Regulatory Technical Standards ("RTS") under the SFDR) were considered at each index rebalance through the assessment of the Fund's investments qualifying as Sustainable Investments.

Following this assessment, the following investments did not qualify as Sustainable Investments: (1) issuers deemed to be deriving at least 1% of their revenue from thermal coal which is significantly carbon intensive and a major contributor to greenhouse gas emissions (taking into account indicators relating to GHG emissions) (2) issuers that have been deemed to be involved in severe ESG related controversies (taking into account indicators relating to greenhouse gas emissions, biodiversity, water, waste and social and employee matters), and (3) issuers which were deemed to be lagging industry peers based on their high exposure and failure to manage significant ESG risks (taking into account indicators relating to greenhouse gas emissions, biodiversity, water, waste, unadjusted gender pay gap and board gender diversity).

In respect of green bonds, the indicators for adverse impacts on sustainability factors were taken into account at each index rebalance and were assessed by the index provider at the issuance level based on an assessment of the use of proceeds of the bonds which must be formally and exclusively applied to promote climate or other environmental sustainability purposes. In addition, minimum safeguards and eligibility exclusions were applied by the index provider in the selection of green bonds to ensure the proceeds of which were not applied to activities with highly negative environmental and social outcomes. This includes through the minimum safeguards and eligibility exclusions of bonds with the use of proceeds linked to thermal coal extraction and power generation, significant biodiversity loss and controversial weapons.

The benchmark index also excluded: (1) issuers with a "red" MSCI ESG controversy flag which included issuers determined to be in violation of international and/or national standards (taking into account indicators concerning violations of United Nations Global Compact principles and OECD Guidelines for Multinational Enterprises) and (2) issuers determined to have any tie to controversial weapons (taking into account indicators concerning ties to controversial weapons).

### - Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Fund's benchmark index excluded issuers with a "red" ESG controversy flag which excludes issuers which have been determined by the index provider to be in violation of the UN Guiding Principles on Business and Human Rights and OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

### iShares € High Yield Corp Bond ESG UCITS ETF (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

#### Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

Yes:

In fossil gas       In nuclear energy

No

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds\*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

### ● What was the share of investments made in transitional and enabling activities?

For the reference period, 0% of the Fund's investments were made in transitional and enabling activities.

### ● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

For the previous reference period, 0% of the Fund's investments were aligned with EU Taxonomy.

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

### ● What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

For the reference period, 43.02% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

### ● What was the share of socially sustainable investments?

For the reference period, 6.39% of the Fund's investments were classified as socially sustainable investments.

### ● What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" included cash, money market funds and derivatives, however such holdings did not exceed 20%. Such investments were used for the purpose of efficient portfolio management, except for derivatives used for currency hedging for any currency hedged share class. Any ESG rating or analyses applied by the index provider applied only to the derivatives relating to individual issuers used by the Fund. Derivatives based on financial indices, interest rates, or foreign exchange instruments were not considered against minimum environment or social safeguards.

### ● What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund met the environmental and social characteristics by tracking the environment and social characteristics of the benchmark index. The benchmark index methodology incorporates the environmental and social characteristics outlined (see section "To what extent were the environmental and/or social characteristics of the Fund met?").

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

### How did this financial product perform compared to the reference benchmark?

For the reference period, the Fund has designated the benchmark index as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund. The performance of the Fund compared to the benchmark index is outlined below.

#### How does the reference benchmark differ from a broad market index?

The benchmark index excluded issuers that did not meet its ESG selection criteria from its broad market index, the Bloomberg Pan-European High Yield Index. The ESG selection criteria that is excluded is set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). Further details regarding the methodology of the benchmark index (including its constituents) are available on the index provider's website at <https://www.bloomberg.com/professional/product/indices/bloomberg-fixed-income-indices/#/ucits>.

#### How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

The Fund achieved the environmental and social characteristics it promotes through a portfolio that is primarily made up of securities that represent the Fund's benchmark index.

#### How did this financial product perform compared with the reference benchmark?

Sustainability Indicator	Metric	Fund	Reference benchmark
Exclusion of issuers involved in certain activities deemed to have negative environmental and/or social outcomes (listed above)	% market value exposure to issuers involved in certain activities deemed to have negative environmental and/or social outcomes (listed above)	0.00%	0.00%

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

#### ● ...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference period (see section "How did the sustainability indicators perform?").

#### ● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

#### ● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

#### - How were the indicators for adverse impacts on sustainability factors taken into account?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

#### - Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

#### How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the application of these minimum ESG and exclusionary criteria in the methodology of its benchmark index. The Investment Manager has determined that those PAIs marked in the table below as “F” are fully considered or “P” are partially considered, as part of the investment selection criteria of the benchmark index at each index rebalance. A PAI is partially considered where a BlackRock internal assessment has determined the sustainability indicator partially meets the regulatory definition of the PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards (“RTS”). A PAI is fully considered where a BlackRock internal assessment has determined the sustainability indicator captures the full regulatory definition as outlined in Annex 1 supplementing Regulation (EU) 2019/2088 RTS.

Adverse Sustainability Indicator	Sustainability indicator	
	Exclusion of issuers based on an ESG controversy score	Exclusion of issuers determined to have any tie to controversial weapons
Activities negatively affecting biodiversity-sensitive areas	P	
Emissions to water	P	
Hazardous waste and radioactive waste ratio	P	
Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)		F

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

#### How did this financial product perform compared to the reference benchmark?

For the reference period, the Fund has designated the benchmark index as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund. The performance of the Fund compared to the benchmark index is outlined below.

#### How does the reference benchmark differ from a broad market index?

The benchmark index excluded issuers that did not meet its ESG selection criteria from its broad market index, the Dow Jones Sustainability World Enlarged Index. The ESG selection criteria that is excluded is set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). Further details regarding the methodology of the benchmark index (including its constituents) are available on the index provider's website at <https://www.spglobal.com/spdji/en/indices/esg/dow-jones-sustainability-world-index-ex-alcohol-tobacco-gambling-armaments-firearms/#overview>.

#### How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

The Fund achieved the environmental and social characteristics it promotes through a portfolio that is primarily made up of securities that represent the Fund's benchmark index.

#### How did this financial product perform compared with the reference benchmark?

Sustainability Indicator	Metric	Fund	Reference benchmark
Exclusion of issuers involved in certain activities deemed to have negative environmental and/or social outcomes (listed above)	% market value exposure to issuers involved in certain activities deemed to have negative environmental and/or social outcomes (listed above)	0.00%	0.00%
Exclusion of issuers identified as being involved in ESG related controversies	% market value exposure to issuers identified as being involved in ESG related controversies	0.00%	0.00%

Exclusion of issuers deemed to have violated commonly accepted international norms and standards	% market value exposure to issuers deemed to have violated commonly accepted international norms and standards	0.00%	0.00%

### ● ...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference period (see section "How did the sustainability indicators perform?").

### ● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

During the reference period, the Fund invested 71.91% of its holdings in Sustainable Investments in pursuit of its investment objective.

The Fund's investments qualifying as Sustainable Investments were either in:  
 (1) companies involved in activities deemed to contribute to positive environmental and/or social impacts, or  
 (2) companies which have committed to one or more active carbon emissions reduction target(s) approved by the Science Based Targets initiative (SBTi).

The Fund's investments were assessed against their revenue exposure to positive sustainable impacts in line with the United Nations' Sustainable Development Goals, the EU Taxonomy and other sustainability-related frameworks. The positive environmental impacts considered as part of this assessment may have related to themes such as climate change and natural capital and identify companies that may have derived revenues from activities (or related activities) such as alternative energy, energy efficiency and green building, sustainable water, pollution prevention and control and sustainable agriculture. The positive societal impacts considered as part of this assessment may have related to themes such as basic needs and empowerment and identify companies that may have derived revenues from activities (or related activities) such as nutrition, major disease treatments, sanitation, affordable real estate, small and medium enterprise (SME) finance, education and connectivity.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

iShares Global Clean Energy UCITS ETF (continued)

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

### ● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. At each index rebalance, all investments qualifying as Sustainable Investments were assessed against certain minimum environmental and social indicators. As part of the assessment, companies were assessed on their involvement in activities deemed to have highly negative environmental and social impacts. Where a company was identified as being involved in activities with highly negative environmental and social impacts, it was not eligible as a Sustainable Investment.

### - How were the indicators for adverse impacts on sustainability factors taken into account?

The mandatory indicators for adverse impacts on sustainability factors (as set out in the Regulatory Technical Standards ("RTS") under the SFDR) were considered at each index rebalance through the screening criteria applied by the index provider in the selection of index constituents qualifying as Sustainable Investments.

As a result of the screening criteria applied by the index provider, the following investments within the benchmark index did not qualify as Sustainable Investments: (1) companies deriving a minimum % revenue from thermal coal (as determined by the index provider) which was significantly carbon intensive and a major contributor to greenhouse gas emissions (taking into account indicators relating to GHG emissions), (2) companies with an MSCI ESG controversy score of 1 or below that have been deemed to be involved in severe or very severe ESG related controversies (including in relation to indicators concerning greenhouse gas emissions, biodiversity, water, waste and social and employee matters), and (3) companies with an MSCI ESG rating of B or below, which were deemed to be lagging industry peers based on their high exposure and failure to manage significant ESG risks (including in relation to indicators concerning greenhouse gas emissions, biodiversity, water, waste, unadjusted gender pay gap and board gender diversity).

The benchmark index also excluded: (1) companies with a "red" MSCI ESG controversy flag which included companies determined to be in violation of international and/or national standards (taking into account indicators concerning violations of United Nations Global Compact principles and OECD Guidelines for Multinational Enterprises) and (2) companies determined to have any tie to controversial weapons (taking into account indicators concerning ties to controversial weapons).

### - Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Fund's benchmark index excluded companies with a "red" ESG controversy flag which excludes issuers which have been determined by the index provider to be in violation of the UN Guiding Principles on Business and Human Rights and OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

#### How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the application of these minimum ESG and exclusionary criteria in the methodology of its benchmark index. The Investment Manager has determined that those PAIs marked in the table below as “F” are fully considered or “P” are partially considered, as part of the investment selection criteria of the benchmark index at each index rebalance. A PAI is partially considered where a BlackRock internal assessment has determined the sustainability indicator partially meets the regulatory definition of the PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards (“RTS”). A PAI is fully considered where a BlackRock internal assessment has determined the sustainability indicator captures the full regulatory definition as outlined in Annex 1 supplementing Regulation (EU) 2019/2088 RTS.

Adverse Sustainability Indicator	Sustainability indicator				
	Exclusion of issuers based on certain environmental screens (listed above)	Exposure to companies in the clean energy sector	Exclusion of issuers based on an ESG controversy rating	Exclusion of issuers classified as violating commonly accepted international norms and standards	Exclusion of issuers determined to have any tie to controversial weapons
Greenhouse gas (GHG) emissions (Scope 1/2/3)			P		
Carbon footprint			P		
GHG intensity of investee companies			P		
Exposure to companies active in the fossil fuel sector	P

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

#### Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

- Yes:
- In fossil gas
  - In nuclear energy
- No

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds\*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

#### ● What was the share of investments made in transitional and enabling activities?

For the reference period, 0% of the Fund's investments were made in transitional and enabling activities.

#### ● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

For the previous reference period, 0% of the Fund's investments were aligned with EU Taxonomy.

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

#### ● What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

For the reference period, 71.87% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

#### ● What was the share of socially sustainable investments?

For the reference period, 0.03% of the Fund's investments were classified as socially sustainable investments.

#### ● What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" included cash, money market funds and derivatives, however such holdings did not exceed 20%. Such investments were used for the purpose of efficient portfolio management, except for derivatives used for currency hedging for any currency hedged share class. Any ESG rating or analyses applied by the index provider applied only to the derivatives relating to individual issuers used by the Fund. Derivatives based on financial indices, interest rates, or foreign exchange instruments were not considered against minimum environment or social safeguards.

#### ● What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund met the environmental and social characteristics by tracking the environment and social characteristics of the benchmark index. The benchmark index methodology incorporates the environmental and social characteristics outlined (see section "To what extent were the environmental and/or social characteristics of the Fund met?").

The Investment Manager is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The above table provides information about the performance of the sustainability indicators for the previous reference period (see section "How did the sustainability indicators perform?").

### ● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

During the reference period, the Fund invested 80.46% of its holdings in Sustainable Investments in pursuit of its investment objective.

The Fund's investments qualifying as Sustainable Investments were either in:  
 (1) companies involved in activities deemed to contribute to positive environmental and/or social impacts, or  
 (2) companies which have committed to one or more active carbon emissions reduction target(s) approved by the Science Based Targets initiative (SBTi).

The Fund's investments were assessed against their revenue exposure to positive sustainable impacts in line with the United Nations' Sustainable Development Goals, the EU Taxonomy and other sustainability-related frameworks. The positive environmental impacts considered as part of this assessment may have related to themes such as climate change and natural capital and identify companies that may have derived revenues from activities (or related activities) such as alternative energy, energy efficiency and green building, sustainable water, pollution prevention and control and sustainable agriculture. The positive societal impacts considered as part of this assessment may have related to themes such as basic needs and empowerment and identify companies that may have derived revenues from activities (or related activities) such as nutrition, major disease treatments, sanitation, affordable real estate, small and medium enterprise (SME) finance, education and connectivity.

### iShares Global Timber & Forestry UCITS ETF (continued)

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

#### ● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. At each index rebalance, all investments qualifying as Sustainable Investments were assessed against certain minimum environmental and social indicators. As part of the assessment, companies were assessed on their involvement in activities deemed to have highly negative environmental and social impacts. Where a company was identified as being involved in activities with highly negative environmental and social impacts, it was not eligible as a Sustainable Investment.

#### - How were the indicators for adverse impacts on sustainability factors taken into account?

The mandatory indicators for adverse impacts on sustainability factors (as set out in the Regulatory Technical Standards ("RTS") under the SFDR) were considered at each index rebalance through the screening criteria applied by the index provider in the selection of index constituents qualifying as Sustainable Investments.

As a result of the screening criteria applied by the index provider, the following investments within the benchmark index did not qualify as Sustainable Investments: (1) companies deriving a minimum % revenue from thermal coal (as determined by the index provider) which was significantly carbon intensive and a major contributor to greenhouse gas emissions (taking into account indicators relating to GHG emissions), (2) companies with an MSCI ESG controversy score of 1 or below that have been deemed to be involved in severe or very severe ESG related controversies (including in relation to indicators concerning greenhouse gas emissions, biodiversity, water, waste and social and employee matters), and (3) companies with an MSCI ESG rating of B or below, which were deemed to be lagging industry peers based on their high exposure and failure to manage significant ESG risks (including in relation to indicators concerning greenhouse gas emissions, biodiversity, water, waste, unadjusted gender pay gap and board gender diversity).

The benchmark index also excluded: (1) companies with a "red" MSCI ESG controversy flag which included companies determined to be in violation of international and/or national standards (taking into account indicators concerning violations of United Nations Global Compact principles and OECD Guidelines for Multinational Enterprises) and (2) companies determined to have any tie to controversial weapons (taking into account indicators concerning ties to controversial weapons).

#### - Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Fund's benchmark index excluded companies with a "red" ESG controversy flag which excludes issuers which have been determined by the index provider to be in violation of the UN Guiding Principles on Business and Human Rights and OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

#### How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the application of these minimum ESG and exclusionary criteria in the methodology of its benchmark index. The Investment Manager has determined that those PAIs marked in the table below as “F” are fully considered or “P” are partially considered, as part of the investment selection criteria of the benchmark index at each index rebalance. A PAI is partially considered where a BlackRock internal assessment has determined the sustainability indicator partially meets the regulatory definition of the PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards (“RTS”). A PAI is fully considered where a BlackRock internal assessment has determined the sustainability indicator captures the full regulatory definition as outlined in Annex 1 supplementing Regulation (EU) 2019/2088 RTS.

Adverse Sustainability Indicator	Sustainability indicator		
	Exclusion of issuers based on certain environmental screens (listed above)	Exclusion of issuers violating or are at risk of violating commonly accepted international norms and standards	Exclusion of issuers determined to have any tie to controversial weapons
Exposure to companies active in the fossil fuel sector	P		
Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises		F	
Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)			F

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

#### Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

- Yes:
- In fossil gas
  - In nuclear energy
- No

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds\*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

#### ● What was the share of investments made in transitional and enabling activities?

For the reference period, 0% of the Fund's investments were made in transitional and enabling activities.

#### ● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

For the previous reference period, 0% of the Fund's investments were aligned with EU Taxonomy.

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

#### ● What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

For the reference period, 75.57% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

#### ● What was the share of socially sustainable investments?

For the reference period, 4.90% of the Fund's investments were classified as socially sustainable investments.

#### ● What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" included cash, money market funds and derivatives, however such holdings did not exceed 20%. Such investments were used for the purpose of efficient portfolio management, except for derivatives used for currency hedging for any currency hedged share class. Any ESG rating or analyses applied by the index provider applied only to the derivatives relating to individual issuers used by the Fund. Derivatives based on financial indices, interest rates, or foreign exchange instruments were not considered against minimum environment or social safeguards.

#### ● What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund met the environmental and social characteristics by tracking the environment and social characteristics of the benchmark index. The benchmark index methodology incorporates the environmental and social characteristics outlined (see section "To what extent were the environmental and/or social characteristics of the Fund met?").

The Investment Manager is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. **Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

#### How did this financial product perform compared to the reference benchmark?

For the reference period, the Fund has designated the benchmark index as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund. The performance of the Fund compared to the benchmark index is outlined below.

#### How does the reference benchmark differ from a broad market index?

The benchmark index excluded issuers that did not meet its ESG selection criteria from its broad market index, the S&P Global BMI. The ESG selection criteria that is excluded is set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). Further details regarding the methodology of the benchmark index (including its constituents) are available on the index provider's website at <https://www.spglobal.com/spdji/en/indices/equity/sp-global-timber-and-forestry-index/#overview>.

#### How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

The Fund achieved the environmental and social characteristics it promotes through a portfolio that is primarily made up of securities that represent the Fund's benchmark index.

#### How did this financial product perform compared with the reference benchmark?

<sup>1</sup>The Fund's commitment to a minimum proportion of investments qualifying as Sustainable Investments became effective on 1 January 2023, and as a result was not reported on as part of the 2022 periodic report.

### ● ...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference period (see section "How did the sustainability indicators perform?").

### ● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

During the reference period, the Fund invested 56.65% of its holdings in Sustainable Investments in pursuit of its investment objective.

The Fund's investments qualifying as Sustainable Investments were either in:  
 (1) companies involved in activities deemed to contribute to positive environmental and/or social impacts, or  
 (2) companies which have committed to one or more active carbon emissions reduction target(s) approved by the Science Based Targets initiative (SBTi).

The Fund's investments were assessed against their revenue exposure to positive sustainable impacts in line with the United Nations' Sustainable Development Goals, the EU Taxonomy and other sustainability-related frameworks. The positive environmental impacts considered as part of this assessment may have related to themes such as climate change and natural capital and identify companies that may have derived revenues from activities (or related activities) such as alternative energy, energy efficiency and green building, sustainable water, pollution prevention and control and sustainable agriculture. The positive societal impacts considered as part of this assessment may have related to themes such as basic needs and empowerment and identify companies that may have derived revenues from activities (or related activities) such as nutrition, major disease treatments, sanitation, affordable real estate, small and medium enterprise (SME) finance, education and connectivity.

### iShares Global Water UCITS ETF (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

#### Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

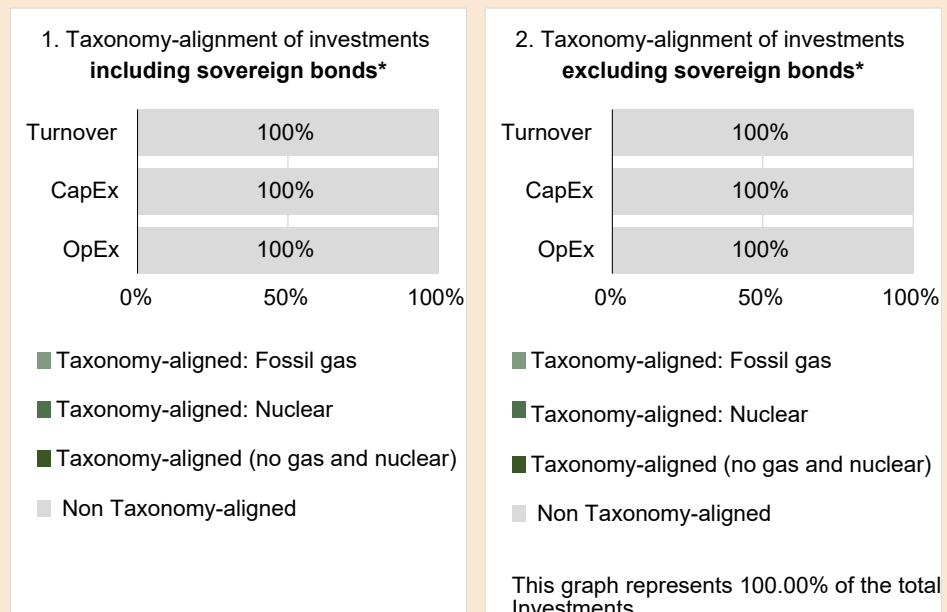

Yes:

In fossil gas       In nuclear energy

No

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds\*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

#### ● What was the share of investments made in transitional and enabling activities?

For the reference period, 0% of the Fund's investments were made in transitional and enabling activities.

#### ● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

For the previous reference period, 0% of the Fund's investments were aligned with EU Taxonomy.

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

#### ● What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

For the reference period, 51.59% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

#### ● What was the share of socially sustainable investments?

For the reference period, 5.06% of the Fund's investments were classified as socially sustainable investments.

#### ● What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" included cash, money market funds and derivatives, however such holdings did not exceed 20%. Such investments were used for the purpose of efficient portfolio management, except for derivatives used for currency hedging for any currency hedged share class. Any ESG rating or analyses applied by the index provider applied only to the derivatives relating to individual issuers used by the Fund. Derivatives based on financial indices, interest rates, or foreign exchange instruments were not considered against minimum environment or social safeguards.

#### ● What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund met the environmental and social characteristics by tracking the environment and social characteristics of the benchmark index. The benchmark index methodology incorporates the environmental and social characteristics outlined (see section "To what extent were the environmental and/or social characteristics of the Fund met?").

The Investment Manager is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. **Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

### How did this financial product perform compared to the reference benchmark?

For the reference period, the Fund has designated the benchmark index as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund. The performance of the Fund compared to the benchmark index is outlined below.

#### How does the reference benchmark differ from a broad market index?

The benchmark index excluded issuers that did not meet its ESG selection criteria from its broad market index, the S&P Global BMI. The ESG selection criteria that is excluded is set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). Further details regarding the methodology of the benchmark index (including its constituents) are available on the index provider's website at <https://www.spglobal.com/spdji/en/indices/esg/sp-global-water-index/#overview>.

#### How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

The Fund achieved the environmental and social characteristics it promotes through replicating the constituents of the Fund's benchmark index.

#### How did this financial product perform compared with the reference benchmark?

### How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the application of these minimum ESG and exclusionary criteria in the methodology of its benchmark index. The Investment Manager has determined that those PAIs marked in the table below as “F” are fully considered or “P” are partially considered, as part of the investment selection criteria of the benchmark index at each index rebalance. A PAI is partially considered where a BlackRock internal assessment has determined the sustainability indicator partially meets the regulatory definition of the PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards (“RTS”). A PAI is fully considered where a BlackRock internal assessment has determined the sustainability indicator captures the full regulatory definition as outlined in Annex 1 supplementing Regulation (EU) 2019/2088 RTS.

It promoted E/S characteristics, but **did not make any sustainable investments**

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

target of 10% is that, whilst the index provider's optimisation process ensures that the index decarbonisation rate is greater than or equal to 10% relative to the Parent Index, the decarbonisation rate may be less than 10% at the time of rebalancing, since prices may fluctuate in the nine days between index weights being determined and the index rebalance date.

<sup>2</sup>The Fund's commitment to a minimum proportion of investments qualifying as sustainable investments became effective on 1 January 2023, and as a result was not reported on as part of the 2022 periodic report.

<sup>3</sup>The aggregate portfolio values for each sustainability indicator are calculated as the average of the realised values on or around each applicable index rebalance during the reference period. In some instances, due to market movements between the index review and effective rebalance date/reporting date or differences in the weightings of the portfolio holdings compared to the index, the realised values diverged from the targets achieved by the index construction process.

<sup>4</sup>MSCI collects fossil fuel reserves data, where relevant, for companies which have reserves, typically in the oil & gas, coal mining and electric utilities industries and only fossil fuel reserves used for energy are taken into account. For newly added companies where data is not yet available, MSCI uses zero fossil fuel reserves. The size of a company's reserves is normalised by MSCI for size by dividing the potential carbon emissions of the company by its market capitalisation. Whilst the reduction in potential emissions shown in the table above is significantly higher than the target, this is primarily due to a relatively small number of companies for which data is available.

#### ● ...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference period (see section "How did the sustainability indicators perform?").

#### ● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

During the reference period, the Fund invested 53.24% of its holdings in Sustainable Investments in pursuit of its investment objective.

The Fund's investments qualifying as Sustainable Investments were either in:

- (1) companies involved in activities deemed to contribute to positive environmental and/or social impacts, or
- (2) companies which have committed to one or more active carbon emissions reduction target(s) approved by the Science Based Targets initiative (SBTi).

The Fund's investments were assessed against their revenue exposure to positive sustainable impacts in line with the United Nations' Sustainable Development Goals, the EU Taxonomy and other sustainability-related frameworks. The positive environmental impacts considered as part of this assessment may have related to themes such as climate change and natural capital and identify companies that may have derived revenues from activities (or related activities) such as alternative energy, energy efficiency and green building, sustainable water, pollution prevention and control and sustainable agriculture. The positive societal impacts considered as part of this assessment may have related to themes such as basic needs and empowerment and identify companies that may have derived revenues from activities (or related activities) such as nutrition, major disease treatments, sanitation, affordable real estate, small and medium enterprise (SME) finance, education and connectivity.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

#### ● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. At each index rebalance, all investments qualifying as Sustainable Investments were assessed against certain minimum environmental and social indicators. As part of the assessment, companies were assessed on their involvement in activities deemed to have highly negative environmental and social impacts. Where a company was identified as being involved in activities with highly negative environmental and social impacts, it was not eligible as a Sustainable Investment.

#### - How were the indicators for adverse impacts on sustainability factors taken into account?

The mandatory indicators for adverse impacts on sustainability factors (as set out in the Regulatory Technical Standards ("RTS") under the SFDR) were considered at each index rebalance through the screening criteria applied by the index provider in the selection of index constituents qualifying as Sustainable Investments.

As a result of the screening criteria applied by the index provider, the following investments within the benchmark index did not qualify as Sustainable Investments: (1) companies deriving a minimum % revenue from thermal coal (as determined by the index provider) which was significantly carbon intensive and a major contributor to greenhouse gas emissions (taking into account indicators relating to GHG emissions), (2) companies with an MSCI ESG controversy score of 1 or below that have been deemed to be involved in severe or very severe ESG related controversies (including in relation to indicators concerning greenhouse gas emissions, biodiversity, water, waste and social and employee matters), and (3) companies with an MSCI ESG rating of B or below, which were deemed to be lagging industry peers based on their high exposure and failure to manage significant ESG risks (including in relation to indicators concerning greenhouse gas emissions, biodiversity, water, waste, unadjusted gender pay gap and board gender diversity).

The benchmark index also excluded: (1) companies with a "red" MSCI ESG controversy flag which included companies determined to be in violation of international and/or national standards (taking into account indicators concerning violations of United Nations Global Compact principles and OECD Guidelines for Multinational Enterprises) and (2) companies determined to have any tie to controversial weapons (taking into account indicators concerning ties to controversial weapons).

#### - Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Fund's benchmark index excluded companies with a "red" ESG controversy flag which excludes issuers which have been determined by the index provider to be in violation of the UN Guiding Principles on Business and Human Rights and OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

### How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the application of these minimum ESG and exclusionary criteria in the methodology of its benchmark index. The Investment Manager has determined that those PAIs marked in the table below as “F” are fully considered or “P” are partially considered, as part of the investment selection criteria of the benchmark index at each index rebalance. A PAI is partially considered where a BlackRock internal assessment has determined the sustainability indicator partially meets the regulatory definition of the PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards (“RTS”). A PAI is fully considered where a BlackRock internal assessment has determined the sustainability indicator captures the full regulatory definition as outlined in Annex 1 supplementing Regulation (EU) 2019/2088 RTS.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

#### Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

Yes:

In fossil gas       In nuclear energy

No

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds\*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

#### ● What was the share of investments made in transitional and enabling activities?

For the reference period, 0% of the Fund's investments were made in transitional and enabling activities.

#### ● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

For the previous reference period, 0% of the Fund's investments were aligned with EU Taxonomy.

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

#### ● What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

For the reference period, 43.90% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

#### ● What was the share of socially sustainable investments?

For the reference period, 9.34% of the Fund's investments were classified as socially sustainable investments.

#### ● What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" included cash, money market funds and derivatives, however such holdings did not exceed 20%. Such investments were used for the purpose of efficient portfolio management, except for derivatives used for currency hedging for any currency hedged share class. Any ESG rating or analyses applied by the index provider applied only to the derivatives relating to individual issuers used by the Fund. Derivatives based on financial indices, interest rates, or foreign exchange instruments were not considered against minimum environment or social safeguards.

#### ● What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund met the environmental and social characteristics by tracking the environment and social characteristics of the benchmark index. The benchmark index methodology incorporates the environmental and social characteristics outlined (see section "To what extent were the environmental and/or social characteristics of the Fund met?").

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

### How did this financial product perform compared to the reference benchmark?

For the reference period, the Fund has designated the benchmark index as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund. The performance of the Fund compared to the benchmark index is outlined below.

#### How does the reference benchmark differ from a broad market index?

The benchmark index excluded issuers that did not meet its ESG selection criteria from its broad market index, the MSCI Europe Index. The ESG selection criteria that is excluded is set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). Further details regarding the methodology of the benchmark index (including its constituents) are available on the index provider's website at [https://www.msci.com/eqb/methodology/meth\\_docs/MSCI\\_Climate\\_Paris\\_Aligned\\_Benchmark\\_Select\\_Indexes\\_Methodology\\_August2021.pdf](https://www.msci.com/eqb/methodology/meth_docs/MSCI_Climate_Paris_Aligned_Benchmark_Select_Indexes_Methodology_August2021.pdf).

#### How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

The Fund achieved the environmental and social characteristics it promotes through replicating the constituents of the Fund's benchmark index.

Periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

iShares MSCI Europe Quality Dividend ESG UCITS ETF

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

Yes

No

It made **sustainable investments with an environmental objective**: \_\_\_%

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: \_\_\_%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 54.46% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

### Environmental and social characteristics promoted by the Fund

- Exposure to investments qualifying as Sustainable Investments
- Reduction (30%) in carbon emission intensity relative to the Parent Index
- Exclusion of issuers with a zero MSCI controversy score or no MSCI controversy score
- Exclusion of issuers involved in certain activities deemed to have negative environmental and/or social outcomes such as controversial weapons, nuclear weapons, conventional weapons, civilian firearms, tobacco, oil sands, thermal coal
- Exclusion of companies classified as violating United Nations Global Compact principles
- Improvement of weighted average ESG score versus the Parent Index
- Reduction (30%) in potential carbon emissions relative to the Parent Index

<sup>2</sup>Presentation of comparative targets have been aligned to the 2023 presentation within the periodic report.

<sup>3</sup>MSCI collects fossil fuel reserves data, where relevant, for companies which have reserves, typically in the oil & gas, coal mining and electric utilities industries and only fossil fuel reserves used for energy are taken into account. For newly added companies where data is not yet available, MSCI uses zero fossil fuel reserves. The size of a company's reserves is normalised by MSCI for size by dividing the potential carbon emissions of the company by its market capitalisation. Whilst the reduction in potential emissions shown in the table above is significantly higher than the target, this is primarily due to a relatively small number of companies for which data is available.

The above table provides information about the performance of the sustainability indicators for the previous reference period (see section "How did the sustainability indicators perform?").

### ● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

During the reference period, the Fund invested 54.46% of its holdings in Sustainable Investments in pursuit of its investment objective.

The Fund's investments qualifying as Sustainable Investments were either in:

- (1) companies involved in activities deemed to contribute to positive environmental and/or social impacts, or
- (2) companies which have committed to one or more active carbon emissions reduction target(s) approved by the Science Based Targets initiative (SBTi).

The Fund's investments were assessed against their revenue exposure to positive sustainable impacts in line with the United Nations' Sustainable Development Goals, the EU Taxonomy and other sustainability-related frameworks. The positive environmental impacts considered as part of

this assessment may have related to themes such as climate change and natural capital and identify companies that may have derived revenues from activities (or related activities) such as alternative energy, energy efficiency and green building, sustainable water, pollution prevention and control and sustainable agriculture. The positive societal impacts considered as part of this assessment may have related to themes such as basic needs and empowerment and identify companies that may have derived revenues from activities (or related activities) such as nutrition, major disease treatments, sanitation, affordable real estate, small and medium enterprise (SME) finance, education and connectivity.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

#### ● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. At each index rebalance, all investments qualifying as Sustainable Investments were assessed against certain minimum environmental and social indicators. As part of the assessment, companies were assessed on their involvement in activities deemed to have highly negative environmental and social impacts. Where a company was identified as being involved in activities with highly negative environmental and social impacts, it was not eligible as a Sustainable Investment.

#### - How were the indicators for adverse impacts on sustainability factors taken into account?

The mandatory indicators for adverse impacts on sustainability factors (as set out in the Regulatory Technical Standards ("RTS") under the SFDR) were considered at each index rebalance through the screening criteria applied by the index provider in the selection of index constituents qualifying as Sustainable Investments.

As a result of the screening criteria applied by the index provider, the following investments within the benchmark index did not qualify as Sustainable Investments: (1) companies deriving a minimum % revenue from thermal coal (as determined by the index provider) which was significantly carbon intensive and a major contributor to greenhouse gas emissions (taking into account indicators relating to GHG emissions), (2) companies with an MSCI ESG controversy score of 1 or below that have been deemed to be involved in severe or very severe ESG related controversies (including in relation to indicators concerning greenhouse gas emissions, biodiversity, water, waste and social and employee matters), and (3) companies with an MSCI ESG rating of B or below, which were deemed to be lagging industry peers based on their high exposure and failure to manage significant ESG risks (including in relation to indicators concerning greenhouse gas emissions, biodiversity, water, waste, unadjusted gender pay gap and board gender diversity).

The benchmark index also excluded: (1) companies with a "red" MSCI ESG controversy flag which included companies determined to be in violation of international and/or national standards (taking into account indicators concerning violations of United Nations Global Compact principles and OECD Guidelines for Multinational Enterprises) and (2) companies determined to have any tie to controversial weapons (taking into account indicators concerning ties to controversial weapons).

#### - Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Fund's benchmark index excluded companies with a "red" ESG controversy flag which excludes issuers which have been determined by the index provider to be in violation of the UN Guiding Principles on Business and Human Rights and OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

### How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the application of these minimum ESG and exclusionary criteria in the methodology of its benchmark index. The Investment Manager has determined that those PAIs marked in the table below as “F” are fully considered or “P” are partially considered, as part of the investment selection criteria of the benchmark index at each index rebalance. A PAI is partially considered where a BlackRock internal assessment has determined the sustainability indicator partially meets the regulatory definition of the PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards (“RTS”). A PAI is fully considered where a BlackRock internal assessment has determined the sustainability indicator captures the full regulatory definition as outlined in Annex 1 supplementing Regulation (EU) 2019/2088 RTS.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

#### Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

- Yes:
- In fossil gas
  - In nuclear energy
- No

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds\*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

#### ● What was the share of investments made in transitional and enabling activities?

For the reference period, 0% of the Fund's investments were made in transitional and enabling activities.

#### ● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

For the previous reference period, 0% of the Fund's investments were aligned with EU Taxonomy.

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

#### ● What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

For the reference period, 45.82% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

#### ● What was the share of socially sustainable investments?

For the reference period, 8.65% of the Fund's investments were classified as socially sustainable investments.

#### ● What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" included cash, money market funds and derivatives, however such holdings did not exceed 20%. Such investments were used for the purpose of efficient portfolio management, except for derivatives used for currency hedging for any currency hedged share class. Any ESG rating or analyses applied by the index provider applied only to the derivatives relating to individual issuers used by the Fund. Derivatives based on financial indices, interest rates, or foreign exchange instruments were not considered against minimum environment or social safeguards.

#### ● What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund met the environmental and social characteristics by tracking the environment and social characteristics of the benchmark index. The benchmark index methodology incorporates the environmental and social characteristics outlined (see section "To what extent were the environmental and/or social characteristics of the Fund met?").

The Investment Manager is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. **Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

### How did this financial product perform compared to the reference benchmark?

For the reference period, the Fund has designated the benchmark index as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund. The performance of the Fund compared to the benchmark index is outlined below.

#### How does the reference benchmark differ from a broad market index?

The benchmark index excluded issuers that did not meet its ESG selection criteria from its broad market index, the MSCI Europe High Dividend Yield Index. The ESG selection criteria that is excluded is set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). ### ● How did the sustainability indicators perform?

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

Sustainability Indicator	Metric	2023	2022
Exposure to investments qualifying as Sustainable Investments	% market value exposure to Sustainable Investments	54.86%	N/A <sup>1</sup>
Exclusion of issuers with a zero MSCI controversy score or no MSCI controversy score	% market value exposure to issuers with no MSCI controversy score or a score of 0	0.00%	0.00%
Exclusion of issuers with an MSCI ESG rating below BB	% market value exposure to issuers with an MSCI ESG rating below BB	0.00%	0.00%
Exclusion of issuers involved in certain activities deemed to have negative environmental and/or social outcomes (listed above)	% market value exposure to issuers involved in certain activities deemed to have negative environmental and/or social outcomes (listed above)	0.00%	0.00%

<sup>1</sup>The Fund's commitment to a minimum proportion of investments qualifying as Sustainable Investments became effective on 1 January 2023, and as a result was not reported on as part of the 2022 periodic report.

### ● ...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference period (see section "How did the sustainability indicators perform?").

### ● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

During the reference period, the Fund invested 54.86% of its holdings in Sustainable Investments in pursuit of its investment objective.

The Fund's investments qualifying as Sustainable Investments were either in:  
 (1) companies involved in activities deemed to contribute to positive environmental and/or social impacts, or  
 (2) companies which have committed to one or more active carbon emissions reduction target(s) approved by the Science Based Targets initiative (SBTi).

The Fund's investments were assessed against their revenue exposure to positive sustainable impacts in line with the United Nations' Sustainable Development Goals, the EU Taxonomy and other sustainability-related frameworks. The positive environmental impacts considered as part of this assessment may have related to themes such as climate change and natural capital and identify companies that may have derived revenues from activities (or related activities) such as alternative energy, energy efficiency and green building, sustainable water, pollution prevention and control and sustainable agriculture. The positive societal impacts considered as part of this assessment may have related to themes such as basic needs and empowerment and identify companies that may have derived revenues from activities (or related activities) such as nutrition, major disease treatments, sanitation, affordable real estate, small and medium enterprise (SME) finance, education and connectivity.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

### ● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. At each index rebalance, all investments qualifying as Sustainable Investments were assessed against certain minimum environmental and social indicators. As part of the assessment, companies were assessed on their involvement in activities deemed to have highly negative environmental and social impacts. Where a company was identified as being involved in activities with highly negative environmental and social impacts, it was not eligible as a Sustainable Investment.

#### - How were the indicators for adverse impacts on sustainability factors taken into account?

The mandatory indicators for adverse impacts on sustainability factors (as set out in the Regulatory Technical Standards ("RTS") under the SFDR) were considered at each index rebalance through the screening criteria applied by the index provider in the selection of index constituents qualifying as Sustainable Investments.

As a result of the screening criteria applied by the index provider, the following investments within the benchmark index did not qualify as Sustainable Investments: (1) companies deriving a minimum % revenue from thermal coal (as determined by the index provider) which was significantly carbon intensive and a major contributor to greenhouse gas emissions (taking into account indicators relating to GHG emissions), (2) companies with an MSCI ESG controversy score of 1 or below that have been deemed to be involved in severe or very severe ESG related controversies (including in relation to indicators concerning greenhouse gas emissions, biodiversity, water, waste and social and employee matters), and (3) companies with an MSCI ESG rating of B or below, which were deemed to be lagging industry peers based on their high exposure and failure to manage significant ESG risks (including in relation to indicators concerning greenhouse gas emissions, biodiversity, water, waste, unadjusted gender pay gap and board gender diversity).

The benchmark index also excluded: (1) companies with a "red" MSCI ESG controversy flag which included companies determined to be in violation of international and/or national standards (taking into account indicators concerning violations of United Nations Global Compact principles and OECD Guidelines for Multinational Enterprises) and (2) companies determined to have any tie to controversial weapons (taking into account indicators concerning ties to controversial weapons).

#### - Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Fund's benchmark index excluded companies with a "red" ESG controversy flag which excludes issuers which have been determined by the index provider to be in violation of the UN Guiding Principles on Business and Human Rights and OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

### How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the application of these minimum ESG and exclusionary criteria in the methodology of its benchmark index. The Investment Manager has determined that those PAIs marked in the table below as “F” are fully considered or “P” are partially considered, as part of the investment selection criteria of the benchmark index at each index rebalance. A PAI is partially considered where a BlackRock internal assessment has determined the sustainability indicator partially meets the regulatory definition of the PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards (“RTS”). A PAI is fully considered where a BlackRock internal assessment has determined the sustainability indicator captures the full regulatory definition as outlined in Annex 1 supplementing Regulation (EU) 2019/2088 RTS.

Adverse Sustainability Indicator	Sustainability indicator		
	Exclusion of issuers based on certain environmental screens (listed above)	Exclusion of issuers based on an MSCI ESG controversy flag	Exclusion of issuers determined to have any tie to controversial weapons
Exposure to companies active in the fossil fuel sector	P		
Activities negatively affecting biodiversity-sensitive areas		P	
Emissions to water		P	
Hazardous waste and radioactive waste ratio		P	
Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises		F

### iShares MSCI Europe SRI UCITS ETF (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

#### Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

Yes:

In fossil gas       In nuclear energy

No

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds\*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

### ● What was the share of investments made in transitional and enabling activities?

For the reference period, 0% of the Fund's investments were made in transitional and enabling activities.

### ● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

For the previous reference period, 0% of the Fund's investments were aligned with EU Taxonomy.

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

### ● What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

For the reference period, 44.85% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

### ● What was the share of socially sustainable investments?

For the reference period, 10.01% of the Fund's investments were classified as socially sustainable investments.

### ● What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" included cash, money market funds and derivatives, however such holdings did not exceed 20%. Such investments were used for the purpose of efficient portfolio management, except for derivatives used for currency hedging for any currency hedged share class. Any ESG rating or analyses applied by the index provider applied only to the derivatives relating to individual issuers used by the Fund. Derivatives based on financial indices, interest rates, or foreign exchange instruments were not considered against minimum environment or social safeguards.

### ● What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund met the environmental and social characteristics by tracking the environment and social characteristics of the benchmark index. The benchmark index methodology incorporates the environmental and social characteristics outlined (see section "To what extent were the environmental and/or social characteristics of the Fund met?").

The Investment Manager is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. **Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

### How did this financial product perform compared to the reference benchmark?

For the reference period, the Fund has designated the benchmark index as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund. The performance of the Fund compared to the benchmark index is outlined below.

#### How does the reference benchmark differ from a broad market index?

The benchmark index excluded issuers that did not meet its ESG selection criteria from its broad market index, the MSCI Europe Index. The ESG selection criteria that is excluded is set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). Further details regarding the methodology of the benchmark index (including its constituents) are available on the index provider's website at <https://www.msci.com/index/methodology/latest/SRIReducedFossilFuel>.

#### How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

The Fund achieved the environmental and social characteristics it promotes through a portfolio that is primarily made up of securities that represent the Fund's benchmark index.

#### How did this financial product perform compared with the reference benchmark?

<sup>1</sup>The Fund's commitment to a minimum proportion of investments qualifying as Sustainable Investments became effective on 1 January 2023, and as a result was not reported on as part of the 2022 periodic report.

<sup>2</sup>Presentation of comparative targets have been aligned to the 2023 presentation within the periodic report.

<sup>3</sup>MSCI collects fossil fuel reserves data, where relevant, for companies which have reserves, typically in the oil & gas, coal mining and electric utilities industries and only fossil fuel reserves used for energy are taken into account. For newly added companies where data is not yet available, MSCI uses zero fossil fuel reserves. The size of a company's reserves is normalised by MSCI for size by dividing the potential carbon emissions of the company by its market capitalisation. Whilst the reduction in potential emissions shown in the table above is significantly higher than the target, this is primarily due to a relatively small number of companies for which data is available.

The above table provides information about the performance of the sustainability indicators for the previous reference period (see section "How did the sustainability indicators perform?").

### ● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

During the reference period, the Fund invested 30.64% of its holdings in Sustainable Investments in pursuit of its investment objective. The Fund's investments qualifying as Sustainable Investments were either in:

- (1) companies involved in activities deemed to contribute to positive environmental and/or social impacts, or
- (2) companies which have committed to one or more active carbon emissions reduction target(s) approved by the Science Based Targets initiative (SBTi).

The Fund's investments were assessed against their revenue exposure to positive sustainable impacts in line with the United Nations' Sustainable Development Goals, the EU Taxonomy and other sustainability-related frameworks. The positive environmental impacts considered as part of

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

### iShares MSCI USA Quality Dividend ESG UCITS ETF (continued)

this assessment may have related to themes such as climate change and natural capital and identify companies that may have derived revenues from activities (or related activities) such as alternative energy, energy efficiency and green building, sustainable water, pollution prevention and control and sustainable agriculture. The positive societal impacts considered as part of this assessment may have related to themes such as basic needs and empowerment and identify companies that may have derived revenues from activities (or related activities) such as nutrition, major disease treatments, sanitation, affordable real estate, small and medium enterprise (SME) finance, education and connectivity.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

#### ● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. At each index rebalance, all investments qualifying as Sustainable Investments were assessed against certain minimum environmental and social indicators. As part of the assessment, companies were assessed on their involvement in activities deemed to have highly negative environmental and social impacts. Where a company was identified as being involved in activities with highly negative environmental and social impacts, it was not eligible as a Sustainable Investment.

#### - How were the indicators for adverse impacts on sustainability factors taken into account?

The mandatory indicators for adverse impacts on sustainability factors (as set out in the Regulatory Technical Standards ("RTS") under the SFDR) were considered at each index rebalance through the screening criteria applied by the index provider in the selection of index constituents qualifying as Sustainable Investments.

As a result of the screening criteria applied by the index provider, the following investments within the benchmark index did not qualify as Sustainable Investments: (1) companies deriving a minimum % revenue from thermal coal (as determined by the index provider) which was significantly carbon intensive and a major contributor to greenhouse gas emissions (taking into account indicators relating to GHG emissions), (2) companies with an MSCI ESG controversy score of 1 or below that have been deemed to be involved in severe or very severe ESG related controversies (including in relation to indicators concerning greenhouse gas emissions, biodiversity, water, waste and social and employee matters), and (3) companies with an MSCI ESG rating of B or below, which were deemed to be lagging industry peers based on their high exposure and failure to manage significant ESG risks (including in relation to indicators concerning greenhouse gas emissions, biodiversity, water, waste, unadjusted gender pay gap and board gender diversity).

The benchmark index also excluded: (1) companies with a "red" MSCI ESG controversy flag which included companies determined to be in violation of international and/or national standards (taking into account indicators concerning violations of United Nations Global Compact principles and OECD Guidelines for Multinational Enterprises) and (2) companies determined to have any tie to controversial weapons (taking into account indicators concerning ties to controversial weapons).

#### - Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Fund's benchmark index excluded companies with a "red" ESG controversy flag which excludes issuers which have been determined by the index provider to be in violation of the UN Guiding Principles on Business and Human Rights and OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

### How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the application of these minimum ESG and exclusionary criteria in the methodology of its benchmark index. The Investment Manager has determined that those PAIs marked in the table below as “F” are fully considered or “P” are partially considered, as part of the investment selection criteria of the benchmark index at each index rebalance. A PAI is partially considered where a BlackRock internal assessment has determined the sustainability indicator partially meets the regulatory definition of the PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards (“RTS”). A PAI is fully considered where a BlackRock internal assessment has determined the sustainability indicator captures the full regulatory definition as outlined in Annex 1 supplementing Regulation (EU) 2019/2088 RTS.

Adverse Sustainability Indicator	Sustainability indicator				
	Minimum % reduction of carbon mission intensity and potential carbon emissions targets	Exclusion of issuers based on certain environmental screens (listed above)	Exclusion of issuers based on an MSCI ESG Controversy Score	Exclusion of issuers classified as violating United Nations Global Compact principles	Exclusion of issuers determined to have any tie to controversial weapons

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

#### Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

Yes:

In fossil gas       In nuclear energy

No

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds\*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

#### ● What was the share of investments made in transitional and enabling activities?

For the reference period, 0% of the Fund's investments were made in transitional and enabling activities.

#### ● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

For the previous reference period, 0% of the Fund's investments were aligned with EU Taxonomy.

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

#### ● What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

For the reference period, 25.43% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

#### ● What was the share of socially sustainable investments?

For the reference period, 5.21% of the Fund's investments were classified as socially sustainable investments.

#### ● What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" included cash, money market funds and derivatives, however such holdings did not exceed 20%. Such investments were used for the purpose of efficient portfolio management, except for derivatives used for currency hedging for any currency hedged share class. Any ESG rating or analyses applied by the index provider applied only to the derivatives relating to individual issuers used by the Fund. Derivatives based on financial indices, interest rates, or foreign exchange instruments were not considered against minimum environment or social safeguards.

#### ● What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund met the environmental and social characteristics by tracking the environment and social characteristics of the benchmark index. The benchmark index methodology incorporates the environmental and social characteristics outlined (see section "To what extent were the environmental and/or social characteristics of the Fund met?").

The Investment Manager is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. **Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

### How did this financial product perform compared to the reference benchmark?

For the reference period, the Fund has designated the benchmark index as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund. The performance of the Fund compared to the benchmark index is outlined below.

#### How does the reference benchmark differ from a broad market index?

The benchmark index excluded issuers that did not meet its ESG selection criteria from its broad market index, the MSCI USA High Dividend Yield Index. The ESG selection criteria that is excluded is set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). Further details regarding the methodology of the benchmark index (including its constituents) are available on the index provider's website at <https://www.msci.com/index/methodology/latest/HDYESGRedCarTar>.

#### How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

The Fund achieved the environmental and social characteristics it promotes through replicating the constituents of the Fund's benchmark index.

<sup>3</sup>MSCI collects fossil fuel reserves data, where relevant, for companies which have reserves, typically in the oil & gas, coal mining and electric utilities industries and only fossil fuel reserves used for energy are taken into account. For newly added companies where data is not yet available, MSCI uses zero fossil fuel reserves. The size of a company's reserves is normalised by MSCI for size by dividing the potential carbon emissions of the company by its market capitalisation. Whilst the reduction in potential emissions shown in the table above is significantly higher than the target, this is primarily due to a relatively small number of companies for which data is available.

The above table provides information about the performance of the sustainability indicators for the previous reference period (see section "How did the sustainability indicators perform?").

### ● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

During the reference period, the Fund invested 38.53% of its holdings in Sustainable Investments in pursuit of its investment objective.

The Fund's investments qualifying as Sustainable Investments were either in:

- (1) companies involved in activities deemed to contribute to positive environmental and/or social impacts, or
- (2) companies which have committed to one or more active carbon emissions reduction target(s) approved by the Science Based Targets initiative (SBTi).

The Fund's investments were assessed against their revenue exposure to positive sustainable impacts in line with the United Nations' Sustainable Development Goals, the EU Taxonomy and other sustainability-related frameworks. The positive environmental impacts considered as part of

this assessment may have related to themes such as climate change and natural capital and identify companies that may have derived revenues from activities (or related activities) such as alternative energy, energy efficiency and green building, sustainable water, pollution prevention and control and sustainable agriculture. The positive societal impacts considered as part of this assessment may have related to themes such as basic needs and empowerment and identify companies that may have derived revenues from activities (or related activities) such as nutrition, major disease treatments, sanitation, affordable real estate, small and medium enterprise (SME) finance, education and connectivity.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

#### ● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. At each index rebalance, all investments qualifying as Sustainable Investments were assessed against certain minimum environmental and social indicators. As part of the assessment, companies were assessed on their involvement in activities deemed to have highly negative environmental and social impacts. Where a company was identified as being involved in activities with highly negative environmental and social impacts, it was not eligible as a Sustainable Investment.

#### - How were the indicators for adverse impacts on sustainability factors taken into account?

The mandatory indicators for adverse impacts on sustainability factors (as set out in the Regulatory Technical Standards ("RTS") under the SFDR) were considered at each index rebalance through the screening criteria applied by the index provider in the selection of index constituents qualifying as Sustainable Investments.

As a result of the screening criteria applied by the index provider, the following investments within the benchmark index did not qualify as Sustainable Investments: (1) companies deriving a minimum % revenue from thermal coal (as determined by the index provider) which was significantly carbon intensive and a major contributor to greenhouse gas emissions (taking into account indicators relating to GHG emissions), (2) companies with an MSCI ESG controversy score of 1 or below that have been deemed to be involved in severe or very severe ESG related controversies (including in relation to indicators concerning greenhouse gas emissions, biodiversity, water, waste and social and employee matters), and (3) companies with an MSCI ESG rating of B or below, which were deemed to be lagging industry peers based on their high exposure and failure to manage significant ESG risks (including in relation to indicators concerning greenhouse gas emissions, biodiversity, water, waste, unadjusted gender pay gap and board gender diversity).

The benchmark index also excluded: (1) companies with a "red" MSCI ESG controversy flag which included companies determined to be in violation of international and/or national standards (taking into account indicators concerning violations of United Nations Global Compact principles and OECD Guidelines for Multinational Enterprises) and (2) companies determined to have any tie to controversial weapons (taking into account indicators concerning ties to controversial weapons).

#### - Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Fund's benchmark index excluded companies with a "red" ESG controversy flag which excludes issuers which have been determined by the index provider to be in violation of the UN Guiding Principles on Business and Human Rights and OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

### How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the application of these minimum ESG and exclusionary criteria in the methodology of its benchmark index. The Investment Manager has determined that those PAIs marked in the table below as “F” are fully considered or “P” are partially considered, as part of the investment selection criteria of the benchmark index at each index rebalance. A PAI is partially considered where a BlackRock internal assessment has determined the sustainability indicator partially meets the regulatory definition of the PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards (“RTS”). A PAI is fully considered where a BlackRock internal assessment has determined the sustainability indicator captures the full regulatory definition as outlined in Annex 1 supplementing Regulation (EU) 2019/2088 RTS.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

### iShares MSCI World Quality Dividend ESG UCITS ETF (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

#### Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

Yes:

In fossil gas       In nuclear energy

No

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds\*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

### iShares MSCI World Quality Dividend ESG UCITS ETF (continued)

#### ● What was the share of investments made in transitional and enabling activities?

For the reference period, 0% of the Fund's investments were made in transitional and enabling activities.

#### ● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

For the previous reference period, 0% of the Fund's investments were aligned with EU Taxonomy.

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

#### ● What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

For the reference period, 29.43% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

#### ● What was the share of socially sustainable investments?

For the reference period, 9.10% of the Fund's investments were classified as socially sustainable investments.

#### ● What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" included cash, money market funds and derivatives, however such holdings did not exceed 20%. Such investments were used for the purpose of efficient portfolio management, except for derivatives used for currency hedging for any currency hedged share class. Any ESG rating or analyses applied by the index provider applied only to the derivatives relating to individual issuers used by the Fund. Derivatives based on financial indices, interest rates, or foreign exchange instruments were not considered against minimum environment or social safeguards.

#### ● What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund met the environmental and social characteristics by tracking the environment and social characteristics of the benchmark index. The benchmark index methodology incorporates the environmental and social characteristics outlined (see section "To what extent were the environmental and/or social characteristics of the Fund met?").

The Investment Manager is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Manager's activities under the SRD are available on BlackRock's website at:

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

### How did this financial product perform compared to the reference benchmark?

For the reference period, the Fund has designated the benchmark index as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund. The performance of the Fund compared to the benchmark index is outlined below.

#### How does the reference benchmark differ from a broad market index?

The benchmark index excluded issuers that did not meet its ESG selection criteria from its broad market index, the MSCI World High Dividend Yield Index. The ESG selection criteria that is excluded is set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). Further details regarding the methodology of the benchmark index (including its constituents) are available on the index provider's website at <https://www.msci.com/index/methodology/latest/HDYESGRedCarTar>.

#### How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

The Fund achieved the environmental and social characteristics it promotes through replicating the constituents of the Fund's benchmark index.
